Announcement

Symposium in Honour of G. N. Jenkins
Newcastle upon Tyne, September 30, 1980

Prof. Neil Jenkins retires from the Chair of Oral Physiology at the University of Newcastle upon Tyne at the end of September 1980. In his 35 years in basic dental science, he has laid the foundation of much British and foreign work in the field. His textbook is acknowledged as the authoritative work in oral physiology and biochemistry. Those who have worked with him in Newcastle plan to give a symposium in his honour, reviewing the work begun there and contributing new facets from their present research. The symposium will take place in the Dental School at Newcastle upon Tyne on Tuesday, September 30, between 10.30 and 17.00.

The provisional programme includes papers on saliva, plaque, fluoride and protective foods: speakers include Dawes, Edgar, Ferguson, Geddes, Katayama, Kleinberg, Rugg Gunn, Speirs, Stephen and Tatevossian. For further details, please contact Dr. D. B. Ferguson, Department of Physiology, The Medical School, University of Manchester, Manchester M13 9PT (England).
