Erratum

Caries Research Vol. 31, No. 4, 1997 (including the Abstracts of the 44 ORCA Congress):
On page 288, abstract 23 entitled ‘Caries Inhibition in Rats by a Remineralizing Dentifrice’ (by J. M. Tanzer et al.), the second last sentence should be corrected and then read:
‘Therefore, E2 and C are inhibitory to caries in a standard dentifrice assessment test, but E2 is superior to C in some tooth surface categories.’
