The Copenhagen Congress
August 15-18, 1977

The 17th International Congress of Logopedics and Phoniatrics was arranged by Nils Buck and his coworkers at the Bella Center, close to beautiful Copenhagen. The congress was attended by some 800 participants from all parts of the world. A very good organization with parallel sessions and excellent simultaneous translation into English, French and German in the main congress hall, as well as social and touristic possibilities left us an excellent souvenir. We express our gratitude to the organizers.

The four main reports, previously published in Folia Phoniatrica 29/1 (1977) were presented by G. Ungeheuer and D. Wagner: Extraverbal Communication; J. Jordal: ‘Treatment of Severe Language Disorders in Children’; J. Eisenson: ‘Language Rehabilitation of Aphasic Adults: Some Observations on the State of the Art’; B. Vallancien; L. Gaches and J.L. Heitz: ‘Estimation of the Results of a Vocal Therapy’. A total of 227 papers and scientific films have been accepted and the abstracts were published in Folia Phoniatrica 28/4-5 (1976).

IALP History
In 1974, IALP was 50 years old. To celebrate this, it was decided to write the history of IALP.
Jorge Perello accepted the task, and he finished it at the beginning of 1977 by publishing a book
of 74 pages. The printing of the book was paid by the IALP treasury, and a copy was sent to each individual member. The non-member participants of the Copenhagen congress received copies with an invitation to join IALP.

International Year of the Child

On December 21, 1976, the General Assembly of the United Nations passed a resolution declaring 1979 the International Year of the Child (IYC). This UN resolution designated UNICEF as the leading agency for the UN system, responsible for the coordination of IYC activities. IALP has declared its wish to be a full member of a IYC Coordinating Committee and to participate in the arrangements of the IYC. The emphasis is on action at the national level. It has been proposed that each country should establish as soon as possible, a broadly representative National Commission for IYC for planning and coordination.

Journals

During the IALP congress in Copenhagen, an improvised meeting initiated by Bo Ege, Copenhagen, was held on August 16, 1977. The persons who took part in the meeting were editors of national and international journals of logopedics and phoniatrics. Nine countries were represented: Denmark, Finland, Great Britain, Italy, Japan, The Netherlands, Norway, Sweden and Switzerland. Cooperation between journals of logopedics and phoniatrics -with, if possible, an exchange of articles and/or abstracts – was considered necessary and interesting by all participants. An increased knowledge about what’s happening in different countries will give us all a feeling of unity and strength and help us in our daily work. It was decided that a more elaborate meeting of as many editors as possible would be held at the next congress in Washington in 1980 where Bo Ege, head editor of the Scandinavian Journal of Logopedics and Phoniatrics, intends to present an expose on these matters. For these reasons, an appeal is made to all editors of journals, national or international, connected with logopedics and phoniatrics: please send names of the journals and contact persons to: Bo Ege, Kastelsvej 4, DK-2100 Copenhagen, Denmark.
