I/VLP Informative and consultative status (category B) with UNESCO, UNICEF, WHO, ECOSOC and CIOMS

Treasurer’s Report for the period 30th June 1983 to 30th June 1986

The balance presented to the General Assembly in Edinburgh (August 1983) was 6,522.14 US$ and 5,286 SF.

Income
This amounted over the last 3 years to 12,686.25 US$ and 7,785.72 FS from Affiliated Societies and 100 US$ and 16,987.25 FS from Individual Members.

Although Individual Membership dues will be increased from 65 to 79 US$ in 1987 to cover increased publishing costs for Folia Phoniatria, the contribution which goes to the Association will remain 22 FS per person.

Extremely welcome was a donation from the college of Speech Therapists GB; a profit from the Edinburgh Congress due to an unexpectedly high number of late registrations.

Interest received amounted to a total of 1,869.60 FS, including interest at 4½% from the deposit account ‘Reserve Fund’.

Expenditure
The major expense incurred was that of the Secretariat; however, participation to secretarial costs were kept to a minimum.

The main Executive expenses were participation to air fares. Two Executive Board meetings were held in Europe, attended by our President from America, and the General Secretary represented the Association at the Asha Convention in San Francisco and at a meeting of the newly founded Greek Association for Logopedics and Phoniatrics.

Contribution of International Organizations (WHO, UNICEF, UNESCO) amounted to a total of 1,019.20 FS.

Affiliated Societies continued to receive IALP News: total cost of 5,598.90 FS, excluding postage.

Due to amendments made to the By-Laws by the General Assembly in 1983, new copies were published and sent to all individual members in 1984.

Two directories, containing names and addresses of Individual Members and Affiliated Societies, were printed in 1985 and 1986 at a total cost of 3,794 FS.

The Garcia Prize (500 US$) was presented at the IALP Tokyo Congress.

The Fluency Committee and the Aphasia Committee applied for and received a grant of 2,000 FS each towards activities sponsored by these committees.

39,060 FS of the contribution from the College of Speech Therapists GB were transferred to a new deposit account ‘Operating Fund’ in order to obtain a ‘higher rate of interest (3.5%).

Balance
The balance of the two current accounts on 30th June 1986 was 10,945.44 US$ and 14,113.36 FS (total of approx. 19,445 US$ at the present rate of exchange).
The balance of the deposit account ‘Reserve Fund’ remains of 20,000 FS.
After a contribution of 5,000 FS for congress expenses, 2,278.45 FS towards travelling expenses of Main Reporters, and a total of 3,000 FS to those Board Members and Chair Persons who attended the 1986 IALP in Tokyo, the balance of the deposit account ‘Operating Fund’ on 30th June 1986 was 30,042.45 FS.

Auditors
The Auditor’s Committee, Dr. L. van Gelder and Dr. L. Hanzel examined all financial documents relating to income and expenditure and stated that the financial statements gave a true and fair view of the state of affairs of the Association as of June 30, 1986. They concluded that the activities of the Treasurer had well been in accordance with the interest of IALP.

Lucio Croatto, Treasurer

IALP News
Leonid Dmitriev †
It is with deep sorrow that we inform our readers of the sudden death of our colleague and friend, Leonid Dmitriev.

He was born in Kolomna, Moscow, January 12, 1917. He studied medicine and at the same time took a doctor’s degree in arts. These two activities led him to the direction of the Department of Phoniatry of the Russian ENT Association.

Shortly afterwards, he was nominated professor at the Institute of musical pedagogy of Moscow. He was one of the editors of Folia Phoniatrica where he published several of his investigations on the singing voice.

He attended regularly the meetings of the European Phoniatricians and was held in great regard for his kindness and naturalness. In our meeting we shall miss the presence of the representative of the immense Russia.

J. Perelló

New: IALP Committee on Augmented Communication Systems
It was a need to create such a committee. Dr. David Yoder, Past President of ASHA and Professor at the North Carolina University, is in charge of this committee, the purpose of which is: (a) to advance the information base of Augmented Communication Systems (ACS); (b) to cooperate in exchanging information with other professional associations and persons throughout the world interested in research and clinical service for the improvement of communication for the severely speech-impaired.

This committee is for the moment composed of:

Mrs. Judy Seligman-Wine Israel

Dr. Joseph G. Sheehan †
The memory of Dr. J.G. Sheehan was honored during the XXth IALP Congress held in August in Tokyo. Dr. Joseph G. Sheehan devoted his life to the study of stuttering and made major contributions to the theory of stuttering as an approach-avoidance conflict. His major presentations on the topic of stuttering received world-wide attention. Dr. Sheehan’s work has been considered as a ‘classical contribution’ and his many research and clinical therapy books and articles have been read by four generations of speech-language pathology students.

Adjustment to Acquired Hearing Loss
April 9-13, 1987, Bristol, UK
This international conference will be the first of its kind specifically addressing personal and social aspects of hearing loss. Its aim is to bring together researchers, practitioners and hard-of-hearing people to discuss the issues concerning the adjustment process after the onset of hearing loss. The programme will consist of invited lecturers, workshops, and research reports. Topics will include: hearing therapy, hearing aid use, rehabilitation, family relations, counselling. Interpreting and transcription services will be provided to allow hard-of-hearing participants to be fully involved.

Abstracts (200 words) of proposed research papers must reach the organisers by December 1, 1986.

Further information from: The Conference Secretary, Centre for Deaf Studies, University of Bristol, 22 Berkeley Square, Bristol BS8 1HP (UK).

Miscellaneous 12
Size: 26 cm × 18 cm, 600 pages.
No manuscript exceeds 2 pages.
You may obtain a copy of the proceedings at a price of ¥ 5,000 per copy by sending a letter and bank draft for the above amount directly to the following address:
The Japan Society of Logopedics and Phoniatrics,
c/o Research Institute of Logopedics and Phoniatrics,
University of Tokyo,
7-3-1, Hongo, Bunkyō-ku, Tokyo 113 (Japan)
N.B.: Those ‘Proceedings’ called ‘Issues for future research’ have just been published by the Organizing Committee and constitute an elegant book, easy to manage and very useful for research in our field.
New: IALP Voice Committee
Prof. Minoru Hirano is in charge of this newly created committee. The projects of this committee are the following:
Main Themes
Evaluation of Voice and Vocal Function.
Terminology for Voice Research and Clinic.
Specific Objectives
To conduct surveys on the present status of evaluation of voice and vocal function in the world.
To determine the significance and limitation of each evaluation technique.
To attempt to establish international standards for evaluation of voice and vocal function.
To conduct surveys on the present status of terminology for voice research and clinic.
To attempt to unify terminology on an international basis.
