Contents, Vol. 25, Supplement 1, 1985

Vulvovaginal Candidosis: Definition of the Disease and Its Special Problems and Treatment in Pregnancy
Hirsch, H.A. 1

Terconazole, a New Triazole Antifungal Agent
Cartwright, R.Y. 6

In vitro Studies with Terconazole
Isaacson, D.M.; Foleno, B.; Tolman, E.L.; Rosenthal, M.E. 12

Terconazole Cream and Suppositories: Plasma Terconazole following Vaginal Administration
Kennedy, B.K.; Friedmann, N. 26

Terconazole 0.8% Vaginal Cream (5 Days) versus Clotrimazole 1% (6 Days): Efficacy and Tolerability in an Open Study
Siedentopf, H.-G. 33

Advantages of a 6- to 7-Day Treatment with 40-mg Vaginal Suppositories of Terconazole against Vaginal Candidosis: Conclusions Drawn from a Phase II Multicentre Study in France
Delecour, M. 42

Treatment of Vaginal Candidosis with Three 80-mg Terconazole Vaginal Suppositories: Results of a Multicentre Study in France
Nahmanovici, C. 52

Assessment of Clinical Efficacy and Tolerability of Terconazole 240-mg Vaginal Suppositories
Litschgi, M. 59

Comparative Open Evaluation of Efficacy and Tolerability of Terconazole 0.8% Cream in a 5-Day Regimen versus Clotrimazole 100-mg Tablets in a 6-Day Regimen
Wesel, S.; Benijts, G.; Ubachs, J.M.H.; Dogniez, B. 67

Comparative Double-Blind Evaluation of the Efficacy and Tolerability of Terconazole 240-mg Suppository (1 Day) and 80-mg Suppositories (3 Days) versus Clotrimazole 200-mg (3 Days) in Pregnant Patients with Vulvovaginal Candidosis
Goormans, E. 74

One-Day Treatment of Vaginal Candidosis: Comparison of Terconazole 240-mg Suppository with Clotrimazole 500-mg Vaginal Tablet
Grice, G.; Spencer, R.C.; Steele, C.E.; Kinghora, G.R. 83

Single-Day Topical Treatment of Vaginal Candidosis: An Open Evaluation of Terconazole 240-mg Vaginal
Suppositories versus Isoconazole Tablets 600 mg
Münnich, W.; Hiltl, B.P 90
Demonstration of Effectiveness and Tolerability of Terconazole
80-mg Vaginal Suppositories (3 Days) versus Terconazole 240-mg
Vaginal Suppositories (1 Day) versus Clotrimazole 200-mg
Vaginal Tablets (3 Days) in Non-Pregnant Women with
Vulvovaginal Candidosis
Loendersloot, E.W 99
Summary of Clinical Studies with Vaginal Formulations of
Terconazole
Martinek, G 105
