Pract. oto-rhino-laryng. 1965;27:334

On Acoustic Neuroma Surgery

H.P.		House
------	--	-------

Amsterdam

Author's address : Prof. L. B. W. Jongkees, M. D., Koninginneweg 157, Amsterdam-Z. (Netherlands)

Projection of film: L. B. W. JONGKEES

Jongkees shows the film of Dr. H. P. House from Los Angeles about the translabyrinthine approach in cases of surgery of VIIIth nerve tumor. It is very satisfactory to show this film in Utrecht

where Quix was the first to perform this operation more than half a century ago. After some years the method was surpassed by neurosurgical procedures but now it comes back as a by far superior method and a less serious one as regards the general condition of the patient after the operation.
