Contents, Vol. 43, Supplement 1, 1988

Contents
Preface
Oelschläger, H 1
Opening Remarks
Brock, N 3
Experimental Results
Evaluation of the Cytotoxic Activity of Diethylstilbestrol and Its Phosphorylated Derivatives towards Prostatic Carcinoma, Non-Prostatic Neoplastic and Non-Transformed Cells
Schulz, P.; Vetter, I.; Bauer, H.W.; Fittler, F 5
Effects of Diethylstilbestrol and Its Mono- and Diphosphate on Experimental Mammary and Prostatic Tumors
Schneider, M.R.; Schönenberger, H 10
New Results on the Pharmacokinetics of Fosfestrol
Oelschlager, H.; Rowley, D.; Dunzendorfer, U 15
Discussion of the Experimental Papers 22
Clinical Findings
Hormonal Therapies in Prostatic Cancer
Murphy, G.P 24
Diethylstilbestrol-Diphosphate, Fosfestrol ‘Reevaluated’
Dunzendorfer, U 29
Diethylstilbestrol-Diphosphate in Prostate Cancer. Review of Clinical Data and Results Regarding Prostate-Specific Antigen
Heising, J 36
Clinical Follow-Up of Prostatic Cancer Patients under Intermittent Treatment with Fosfestrol and Bromocriptine
Jeromin, L 41
Thromboembolic Side-Effects of Diethylstilbestrol-Diphosphate in Patients with Prostatic Carcinoma. Postmortem Findings
Kristiansen, P.; Bergqvist, D.; Janson, L.; Pompeius, P 44
Prospective Study of Diethylstilbestrol-Diphosphate in the Treatment of Prostatic Cancer in Relapse
Mahler, C; Keuppens, F.; Nowé, P.; Van Erps, P.; Denis, L. 47
High Dose Estrogens (Diethylstilbestrol-Diphosphate, DES-P) in Prostate Cancer
Citrin, D.L 49
Discussion of the Clinical Papers 52
Conclusions. Final Statements
Murphy, G.P; Oelschläger, H.; Dunzendorfer, U.; Heising, J.; Brock, N 55
Concluding Remarks
Murphy, G.P 57
