Surgical Outcome and Quality of Life after MVD for Hemifacial Spasms

Erratum

A technical error occurred in figure 2 during the data processing of the print version of the article ‘Successful Treatment of a Skull Base Malignant Rhabdoid Tumor with Surgery, Chemotherapy and Gamma Knife-Based Stereotactic Radiosurgery in a Young Child’ by Witt et al. (Stereotact Funct Neurosurg 2007;85:310–313). The correct figure 2a, b is printed below:

Fig. 2. a, b Pictures showing the device typically used for headframe immobilization for very young children (this was not the patient described in the case report).
