Highlights of the British and Eire Association of Vitreoretinal Surgeons Meeting

Guest Editor
David Wong, Hong Kong

19 figures and 6 tables, 2011
Disclosure Statement Guest Editor
The Guest Editor has filed a preliminary patent for the use of low-
molecular-weight silicone oil infusion as an intraoperative tool and
surgical adjunct. Otherwise he has no financial conflict of interest
to declare.
Contents

Editorial

1 British and Eire Association of Vitreoretinal Surgeons
   Wong, D. (Liverpool); Aylward, B. (London)

Reviews

3 Posturing after Macular Hole Surgery: A Review
   Chandra, A.; Charteris, D.G. (London); Yorston, D. (Glasgow)

10 Apoptosis and Other Cell Death Mechanisms after Retinal Detachment: Implications for Photoreceptor Rescue
   Lo, A.C.Y.; Woo, T.T.Y.; Wong, R.L.M.; Wong, D. (Hong Kong)

18 Retinal Folds following Retinal Detachment Surgery
   Heimann, H. (Liverpool); Bopp, S. (Bremen)

27 Vitrectomy Fluidics
   Steel, D.H.W. (Sunderland); Charles, S. (Memphis, Tenn.)

36 Is There a Role for Long-Term Silicone Oil Tamponade for More than Twelve Months in Vitreoretinal Surgery?

42 The Surgical Management of Vasoproliferative Tumours
   Smith, J.; Steel, D. (Sunderland)

Update

46 Choices in Correction of Aphakia during Vitrectomy
   Bastawrous, A.; Parkes, C.; Prasad, S. (Upton)

Innovation

53 The Use of Continuous Silicone Oil Infusion as a Peroperative Tool to Facilitate Break Localisation, Vitreous Base Dissection and Drainage of Subretinal Fluid
   Wong, D.; Lai, W.; Yusof, W. (Hong Kong)

Perspective

58 Revalidation and Retinal Detachment
   Aylward, B. (London)

Laboratory Study

60 Heavier-than-Water Silicone Oil Mixture as a Long-Term Tamponade Agent: A Pilot Study
   Abdulkader, E.; Siddiqui, R.M.; Ramalingam, S.; Murray, A.; Lois, N. (Aberdeen)

66 Author Index/Subject Index
