Developments in Ophthalmology

Vol. 49

Series Editor

F. Bandello  Milan
Current Concepts in Uveal Melanoma

Volume Editors

Martine J. Jager  Leiden
Laurence Desjardins  Paris
Tero Kivelä  Helsinki
Bertil E. Damato  Liverpool

37 figures, 23 in color, and 12 tables, 2012
Contents

VI List of Contributors

VIII Preface
Jager, M.J. (Leiden); Desjardins, L. (Paris); Kivelä, T. (Helsinki); Damato, B.E. (Liverpool)

1 Diagnosis of Uveal Melanoma
Kivelä, T. (Helsinki)

16 Treatment Selection for Uveal Melanoma
Damato, B.E. (Liverpool)

27 Ruthenium-106 Brachytherapy
Pe'er, J. (Jerusalem)

41 Treatment of Uveal Melanoma by Accelerated Proton Beam

58 Stereotactic Photon Beam Irradiation of Uveal Melanoma
Zehetmayer, M. (Vienna)

66 Local Resection of Uveal Melanoma
Damato, B.E. (Liverpool)

81 Biopsies in Uveal Melanoma
Midena, E. (Padova/Rome); Parrozzani, R. (Rome)

96 Analysis of Intraocular Biopsies
Coupland, S.E. (Liverpool)

117 Anti-Angiogenic Therapy in Uveal Melanoma
el Filali, M.; van der Velden, P.A.; Luyten, G.P.M.; Jager, M.J. (Leiden)

137 Immunotherapy of Uveal Melanoma
Bosch, J.J. (Erlangen)

150 Genetic Determinants of Uveal Melanoma
Couturier, J. (Paris); Saule, S. (Orsay)

166 Therapeutic Options in Metastatic Uveal Melanoma
Mariani, P.; Servois, V.; Piperno-Neumann, S. (Paris)

182 Subject Index
List of Contributors

**Bernard Asselain**  
Department of Biostatistics  
26, rue d’Ulm  
FR–75005 Paris (France)  
E-Mail bernard.asselain@curie.net

**Sabine Delacroix**  
Department of Biophysics  
Institut Curie  
26, rue d’Ulm  
FR–75005 Paris (France)  
E-Mail sabine.delacroix@curie.net

**Jacobus J. Bosch**  
Department of Internal Medicine 5,  
Hematology and Medical Oncology  
University Hospital Erlangen  
DE–91054 Erlangen (Germany)  
E-Mail jacobus.bosch@uk-erlangen.de

**Remi Dendale**  
Department of Radiotherapy  
Institut Curie  
26, rue d’Ulm  
FR–75005 Paris (France)  
E-Mail remi.dendale@curie.net

**Nathalie Cassoux**  
Department of Ophthalmology  
Institut Curie  
26, rue d’Ulm  
FR–75005 Paris (France)  
E-Mail nathalie.cassoux@curie.net

**Laurence Desjardins**  
Department of Ophthalmology  
Institut Curie  
26, rue d’Ulm  
FR–75005 Paris (France)  
E-Mail laurence.desjardins@curie.net

**Sarah E. Coupland**  
Department of Cellular and Molecular Pathology  
University of Liverpool, 5th Floor Duncan Building  
Daulby Street, Liverpool L69 3GA (UK)  
E-Mail s.e.coupland@liverpool.ac.uk

**Mariam el Filali**  
Department of Ophthalmology  
Leiden University Medical Centre (LUMC)  
PO Box 9600  
NL–2300 RC Leiden (The Netherlands)  
E-Mail m.el_filali@lumc.nl

**Jérôme Couturier**  
Department of Genetics  
Institut Curie – Hôpital  
26, rue d’Ulm  
FR–75248 Paris (France)  
E-Mail jerome.couturier@curie.net

**Martine J. Jager**  
Department of Ophthalmology  
Leiden University Medical Centre (LUMC)  
PO Box 9600  
NL–2300 RC Leiden (The Netherlands)  
E-Mail m.j.jager@lumc.nl

**Bertil E. Damato**  
Ocular Oncology Service  
Royal Liverpool University Hospital  
Prescot Street  
Liverpool L7 8XP (UK)  
E-Mail bertil@damato.co.uk

**Tero Kivelä**  
Department of Ophthalmology  
Helsinki University Central Hospital  
Haartmaninkatu 4 C, PL 220  
FI–00029 HUS, Helsinki (Finland)

Medical University of Vienna  
Waehringer Guertel 18–20  
AT–1090 Vienna (Austria)  
E-Mail martin.zehetmayer@meduniwien.ac.at
Every ophthalmologist will at some time encounter patients with uveal melanoma. Although it is a rare disease, the implications of having this disease are huge: not only is vision threatened, but the patient is also faced with the fact that this is a potentially fatal disease. Any resident in ophthalmology must be aware of any therapeutic opportunities, as well as possible complications.

This book provides the latest information on the diagnosis of uveal melanomas and on the wide range of treatment options. For ophthalmologists with an interest in ocular oncology, the pros and cons of each modality are described by leading experts in the field. Information is also provided on the treatment of metastases, and promising new developments that may help patients in the future. This book is intended for all ophthalmologists and other specialists who see patients with uveal melanoma, and the variety of themes will offer something new to all.

Martine J. Jager, Leiden
Laurence Dešjardins, Paris
Tero Kivelä, Helsinki
Bertil E. Damato, Liverpool
