JOINT MEETING
EUROPEAN SOCIETY OF MICROcircULATION (ESM) 
AND 
SOCIETY OF MICROcircULATION AND VASCULAR 
BIOLOGY (GfMVB)

MUNICH (GERMANY) • 13–16 October 2011

ABSTRACTS

www.microcirculation2011.de
Dear Colleagues,

It has been a real pleasure for us to organize this “Joint Meeting of the European Society for Microcirculation (ESM) and the Society of Microcirculation and Vascular Biology (GfMVB)” here at the Ludwig-Maximilians-University from 13–16 October, 2011. We warmly welcome our colleagues from all over the world to this exchange of experiences and ideas in the field of microcirculation and vascular biology.

We are proud to offer you an interesting programme, which includes presentations by many excellent and internationally renowned speakers. We are sure that their contributions will give you a valuable insight into the current state of knowledge at research institutions around the world.

We are convinced that the planned sessions and poster presentations will stimulate and promote the exchange of ideas relating to the various scientific topics of the conference, such as “Signalling within the vascular wall”, “Inflammation” or “Clinical aspects of microvascular disorders”.

We would particularly like to thank all our abstract submitters for their contributions. These gave us the opportunity to put together a scientific programme which reflects the fascinating progress of microvascular science, including the latest developments in the various fields of interest!

Particularly the young scientists are pivotal for the present and future success of microvascular research and of our societies, so this meeting will also focus strongly on presentations given by students and postdocs. To make this possible, we have included two Young Investigator Sessions, one sponsored by the Japanese Society of Microcirculation, one sponsored by the ESM and GfMVB.

Our meeting will be accompanied by an attractive social programme with many highlights, including a guided tour through Munich, the highly recommendable “Long Night of the Museums” and, of course, our Conference Dinner. This is planned as a “Bavarian Evening” and takes place in the famous “Augustiner-Keller”.

We are delighted to welcome you here to Munich! Enjoy your visit, some great science and the many attractions of our beautiful city.

Best regards,

Prof. Dr. med. Ulrich Pohl  
Conference President/ESM

Prof. Dr. med. Markus Sperandio  
Conference President/GfMVB
# Table of Contents

## Thursday, 13 October 2011

**Plenary Talk** - Lymph Nodes – elementary school and battlefield of the immune system  p. 4

**Symposium 1** - Connexins and Pannexins in the Microvasculature  p. 5
**Symposium 2** - Non Invasive Assessment of the Microcirculation  p. 9
**Symposium 3** - BiolImaging of the Microvasculature  p. 14
**Symposium 4** - ESM & GIMVB Young Investigator Symposium  p. 20

## Friday, 14 October 2011

**Plenary Talk** - Vascular Responses to Ischemia Regulated by Hypoxia-Inducible Factor 1  p. 27

**Symposium 5** - Leukocyte Recruitment during Inflammation  p. 28
**Symposium 6** - Human Microcirculation from Physiology to Pathophysiology  p. 35
**Symposium 7** - Ion Channels and Regulation of Vascular Function  p. 41
**Symposium 8** - Therapeutic Angiogenesis and Arteriogenesis in Ischemic Disease  p. 47
**Symposium 9** - MicroRNAs in the Microcirculation – from Cellular Mechanisms to Clinical Biomarkers  p. 55
**Symposium 10** - The Microcirculation in Inflammatory Diseases – Leishmaniasis, Chronic Venous Disease and Obesity  p. 59
**Symposium 11** - Nanoparticles  p. 63
**Symposium 12** - Novel Therapeutic Targets in Capillary Hyper-Permeability Associated with Acute Lung Injury  p. 68

### Poster Sessions I

**Poster Session I/1** - Microvascular Function in Obesity and Diabetes  p. 72
**Poster Session I/2** - Assessment of Vascular Function  p. 76
**Poster Session I/3** - Vascular Remodelling/Arteriogenesis  p. 82
**Poster Session I/4** - Brain Vessels  p. 86
**Poster Session I/5** - Endothelium I  p. 92
**Poster Session I/6** - Ischemia Reperfusion/Oxygen Free Radicals  p. 95
**Poster Session I/7** - Leukocyte Recruitment I  p. 98
**Poster Session I/8** - Lymphatics  p. 103
**Poster Session I/9** - Platelet Biology  p. 106
**Poster Session I/10** - Microcirculation – Rheology, Permeability and Glycocalix  p. 109
**Poster Session I/11** - Vascular Signalling  p. 115
**Poster Session I/12** - Smooth Muscle Mechanics  p. 120

### Poster Sessions II

**Poster Session II/1** - Microvascular Function in Obesity and Diabetes  p. 123
**Poster Session II/2** - Assessment of Vascular Function  p. 127
**Poster Session II/3** - Vascular Remodelling/Arteriogenesis  p. 132
**Poster Session II/4** - Brain Vessels  p. 137
**Poster Session II/5** - Endothelium I  p. 142
**Poster Session II/6** - Ischemia Reperfusion/Oxygen Free Radicals  p. 146
**Poster Session II/7** - Leukocyte Recruitment I  p. 151
**Poster Session II/8** - Lymphatics  p. 156
**Poster Session II/9** - Platelet Biology  p. 160
**Poster Session II/10** - Microcirculation – Rheology, Permeability and Glycocalix  p. 163
**Poster Session II/11** - Vascular Signalling  p. 168
**Poster Session II/12** - Smooth Muscle Mechanics  p. 173
Saturday, 15 October 2011

Plenary Talk – How Hepatocytes Protect Against Vascular Disease  p. 176
Symposium 13 – Integrins and Signalling in Leukocyte Trafficking  p. 177
Symposium 14 – Hypoxia Signalling Cascades – Center Stage for Vascular Stress Adaptation  p. 181
Symposium 15 – Regulation and Function of Vascular TRP Channels  p. 188
Symposium 16 – Deciphering the Biology of Cell Mechanics and Adhesion  p. 194
Symposium 17 – Vascular Glycobiology  p. 201
Symposium 18 – Microcirculation and Microrheology of Blood Cells in Health and Disease  p. 206

Poster Sessions III

Poster Session III/13 – Metabolic Syndrome – Vascular Functional Alterations  p. 218
Poster Session III/14 – Treatment of Microvascular Diseases  p. 224
Poster Session III/15 – Angiogenesis  p. 228
Poster Session III/16 – Atherosclerosis  p. 233
Poster Session III/17 – Endothelium II  p. 239
Poster Session III/18 – Myocardial Ischemia  p. 245
Poster Session III/19 – Leukocyte Recruitment II  p. 249
Poster Session III/20 – Inflammation/White Blood Cells  p. 253
Poster Session III/21 – Thrombosis  p. 259
Poster Session III/22 – Host-Pathogen Interactions  p. 262
Poster Session III/23 – Vasomotor Responses  p. 267

Poster Sessions IV

Poster Session IV/13 – Metabolic Syndrome – Vascular Functional Alterations  p. 272
Poster Session IV/14 – Treatment of Microvascular Diseases  p. 277
Poster Session IV/15 – Angiogenesis  p. 282
Poster Session IV/16 – Atherosclerosis  p. 286
Poster Session IV/17 – Endothelium II  p. 291
Poster Session IV/18 – Myocardial Ischemia  p. 296
Poster Session IV/19 – Leukocyte Recruitment II  p. 300
Poster Session IV/20 – Inflammation/White Blood Cells  p. 304
Poster Session IV/21 – Thrombosis  p. 313
Poster Session IV/22 – Host-pathogen Interactions  p. 316
Poster Session IV/23 – Vasomotor Responses  p. 318

Sunday, 16 October 2011

Plenary Talk – Regulation of Bone Marrow Architecture and Homeostasis by Angiogenic Pathways  p. 323
Symposium 20 – Sphingolipids – Key Regulators of Vascular Function and Integrity  p. 324
Symposium 21 – The Role of Leukocytes in Microvascular Remodelling  p. 329
Symposium 22 – Vascular Architecture and Organ Homeostasis  p. 336
Symposium 23 – Proteases and the Microcirculation – a Paradigm Shift in Inflammatory Mechanisms Underlying Arteriolar Dysfunction, Microvascular Remodelling, Type II Diabetes, and Insomnia  p. 342

Author Index  p. 349
