XII. Frühjahrsakademie • VDÄPC2012

Vereinigung der Deutschen Ästhetisch-Plastischen Chirurgen

Wann ist weniger mehr? Stamm und Extremitäten

Schwerpunktthemen
- Ästhetische Brustchirurgie
- Straffende und reduzierende Verfahren am Stamm
- Straffende und reduzierende Operationen an den Extremitäten
- Adjuvante Techniken
- Chirurgie der weiblichen Genitale
- Varia

Tagungsleitung
Dr. med. Peter Hollos

Welcome to the 3rd World Psoriasis & Psoriatic Arthritis Conference 2012
“Psoriasis - a global health challenge”
June 27 - July 1, 2012
Stockholm, Sweden

The International Federation of Psoriasis Associations, IFPA, is honoured to invite you to the 3rd World Psoriasis & Psoriatic Arthritis Conference.

The scientific program addresses a broad spectrum of practical, clinical, diagnostic and pathogenic topics. As great scientific and medical advances have been made in the field of psoriatic disease, this conference provides an excellent opportunity to discuss the many aspects of this complex disease.

Topics include:
• Pathogenesis
• Epidemiology
• Geographical spread and concerns
• Genetics
• Screening tools
• Quality of Life
• Therapeutic challenges

This unique conference provides intensive medical education to both dermatologists and rheumatologists, and there will also be a special complementary program focusing on treatment and basic knowledge for non-specialists and allied health professionals.

Welcome to Stockholm!

For more information and registration, please visit
www.ifpaworldconference.com

CONGRESS OF THE CENTENNIAL CELEBRATION OF OUR SOCIETY

In this so important year of the 100 years celebration of the Brazilian Society of Dermatology, we would like to invite you to join us in the 67th Brazilian Congress of Dermatology.

Marcia Ramos-e-Silva
President of the Congress

September 1 - 4 | Rio de Janeiro | Brazil

www.dermato2012.com.br

Organized by

Executive Secretariat

Venue

Travel Agency
LaserInnsbruck 2012
Advances and Controversies in Laser and Aesthetic Surgery

Venue: “Faculty of Catholic Theology of the University of Innsbruck”
September 12th - 18th, 2012

Organized by:

You may proceed with your registration and abstract submission at:
www.laserinnsbruck.com

Early Registration Deadline: 30 May 2012
Abstract Submission Deadline: 15 May 2012

Topics:
- New Perspectives in the Treatment of Vascular Lesions / Malformations
- New Perspectives in Laser and Light Sources
- Advances and Controversies In:
  - Photodynamic Therapy
  - Treatment of Scars - Lasers vs Surgery
  - Fractional Lasers
  - Skin/Tissue Tightening - Laser vs Surgery
  - Soft Tissue Augmentation - Fat & Fillers
  - Body Contouring - Fat & Cellulite - Invasive & Non-Invasive

Faculty (Incomplete as of January 2012)
Anderson R. Rox, USA
Avram Matthew M., USA
Bäumer Wolfgang, Germany
Berckmans Christine, Belgium
Eisenmann-Klein Martha, Germany
Hædersdal Merete, Denmark
Hrunginger Thomas, Austria
Kaudewitz Peter, Germany
Klimmer Suzanne L., USA
Longo Leonardo, Italy
Mardon Serge R., France
Nemeth Albert J., USA
Passch Uwe, Germany
Russe-Wolfinger Katharina, Austria
Sideroff Alexis, Austria
Spendel Stephan, Austria
Szmolies Roll-Markus, Germany
Tangheitti Emil A., USA
Waldenberger Peter, Austria
Wechselberger Gottfried, Austria
Zochephy Christopher B., USA

GOTTFRIED SCHATZ

A MATTER OF WONDER

WHAT BIOLOGY REVEALS ABOUT US, OUR WORLD, AND OUR DREAMS

Where do we come from? Is our destiny determined by the genes we inherit? Do we all see the same blue color when we look at the sky? In this book Gottfried (Jeff) Schatz, the world-renowned biochemist, gives lucid – albeit often surprising – answers to universal questions and takes the reader on a fascinating journey of discovery across the boundaries of scientific disciplines. With passion and a keen sense of wonder he draws on philosophy, cultural history and art to formulate his reflections on the mystery of life. The key to understanding life is to be found in its chemistry, and he proves that this is no dry endeavor and certainly not devoid of beauty. The result is a collection of eloquently and poetically written essays dealing with key issues in the natural sciences. It will appeal not only to scientists, but also to all inquisitive minds, regardless of educational and professional background.

“A collection of extraordinary essays, reminiscent in many ways – scope, erudition, clarity, occasional whimsicality and sassiness – of Stephen Jay Gould’s essays for Natural History”
Herbert Deinert (Cornell University, Ithaca, N.Y.)

“A remarkable fusion of science and humanism”
Eugene P. Kennedy (Harvard University, Boston, Mass.)

Schatz, G. (Basel)
A Matter of Wonder
What Biology Reveals about Us, Our World, and Our Dreams
XII + 190 p., 2 color fig., hard cover, 2011
CHF 29.– / EUR 21.50 / USD 29.00
Prices subject to change
EURO price for Germany, USD price for USA only

A comprehensive and practical overview

Basics in Dermatological Laser Applications

Editors
Inga Bogdan Allemann
David J. Goldberg

In the last two decades, there has been a virtual explosion in the use of lasers in medicine, especially in the field of dermatology. Indeed, many of the clinical conditions presented today are solely treated by lasers. When discussing the term ‘laser’, many different types of lasers and other similar energy-based devices have to be considered. Physicists who look upon this vast field often find themselves facing an extremely complex physics-based area of medicine with a veritable jungle of different devices on offer. This book provides a structured and comprehensive overview of the physical knowledge required to understand laser medicine and surgery. Moreover, the various clinical indications and treatments are clearly laid out and discussed. The authors, all experts in their field, have provided concise and topical chapters which have purposely been kept generic when talking about the various lasers in order to increase the longevity of this volume.

Contents
Preface: Bogdan Allemann, I.; Goldberg, D.J.
Introduction
History of Lasers in Dermatology: Geppes, M.L.
Physical and Electronic Properties of Lasers
Laser Principles: Bogdan Allemann, I.; Kaufman, J.
Laser Induced Tissue Reactions and Dermatology: Weker, R.J.; Taylor, B.R.; Engelman, D.E.
Laser Safety: Dodelnik, J.; Goldberg, D.J.
