Basic Thoracic Ultrasound Skills for Chest Physicians

Friday, 8 March 2013

This **hands-on practical course** offers the requisite initial training an preparation towards acquiring Basic (Level 1) Thoracic Ultrasound skills.

More information at [www.conferencessouthtees.co.uk](http://www.conferencessouthtees.co.uk)

**Venue**
University Hospital Ayr, Scotland

**Course Organiser**
Dr Anur Guhan
Consultant Respiratory Physician
University Hospital Ayr

For over 40 years the *Karger Gazette* has been distributed to a growing audience worldwide. Published once a year in newspaper format, it highlights advances in biomedicine and clinical practice, introduces personalities, portrays research institutes and chronicles milestones in the history of Karger Publishers in a lively and readable style. With invited contributions by experts from all over the world, each issue is devoted to a special topic of current interest.

In the latest issue, read free articles on the causes of the aging process, why aging stops in later adult life, the quiet epidemic of Alzheimer’s Disease, internet use by seniors, and more.

Guidelines for Authors

Submission
Manuscripts written in English should be submitted using the online submission website at:
www.karger.com/res
or as an e-mail attachment (the preferred word-processing package is MS-Word) to the Editorial Office:
res@karger.com
S. KARGER AG
Editorial Office ‘Respiration’
PO Box
CH–4009 Basel (Switzerland)

All manuscripts must be accompanied by a covering letter signed by all authors. Assurance should be given that the manuscript is not under simultaneous consideration by any other publication. The preferred word-processing package is Word for Windows. Presentation of manuscripts should conform with the Uniform Requirements for Manuscripts Submitted to Biomedical Journals (see N Engl J Med 1997;336:309–315).

Conditions
All manuscripts are subject to an editorial process involving the Editor-in-Chief, an Associate Editor and reviewers. Notification can be expected within two months from the date of receipt. Submission of an article for publication implies the transfer of the copyright from the author to the publisher upon acceptance. Accepted papers become the permanent property of the journal the moment they are accepted. Submission of a manuscript for consideration and the submission of a revised version of a manuscript submitted earlier is not at the discretion of the investigator. The transfer of copyright must be written in the cover letter. The corresponding author must be the one who is responsible for communication with the editorial office.

Clinical Trials: In accordance with the recommendations of the International Committee of Medical Journal Editors, the journal requires that all clinical trials having commenced on or after 1 July 2005 be registered in a public trial registry accessible free of charge. Please consult http://www.icmje.org/index.html for trial registries.

All manuscripts must be accompanied by a covering letter signed by all authors. Assurance should be given that the manuscript is not under simultaneous consideration by any other publication. The preferred word-processing package is Word for Windows. Presentation of manuscripts should conform with the Uniform Requirements for Manuscripts Submitted to Biomedical Journals.

Patient Consent: This is required for ALL articles containing personal information about the patient submitted for publication in the following sections: Novel Insights from Clinical Practice, What Is Your Diagnosis?, Eye Catcher.

All clinical investigations, intervention studies, and analyses of patient data must be performed according to the Helsinki Declaration. Patient consent must be obtained from the patient, guardian (or next of kin (or a statement that the patient was not alive at the time of writing) and submitted along with the manuscript. For Patient Consent Form see www.karger.com/res.Guidelines.

Arrangement
Pages should be numbered throughout the manuscript text.

Title page: The first page of each paper should indicate the title, the authors’ names, the institute where the work was conducted, and a short title for use as a running head.

Full address: The exact postal address of the corresponding author complete with postal code must be given at the bottom of the title page. Please also supply phone and fax numbers, as well as e-mail address.

Key words: Please supply 3–10 key words in English that reflect the content of the paper.

Abstract: Each paper needs an abstract of up to 250 words. Abstracts of papers submitted for publication in the sections Clinical Investigations, Basic Science Investigations, and Technical Notes should be structured as follows:

Background: What is the major motive that prompted the study?

Objectives: What is the purpose of the study?

Methods: How was the study done?

Results: Most important findings.

Conclusions: Most important conclusions.

Introduction
What is the main question? State your considerations leading to the formulation of this question.

Material and Methods
Prior approval of an Institutional Review Board (IRB) is required for all investigations involving human subjects and animals. Animal experimentation must be performed according to the Helsinki Declaration.

Study design: Provide a short survey of the tests or experiments. Include the independent variable(s) manipulated, the dependent variable(s) measured and all controls.

Methods: Describe methods and apparatus in detail. Provide references and brief description of methods already published. Identify drugs and chemicals, including generic name, dosage and administration. Describe the pre-study condition of patients or animals.

Analysis: Define the variables. Use statistical analysis that is appropriate for the study. Describe statistical methods used for each analysis; provide references for tests that are not well known.
Results
A concise report of important results only. Use figures and tables for the presentation of data; summarize the most important observations in the text. Start and end dates of the study must be indicated (from ... to, preferably exact dates, but at least months and year(s)).

Discussion
Summarize main results and make sure you can answer the question asked in the introduction, briefly supporting the answer with the relevant results. Explain and defend the answer, commenting on contradictory or unexpected results and discrepancies with previous findings. Elaborate on new and important aspects of the study.

Acknowledgements
Use this section to name persons who have contributed to the article, but whose contributions do not justify authorship.

Footnotes
Avoid footnotes. When essential, they are numbered consecutively and typed at the foot of the appropriate page.

Tables and Illustrations
Tables and illustrations (both numbered in Arabic numerals) should be prepared on separate sheets. Tables require a heading and figures a legend, also prepared on a separate sheet. Due to technical reasons, figures with a screen background should not be submitted. When possible, group several illustrations in one block for reproduction (max. size 180 × 223 mm) or provide crop marks. Each illustration must be labelled with its number and the first author's name. B/w half-tone and color illustrations must have a final resolution of 300 dpi after scaling, line drawings one of 800–1,200 dpi. Figure files must not be embedded in a document file but submitted separately (see detailed instructions at www.karger.com/res/).

Color illustrations

Online edition: Color illustrations are reproduced free of charge. In the print version, the illustrations are reproduced in black and white. Please avoid referring to the colors in the text and figure legends.

Print edition: Up to 6 color illustrations per page can be integrated within the text at CHF 800.– per page.

References
In the text identify references by Arabic numerals [in square brackets]. Material submitted for publication but not yet accepted should be noted as 'unpublished data' and not be included in the reference list. The list of references should include only those publications which are cited in the text. Do not alphabetize; number references in the order in which they are first mentioned in the text. The surnames of the authors followed by initials should be given. There should be no punctuation other than a comma to separate the authors. Preferably, please cite all authors. Abbreviate journal names according to the Index Medicus system. Also see International Committee of Medical Journal Editors: Uniform requirements for manuscripts submitted to biomedical journals (www.icmje.org).

Examples
(b) Papers published only with DOI numbers: Theoharis TC, Boucher W, Spear K: Serum interleukin-6 reflects disease severity and osteoporosis in mastocytosis patients. Int Arch Allergy Immunol DOI: 10.1159/00006388.

Reference Management Software: Use of EndNote is recommended for easy management and formatting of citations and reference lists.

SI Units
Since the United States of America and other countries outside Europe where 'Respiration' is read have not accepted the SI System, authors using SI Units should add the conventional units in parentheses, for example: pO2 = 10 kPa (75 mm Hg).

Digital Object Identifier (DOI)
S. Karger Publishers supports DOIs as unique identifiers for articles. A DOI number will be printed on the title page of each article. DOIs can be useful in the future for identifying and citing articles published online without volume or issue information. More information can be found at www.doi.org.

Supplementary Material
Supplementary material is restricted to additional data that are not necessary for the scientific integrity and conclusions of the paper. Please note that all supplementary files will undergo editorial review and should be submitted together with the original manuscript. The Editors reserve the right to limit the scope and length of the supplementary material. Supplementary material must meet production quality standards for Web publication without the need for any modification or editing. In general, supplementary files should not exceed 10 MB in size. All figures and tables should have titles and legends and all files should be supplied separately and named clearly. Acceptable files and formats are: Word or PDF files, Excel spreadsheets (only if the data cannot be converted properly to a PDF file), and video files (.mov, .avi, .mpeg).

Page Charges
There are no page charges for papers of 4 or fewer printed pages (including tables, illustrations and references). Each additional complete or partial page is charged to the author at CHF 325.–. The allotted size of a paper is equal to approx. 12 manuscript pages (including tables, illustrations and references).

Author’s Choice
Karger’s Author’s Choice™ service broadens the reach of your article and gives all users worldwide free and full access for reading, downloading and printing at www.Karger.com. The option is available for a one-time fee of CHF 3000.–, which is a permissible cost to archive the final, published version of your article, which includes copyleft and design improvements as well as citation links.

NHI-Funded Research
The U.S. National Institutes of Health (NIH) mandates under the NIH Public Access Policy that final, peer-reviewed manuscripts appear in its digital database within 12 months of the official publication date. As a service to authors, Karger submits the final version of your article on your behalf to PubMed Central. For those selecting our premium Author’s Choice™ service, we will send your article immediately upon publishing, accelerating the accessibility of your work without the usual embargo. More details on NIH’s Public Access Policy are available at http://publicaccess.nih.gov/policy.htm

Self-Archiving
Karger permits authors to archive their pre-prints (i.e. pre-refereeing) or post-prints (i.e. final draft post-refereeing) on their personal or institution’s servers, provided the following conditions are met: Articles may not be used for commercial purposes, must be linked to the publisher’s version, and must acknowledge the publisher’s copyright. Authors selecting Karger’s Author’s Choice™ feature, however, are also permitted to archive the final, published version of their article, which includes copyleft and design improvements as well as citation links.

Proofs
Unless indicated otherwise, proofs are sent to the corresponding author and should be returned with the least possible delay. Alterations other than the correction of printer’s errors are charged to the author.

E-pub First
All articles are published electronically ahead of print with a DOI number and are supplemented later with the definite reference of the printed version. The articles become available immediately after the authors’ approval to publication, with the added advantage of being citable much earlier than in print. Authors can influence the time of appearance by promptly returning the proofs.

Reprints
Order forms and a price list are sent with the proofs. Orders submitted after the issue is printed are subject to considerably higher prices.

Financial Disclosure and Conflicts of Interest
Authors must disclose any and all financial involvement in any organization with a direct financial interest in the subject discussed in the submitted manuscript. Any conflict of interest for a given manuscript must be dealt with according to the statement of the International Committee of Medical Journal Editors (the ‘Vancover Group’) (Lancet 1999;341:742).

Further Information
For any further details please contact the Editorial Department ‘Respiration’, Fax +41 61 306 14 34.

Liebe Kolleginnen, liebe Kollegen,

wir laden Sie herzlich zur 35. Jahrestagung der Gesellschaft für Pädiatrische Pneumologie in die Universitätsstadt Lübeck ein! Zum ersten Mal wird die Jahrestagung der GPP in Schleswig-Holstein stattfinden – und wir werden alles daran setzen, dass Sie diesen Kongress in bester Erinnerung behalten!

Erstmals bieten wir auch ein Seminar für medizinisch-technische Fachangestellte an, in dem die Grundlagen kinderpneumologischer Diagnostik praxisnah vermittelt werden.

Wir freuen uns auf Sie in Lübeck zum GPP-Kongress 2013!

Prof. Dr. Matthias Kopp
Tagungspräsident

PD Dr. Tobias Ankermann
Tagungssekretär

PROCEEDINGS
Congress Proceedings will be published by the Medimond S.r.l – Monduzzi Editore International Proceedings Division. Such a publication will not only increase the success of the individual presentations and the Forum in general, but will also help to publicize the contents of the Forum to a much wider audience.
The Volume is ISBN coded and indexed in Conference Proceedings Citation Index published by Thomson Reuters – Philadelphia formerly Institute for Scientific Information ISI. Invitations to contribute to the Proceedings Book will be e-mailed to those congress attendees whose abstracts are accepted either for oral or poster presentation.

CME CREDITS
CME credits will be available for the VI WORLD ASTHMA, ALLERGY & COPD FORUM participants. This Congress will be accredited by the European Board for Accreditation in Pneumology (EBAP). European Accreditation is granted by EBAP following the EACCME Standards (D9008). Through a reciprocity agreement signed in 1999 by the American Medical Association (AMA) and the UEMS, EACCME credits will be available to US doctors. EAACCMCE credits are recognized in Europe and by the AMA towards the Physician’s Recognition Award (PRA).

The Congress will be hosted by Hilton London Metropole Hotel, Winner of the prestigious 'Best Business Hotel', England, award at the Business Destination Travel Awards 2011, which is one of Europe's largest hotel and conference centers in the heart of London. With superb transportation links, the hotel is just 20 minutes from Heathrow Airport via the Heathrow Express at Paddington Station. Eurostar Service to Europe at St. Pancras International Station.
Just 10 minutes’ walk from the West End and Oxford Street and a 10 minute tube ride from Westfield Shopping Centre, the Hilton London Metropole hotel is the ideal destination for the business and leisure guest.

Abstract Submission Deadline

15 February 2013

www.solunum.org.tr/ecbip2013

The American College of Chest Physicians has approved this educational event, recognizing its importance through advancing clinical policies and research efforts that promote patient-focused care in the fields of pulmonary, critical care, and sleep medicine. All statements, recommendations, suggestions, or expressions of opinion contained herein, along with any handout material, are those of the author or speaker, and do not necessarily represent an official position of the American College of Chest Physicians.
Emphasizing the integration of basic, translational and clinical sciences, the meeting will focus on the utilization of new strategies and technologies to investigate the pathogenesis, treatments, and outcomes of the lung microbiome. Anchored by twelve state-of-the-art presentations delivered by international experts, the thematic sessions will address epidemiology, cell biology, the role of inflammation, genetics, the impact of alterations of the lung microbiome on disease, and prospects for novel disease modifying and preventive therapies.

Abstract deadline: February 14, 2013
