Journal of Innate Immunity

Editors-in-Chief
Heiko Herwald, Lund
Arne Egesten, Lund

Selected contributions
- Staphylococcus aureus Virulence Is Enhanced by Secreted Factors That Block Innate Immune Defenses: Jongerius, I. (Utrecht); von Köckritz-Blickwede, M. (Hannover/La Jolla, Calif.); Horsburgh, M.J. (Liverpool); Ruyken, M. (Utrecht); Nizet, V. (La Jolla, Calif.); Roodakkers, S.H.M. (Utrecht/La Jolla, Calif.)
- Staphylococcus aureus Secretes Coagulase and von Willebrand Factor Binding Protein to Modify the Coagulation Cascade and Establish Host Infections: McAdow, M.; Missiakas, D.M.; Schneewind, O. (Chicago, Ill.)
- The Evolutionary History of TLR4 Polymorphisms in Europe: Plantinga, T.S. (Nijmegen); Ioana, M. (Nijmegen/Craiova); Alonso, S.; Izagirre, N.; Hervella, M. (Bilbao); Joosten, L.A.B.; van der Meer, J.W.M. (Nijmegen); de la Rúa, C. (Bilbao); Netea, M.G. (Nijmegen)
- Lymph Node Macrophages: Gray, E.E.; Cyster, J.G. (San Francisco, Calif.)
- Regulation of Macrophage and Dendritic Cell Responses by Their Lineage Precursors: Cortez-Retamozo, V.; Etzrodt, M.; Pittet, M.J. (Boston, Mass.)

The Journal of Innate Immunity is a bimonthly journal covering all aspects within the area of innate immunity, including evolution of the immune system, molecular biology of cells involved in innate immunity, pattern recognition and signals of "danger," microbial corruption, host response and inflammation, mucosal immunity, complement and coagulation, sepsis and septic shock, molecular genomics, and development of immunotherapies.

The journal publishes original research articles, short communications, reviews, commentaries and letters to the editors. In addition to regular papers, each issue features a thematic section with a thematic focus. A fast peer-review process from submission of the manuscript to a final decision is guaranteed!

2013 NASPghan Annual Meeting and Postgraduate Course

Hilton Chicago Downtown, 720 Michigan Avenue, Chicago, IL
October 10 – 12, 2013

SAVE $50! Early-Bird Fee Deadline: July 29, 2013

Rooms have been reserved at the Hilton for the meeting at group rates of $249 single/$269 double. To book your room reservations, please call: 312-922-4400 / 877-865-5320

PROGRAM HIGHLIGHTS:

Clinical
• Common Problems in GI
• Endoscopy
• Hot Topics in GI
• Liver
• The Surgery Went Well, Now What?
• Nutrition
• Controversies in Pediatric GI – Debates

Research
• Basic Research in IBD
• GI Disorders
• Pancreatic Disorders
• Liver Disorders
• Nutritional Disorders
• Clinical and Translational Research in IBD
• Motility/Functional GI Disorders

CONNECT! This meeting continues to be the premier forum for clinicians, industry and academia to interact. Over 1,700 practitioners depend on the NASPghan CME activities to update and enhance their knowledge and skills.

For questions regarding Registration, Exhibits, Corporate or Industry Related Support, please contact the National office at 215.233.0808.

REGISTER NOW at www.naspghan.org!
UEG Week is the largest and most prestigious meeting of its kind in Europe. It has been running since 1992 and now attracts more than 14,000 people from across the world. It is the premier venue to present research findings and learn about new work in the field.

Together, we are advancing gastroenterological care. Find out more, visit www.ueg.eu/week
Comprehensive coverage of selected topics

Digestive Diseases

Clinical Reviews

Digestive Diseases 2013: Volume 31
6 issues per volume
Language: English
ISSN 0257–2753 (print)
ISSN 1421–9875 (online)

Listed in bibliographic services, including Current Contents®, MEDLINE, Biological Abstracts

Recent Topics
- Revisiting IBD Management: Dogmas to Be Challenged ISBN 978–3–18–02185–1
- Acid Inhibition and Peptic Ulcer — 100 Years of Carl Schwarz’s Dictum: No Acid – No Ulcer ISBN 978–3–8055–9888–0
- From Chronic Inflammation to Cancer ISBN 978–3–8055–9651–4

Each issue of this journal is dedicated to a special topic of current interest, covering both clinical and basic science topics in gastrointestinal function and disorders. The contents of each issue are comprehensive and reflect the state of the art, featuring editorials, reviews, mini reviews and original papers. These individual contributions encompass a variety of disciplines including all fields of gastroenterology. Digestive Diseases bridges the communication gap between advances made in the academic setting and their application in patient care. The journal is a valuable service for clinicians, specialists and physicians-in-training.
