Abstracts

China Heart Congress
Beijing, China, August 7–10, 2014

Guest Editor
Shengshou Hu, Beijing, China
## CONTENTS

### Epidemiology and Prevention of Cardiovascular Disease

<table>
<thead>
<tr>
<th>Title</th>

</table>
The effect of exercise on endothelial function of patient with coronary heart disease
Jia Lu, Yingjie Zhang

Association of rantes gene polymorphisms with takayasu arteritis in Chinese Han population
Yuehua Li, Dan Wen, Xiongjing Jiang, Haiying Wu, Huimin Zhang, Xianliang Zhou

Wenchi Guan, Karthik Murugiah, Jing Li, Qing Wang, Joseph Ross, Nihar Desai, Frederick Masoudi, John Spertus, Xi Li, Harlan Krumholz, Lixin Jiang

Egg consumption and risk of colorectal cancer: a meta–analysis
Yuehua Li, Hanjun Pei, Chenghui Zhou, Xianliang Zhou, Yongjian Wu, Lihuan Li

Factors influencing the spontaneous closure of ventricular septal defect in infants
Yang Xu, Sirui Yang, Min Liu

Early clopidogrel therapy in Chinese patients with acute myocardial infarction in 2006 and 2011: insights from the China peace-retrospective ami study
Lihua Zhang, Nihar Desai, Jing Li, Shuang Hu, Xi Li, Frederick Masoudi, John Spertus, Sudhakar Nuti, Sto Wang, Harlan Krumholz, Lixin Jiang

Genetic variant in hepatocyte nuclear factor 1 alpha is associated with left main coronary artery disease
Hanning Liu, Shengshou Hu, Zhe Zheng, Xiao Teng, Haiyong Gu, Rui Liu

Zeng Ge, Xiaolei Guo, Xiaorong Chen, Junli Tang, Liuxia Yan, Jiyu Zhang, Jianwei Xu, Hao Liang, Jixiang Ma

Association between serum uric acid level and metabolic syndrome and its sex difference in a Chinese community elderly population
Miao Liu, Yao He, Bin Jiang, Lei Wu, Jianhua Wang, Xiaoying Li

Haibo Zhang, Frederick A Masoudi, Jing Li, Qing Wang, Xi Li, John A Spertus, Joseph S Ross, Nihar R Desai, Harlan M Krumholz, Lixin Jiang

Prevalence and risk factor of hypertension among Shanghai children and adolescents, 2013
Yi Zhang, Weili Yan, Yanqiang Wu, Yang Yang, Shaoke Chen, Yi Chen, Fang Cao, Qian Zhao

The gender difference in impact of family history of hypertension on children and adolescents in Shanghai
Yi Zhang, Weili Yan, Yang Yang, Yanqiang Wu, Yi Chen, Qian Zhao, Shaoke Chen, Fang Cao, Kai Mu

Study on the incidence of sudden cardiac death in rural area in Beijing
Linfeng Zhang, Ying Li, Jianmei Gao, Caixia Liu, Haiyan Zhang, Yan Dai, Shu Zhang, Wei Hua

The red blood cell distribution width and its relationship in elder patients with coronary artery disease
Kai Zhao, Yongjian Li, Sheng Gao

Effects of tea intake on blood pressure: a meta-analysis of 21 randomized controlled trials
Gang Liu, Xinxin Zheng, Jie Lu, Xiaohong Huang
Both fasting and 2-hour post load glycemic progression predicts subsequent cardiovascular events in persons with impaired glucose tolerance: 23-year follow-up of the Da Qing diabetes prevention study
Xiaoxia Shen, Yali An, Ping Zhang, Jingping Wang, Edward W Gregg, Bo Zhang, Hui Li, Qiuhong Gong, Yanyan Chen, Xiaoyan Xing, Michael Engelgau, Yinhua Hu, Peter H Bennett, Guangwei Li

Framingham risk score for the prediction of coronary artery disease in patients with chronic rheumatic heart disease
Yaowang Lin, Xuebiao Wei, Anping Cai, Yiming Zhou, Dianqin Yu

Thresholds of central systolic blood pressure in Chinese middle-aged population
Guang Hao, Zengwu Wang, Linfeng Zhang, Zuo Chen, Xin Wang, Min Guo, Ye Tian, Lan Shao, Manlu Zhu

PPAR δ polymorphisms as protection factors for dyslipidemia in a Chinese Han population
Zhengyuan Zhou, Zhirong Guo, Shujun Gu, Ming Wu, Ning Zhang

Association of visceral and total body fat with hypertension and prehypertension in middle-aged Chinese population
Zengwu Wang, Linfeng Zhang, Zuo Chen, Xin Wang, Manlu Zhu, Wen Wang, Weiwei Chen

Association between the level of high-sensitivity C-reactive protein and cardiovascular risk factors in middle aged Chinese: a cardiovascular epidemiological study in 2009–2010
Zengwu Wang, Zuo Chen, Linfeng Zhang, Xin Wang, Manlu Zhu, Wen Wang, Weiwei Chen

Hypertension prevalence, awareness, treatment and control between Han and ethnic minorities in China
Hongqiu Gu, Koon Teo, Wei Li, Jingang Yang, Yang Wang, Jun Bo, Li Xi, Salim Yusuf

Hypertension prevalence, awareness, treatment and control in China: analysis of nationwide data
Dianjiang Li, Jun Lv, Fangchao Liu, Pei Liu, Mo Hao

Hypertension burden in 2010 and projections for 2030 in China
Dianjiang Li, Fangchao Liu, Pei Liu, Mo Hao, Jun Lv

Inhaled budesonide for the prevention of acute mountain sickness in unacclimatization young men: a double-blind randomized controlled trial
Xiangjun Li

Association of plasma pcsk9 levels with white blood cell count and its subsets in patients with stable coronary artery disease
Sha Li, Yuanlin Guo, Ruixia Xu, Yan Zhang, Chenggang Zhu, Jing Sun, Ping Qing, Naqiong Wu, Lixin Jiang, Jianjun Li

Plasma PCSK9 Levels are associated with the severity of coronary stenosis in patients with atherosclerosis
Sha Li, Yuanlin Guo, Ruixia Xu, Yan Zhang, Chenggang Zhu, Jing Sun, Ping Qing, Naqiong Wu, Lixin Jiang, Jianjun Li

A cross-sectional study of pulmonary arterial hypertension in congenital heart disease by right heart catheterization
Wen Li, Yunjuan Sun, Kunjing Pang, Hao Wang, Tao Yang, Qing Gu, Zhuhua Zhao, Chuanming Xiong, Xinhai Ni, Zhuhong Liu, Jianguo He

Prevalence, awareness, treatment, and control of hypertension in high-, middle-, and low-income provinces of China
Pei Liu, Jun Lv, Fangchao Liu, Dianjiang Li, Mo Hao
Effect of acute high altitude exposure on lung function and relationship between lung function and AMS
Pan Song, Junqin Zhang, Ji Hang, Xubin Gao, Jie Yu, Lan Huang .......................................................... (16)

Alteration in right heart function upon high-altitude exposure and its roles in acute mountain sickness
Xi Liu ....................................................................................................................................................... (16)

Liberal versus restricted fluid administration in heart failure patients: a meta-analysis of 6 randomized trials
Biao Fu ..................................................................................................................................................... (16)

Myocardial performance index and ejection time in healthy adult males after rapid ascent to 3700 m
Mingyue Rao .......................................................................................................................................... (17)

Sleep quality changes in insomniacs and non-insomniacs after acute altitude exposure and its relationship with acute mountain sickness
Xugang Tang ............................................................................................................................................. (17)

Analysis on the association of peroxisome proliferator-activated receptors-α polymorphisms and haplotypes with apolipoprotein (apo) A-I/apoB ratio
Bo Hai, Zhirong Guo, Ming Wu, Qiu Chen, Zhengyuan Zhou ................................................................. (17)

Comparative study on the achievement in primary school children with congenital heart disease accepted cardiac surgical operation after or before primary school admission
He Li, Meiling Shi, Mulan Deng, Xiaoxing Jiang, Jimei Chen, Yifeng Cai, Jian Zhuang .................................. (18)

Interaction of peroxisome proliferator-activated receptors-delta gene haplotypes and current smoking status on abdominal obesity risk
Wei Fan, Zhirong Guo, Zhengyuan Zhou, Mengmeng Liu, Bo Hai, Huijian Xie .............................................. (18)

Additional use of a phosphodiesterase 5 inhibitor in patients with pulmonary hypertension secondary to chronic systolic heart failure
Xiaojing Wu ................................................................................................................................................ (18)

Effect evaluation on the model of third party service for standard management of hypertension in occupational population
Quanyong Xiang, Qihuah Wu, Lin Zhang, Yu Qin, Zengwu Wang, Xim Wang, Weiwei Chen, Yan Xu .......... (19)

Association between the level of fasting blood glucose and carotid intima–media thickness in Han, Uygur and Kazak population from Xinjiang
Haixia Li, Xiaomei Li, Yining Yang, Yitong Ma, Fen Liu, Bangdang Chen ...................................................... (19)

Different target organ vulnerability with several noninvasive arterial stiffness measurements
Junli Zuo, Guili Chang, Pingpin Gao, Dinglou Zhu, Shaoli Chu ................................................................. (19)

Polymorphisms of the TGFBRAP1 gene in relation to blood pressure variability and plasma TGF-β 1
Daxia Guo, Chong Shen, Yanchun Chen, Song Yang, Linhong Wang, Yuelong Jin, Lianping He,
Jinfeng Chen, Xianghai Zhao, Wei Zhou, Hailong Zhao, Yingshui Yao ....................................................... (20)

Relationship between circadian blood pressure rhythm and renal function in obese elderly women
Jianchao Xu, Zhendong Liu, Fanghong Lu ..................................................................................................... (20)
The incidence of congenital heart disease from the congenital heart disease network study in Guangdong province, China
Yanji Qu, Zhiqiang Nie, Xiaoping Liu, Jimei Chen, Wei Pan, Jinzhuang Mai, Xiangmin Gao, Yong Wu, Yanqi Ou, Jian Zhuang………………………………………(20)

Clinical characteristics and prognosis of 60 patients with midventricular obstructive hypertrophic cardiomyopathy
Lirong Yan, Yunian Yang, Xiyi Guo, Zhimin Xu, Yishi Li, Chaomei Fan………………………………………(21)

Shift work and risk of metabolic syndrome: a meta–analysis of cohort studies
Chen Huang, Zunsong Hu, Jianfeng Huang, Dongfeng Gu………………………………………(21)

Shift work and risk of diabetes: a meta–analysis of prospective studies
Zunsong Hu, Chen Huang, Jianfeng Huang, Dongfeng Gu………………………………………(21)

Association study of NOS3 gene polymorphisms and hypertension in Chinese Han population
Linhong Wang, Xiaoyin Guo, Song Yang, Yuelong Jin, Linpeng He, Jinhong Chen, Xianghai Zhao, Yanhun Chen, Wei Zhou, Chong Sheng, Yinghui Yao………………………………………(22)

Association study of profilin–1 gene polymorphisms and essential hypertension in Chinese Han population
Daxia Guo, Yanhun Chen, Yinghui Yao, Xianghai Zhao, Wei Zhou, Yuelong Jin, Linpeng He, Jinhong Chen, Chong Sheng, Song Yang………………………………………(22)

The clinical features of patients with stable coronary artery disease and atrial fibrillation
Kuo Zhang, Wenyao Wang, Xun Yuan, Yang Guo, Min Yang, Mu Mu, Yida Tang………………………………………(23)

MG53 gene polymorphisms are associated with systolic blood pressure in type 2 diabetes mellitus patients with hyperglycemia
Hailong Zhao, Yanhun Chen, Ming Wu, Jie Yang, Xiaoyin Guo, Song Yang, Xianghai Zhao, Wei Zhou, Yinghui Yao, Chong Sheng………………………………………(23)

The study of relationship between red cell distribution width and coronary bifurcation lesions
Pinxiao Liu, Peng Qu………………………………………(23)

Trends in cardiac biomarker testing in China for patients with acute myocardial infarction, 2001 to 2011: China PEACE–retrospective AMI study
Lijuan Zhan, Frederick A. Masoudi, Xi Li, Shuang Hu, Arjun K. Venkatesh, John A. Spertu, Zhenqiu Lin, Nihar R. Desai, Jing Li, Harlan M. Krumholz, Lixin Jiang………………………………………(24)

Basic Cardiovascular Medicine

Hypoxia preconditioned mesenchymal stem cells prevent cardiac fibroblast activation and collagen production via leptin
Panpan Chen, Xinyang Hu, Jianan Wang………………………………………(25)

Mast cell plays pivotal role in nicotine–induced atherosclerotic plaque progress and instability
Chen Wang, Han Chen, Yinchuang Xu, Xinyang Hu, Jianan Wang………………………………………(25)

MiR–211 mediated hypoxia induces bone marrow mesenchymal stem cells migration through STAT5A
Xinyang Hu, Panpan Chen, Jianan Wang………………………………………(25)

Transplantation of SIRT1 engineered aged MSCs improves cardiac function in a rat myocardial infarction model
Huiqiang Chen, Xianbao Liu, Jianan Wang………………………………………(26)
Cerebral protection against ischemia/reperfusion injury by ischemic preconditioning during moderate hypothermia low flow procedures
Zhifei Ma, Wen Chen, Changchun Cao, Xin Chen

Overexpression of cardiac ankyrin repeat protein induces dilated cardiomyopathy
Na Zhang, Xiaojie Xie, Jianan Wang

A potentiated anti–atherosclerosis in complete bone marrow cell transplantation of ApoE−/− mice than C57/BL6 mice through inactivation of C–C chemokine receptor 5
Quanwei Tao, Xiangyang Xia, Na Zhang, Qunchao Ma, Hong Yu

PKC epsilon translocation is essential for mesenchymal stem cell paracrine factors mediated cardioprotective effect against ischemia and reperfusion injury
Yu Zhou, Zhi Jiang, Xinyang Hu, Wei Zhu, Yingchao Wang, Lengmei Wang, Jianan Wang

MicroRNA–223 governs profibrillatory L-type calcium channel subunits protein changes in atrial fibrillation
Fengping He, Xin Xu, Shuguo Yuan, Liangqiu Tang, Fenglian Liu, Yanjun Jia, Yan Zhang, Jun Liu, Yuanlan Guo, Ruixia Xu, Jianjun Li

The altered microRNA expression profiling of lung tissue with or without ulinastatin pulmonary perfusion in a deep hypothermic low–flow cardiopulmonary bypass induced lung injury model
Wenlei Li, Shoujun Li, Hao Zhang, Fuxia Yan, Jinping Liu, Sen Zhang, Quiming Chen

Endurance training forestalling aging–related myocardial contractile dysfunction and ischemic intolerance: AMPK vs Akt signaling divergence
Chen Li, Tiannan Jiang, Yue Yin, Lu Yu, Heng Ma

Role of GRK4 in the regulation of arterial AT1 receptor in hypertension
Ken Chen, Chunjiang Fu, Caiyu Chen, Li Liu, Hongmei Ren, Yu Han, Jian Yang, Duofen He, Chunyu Zeng

Impact of currently prescribed lipid–lowering drugs on plasma PCSK9 concentration: single or in combination study
Yan Zhang, Jun Liu, Sha Li, Ruixia Xu, Jing Sun, Jianjun Li

Role of GRK4 γ variant 142V in the regulation of renal ETB receptor in hypertension
Meixiang Li, Caiyu Chen, Shuo Zheng, Chunyu Zeng

Telmisartan effects on left ventricular remodeling in spontaneously hypertensive rats
Huan Lin, Xinying Li, Jiyan Leng

Up–regulation of caveolin–1 suppresses vascular smooth muscle cells proliferation and neointimal formation in balloon injured rat carotid artery
Wei Lu

Phosphatase and tensin homologue on chromosome 10 regulates angiotensin II–induced proliferation and collagen metabolism in neonatal rat cardiac fibroblasts through the Akt/P27 signaling pathway
Ning Lie

Combination of hyaluronic acid and bone marrow–derived mesenchymal stem cells promotes myocardial repair after infarction
Qianrong Zhang, Kai Li, Jian Meng, Xuewen Liu, Jun Li, Jianye Zhou, Shengshou Hu

Tissue distribution of exogenous estrogens and β–(3, 4-dihydroxyphenyl)–α–hydroxypropionate in ovariectomized rat specialty: internal medicine
Qianrong Zhang, Xiaopu Zheng, Hongling San, Xiaohui Zheng
New-onset heart failure after short-term permanent right ventricular apical pacing in patients with third degree atrioventricular block and normal left ventricular function
Nana Liu

Cortistatin inhibited calcification of rat vascular smooth muscle cells induced by β–glycerophosphate through GHSR1a
Yue Liu, Yu Fu, Xiaohui Zhang, Fang Liu, Yongfen Qi, Xinhua Yin

Inhibition of focal adhesion kinase (FAK) suppresses hypoxia–induced differentiation and collagen synthesis in neonatal mice cardiac fibroblasts
Guangpu Fan, Hui Zhao, Wei Wang

Umbilical cord blood mesenchymal stem cell conditioned medium inhibits hypoxia induced apoptosis in H9c2 cardiomyoblasts by activation of Akt
Guangpu Fan, Xuhe Gong, Guogan Wang, Wei Wang

Inhibition of focal adhesion kinase (FAK) suppresses hypoxia–induced differentiation and collagen synthesis in neonatal mice cardiac fibroblasts
Guangpu Fan, Hui Zhao, Wei Wang

Trimetazidine protects mesenchymal stem cells against hypoxia and serum deprivation induced apoptosis by activation of Akt
Xuhe Gong, Guangpu Fan, Wei Wang, Guogan Wang

Hydrogen sulphide protects HUVECs against high–glucose induced senescence
Zhiming Song, Yong Liu, Shujie Yu, Shuiying Huang, Lin Chen, Xiaoxian Qian

Next generation sequencing as a fast molecular diagnosis for marfan syndrome in a Chinese family with mutation in FBN1
Yan Xiao, Chaoxia Lu, Yaxin Liu, Kunqi Yang, Fang Liu, Jifang Xiao, Tao Tian, Xue Zhang, Xianliang Zhou

CARD3 mediates cardiac remodeling after myocardial infarction through p38–dependent signaling pathway
Liangpeng Li, Xin Chen

Mechanism of resisting delayed cardiac xenograft rejection by inhibiting the NF–kappa B signaling pathway
Wenxue Ye, Xiaomei Ten, Zhe Yu, Zhenya Shen

PEDF: a novel protective factor for ischemic hearts
Hao Zhang, Zheng Wang, Shoujie Feng, Guangda Yuan, Wei Yan, Lei Xu, Hexian Shi, Lili Chen, Zhongming Zhang, Hongyan Dong

Effects of renal sympathetic denervation on the atrial electrophysiology in dogs with pacing–induced heart failure
Xiaozhan Wang, Qingyan Zhao, Hongping Deng, Xule Wang, Zongwen Guo, Zixuan Dai, Jizhong Xiao, Peixing Wan, Congxin Huang

Tongxinluo reduces infarct size in reperfused diabetic heart by maintaining endothelial cell–cell junctions integrity via PI3K/Akt pathway
Kang Qi, Yuejin Yang, Xiangdong Li, Chen Jin, Hehe Cui, Leipei Jiang, Na Li

Angptl4 functions as a protective factor in reperfused diabetic heart by reducing endothelial paracellular permeability
Kang Qi, Yuejin Yang, Na Li, Xiangdong Li, Hehe Cui, Leipei Jiang, Qinqing Li

Hyperglycemia and oxidative stress stimulate abnormal proliferation of atrial fibroblast through NADPH oxidase–JNK 1/p38–MMP9 signal pathway
Tong Liu, Qiqing Zhang, Xinhuax Wang, Xue Liang, Guangping Li

Gene knock–in mouse models for heart development and regeneration studies
Jinjun Yan, Chendeng Cai
Expression of ZO-1 in iPS cells mediated by lentiviral vector
Tao Sheng, Jianping Zeng, He Huang, Hui Li, Zhishan Sun

Study on atrial fibrillation related miRNA and mRNA profiling and the establishment of miRNA–mRNA regulatory network
Jie Gao, Jian Zhou, Pixiong Su

EETs mediated anti-oxidative stress effect on prevention against aortic adventitial remodeling
Junxiong Chen, Daowen Wang

Exosome–carried miRNA–185 – 5P Regulates the Transcription of Metalloprotease ADAMTS13
Yuanyuan Fu, Hang Yang, Qinjin Xiang, Zhou Zhou

The regulation role of P2X7R to NLRP3 inflammasome in atherosclerosis
Kuang Peng, Hongyan Wang, Xiaojing Wang, Lili Wang, Dan He, Peng Qu

Attenuation of CLOCK–BMAL1 transcriptionally decreases the expression of beta1–AR to anticipate the occurrence of ventricular arrhythmia after chronic heart failure
Jiamin Yuan, Zhiyong Qian, Peibing Ge, Yao Wang, Yunhong Chen, Xiaofeng Hou, Jiangang Zou

Ox–LDL modulates vascular calcification via TLR4–NF–κB signaling
Yan Song, Jianyun Yan, Menglin Hou, Qin Zhou, Lihe Lu

Decreased MiR–451 in hypertrophic cardiomyopathy regulates autophagy by targeting TSC1
Jizheng Wang, Ming Su, Yubao Zou, Xiaojian Wang, Yilu Wang, Hongli Cui, Peng Zhao, Shuiyu Wang, Rutai Hui, Lei Song

Genetic polymorphisms in ZFHX3 are associated with atrial fibrillation in a Chinese Han population
Yaowu Liu, Xinguang Chen, Zhen Fang, Liyan Zhao, Minglong Chen, Bing Yang, Fengxiang Zhang

The effect of non-invasive ventilation on erythrocyte deformation in patients with hypoxemia after acute myocardial infarction
Xifu Wang, Ming Ye, Huimin Zhang, Yanfang Li, Shaoping Nie

Effect of rosuvastatin on blood pressure, mesenteric arteries structure and vasodilatation function in spontaneously hypertensive rats
Zhoufei Fang, Liangdi Xie

Effect of xiongdan on blood pressure, mesenteric vascular structure and function in spontaneously hypertensive rats
Zhoufei Fang, Liangdi Xie

PEDF and PEDF–derived peptide 44mer protect cardiomyocytes against hypoxia–induced apoptosis and necroptosis via anti–oxidative effect
Xiao Gao, Hao Zhang, Wei Zhuang, Guandong Yuan, Teng Sun, Xia Jiang, Honghua Yuan, Zhongqin Zhou, Zhongming Zhang, Hongyan Dong

Gene expression signature of increased heart rate in shensongyangxin–treated bradycardia rabbits
Zhouying Liu, Roumu Hu, Jian Huang, Jielin Pu

Up–regulated lipocalin–2 in pulmonary hypertension involving in pulmonary artery SMCre sistence to apoptosis
Guoliang Wang, Shenghua Liu, Wang Li, Lunkun Meng, Hongliang Zhang, Yingjie Wei
The expression of IL33/ST2 in congenital pulmonary hypertension
Guoliang Wang, Shenghua Liu, Li Wang, Lianjun Meng, Hongliang Zhang, Yingjie Wei

The novel DSG2 mutations and the functional changes of desmoglein2 caused by DSG2 mutations in ARVC patients
Li Wang, Guoliang Wang, Shenghua Liu, Hongliang Zhang, Yingjie Wei

The intervention target of atherosclerotic vulnerable plaque based on the literature
Yanyang Li, Aiqin Zhong, Yaping Zhu, Junping Zhang

Increased frequency of follicular helper T cells in mice viral myocarditis is relevant with Anti-ANT antoantibody
Fan Yang, Wenhong Mo, Baoping Tan, Xiaomou Wei, Hong Wang

Phosphoinositide 3-kinase γ pathway mediates the pro-inflammatory effects of high-density lipoprotein in patients with coronary heart disease
Hui Zhao, Hong Liu, Lin Chai, Lirong Yan, Yuxin Jiang, Bing Duan, Xiaoyuan Guan, Lu Hua, Lei Tian, Youzheng Jia, Yusheng Li

SIRT1 inactivation by carbonyl stress impairs the ischemic tolerance and responsiveness to ischemic preconditioning in aged hearts
Yishi Wang, Zhifu Wang, Yue Yin, Chunhu Gu, Heng Ma

SIRT3 mediated cardioprotection prevents ischemia reperfusion arrhythmias
Tiannan Jiang, Chen Li, Lu Yu, Yue Yin, Qiansun Zheng, Heng Ma

eNOS modified endothelial progenitor cells inhibit efficiently neointima formation and enhancement of vascular function
Bin Cui

An autopsied case of a neonate with the origin anomaly of total coronary arteries from the pulmonary artery
Zhenglian Chen, Chunyu Shen, Xinshan Chen

c–Met overexpression promotes reendothelialization and inhibits neointimal formation after balloon injury
Mingbao Song

Beneficial effects of a polysaccharide from Salvia miltiorrhiza on myocardial ischemia–reperfusion injury in rats.
Mingbao Song

Atorvastain attenuates TNF–α–induced increase of glucose oxidation through PGC–1α up–regulation in cardiomyocytes
Jiang Wang

Gang Zhao

The interaction of transient receptor potential melastatin 7 with macrophages promotes vascular adventitial remodeling in transverse aortic constriction rats
Shujie Guo

The protective effects of a non–depolarizing solution on the endothelial function in vitro preservation
Mengmeng Chen, Feilong Hei
The role of potassium channels in protective effects of NDP solution on EDHF–mediated relaxation
Mengmeng Chen, Feilong Hei

Long–term exercise beginning at prehypertensive stage delays the development of hypertension in SHRs and underlying mechanisms
Haifeng Zhang, Wenjuan Xing, Feng Gao

β2 adrenergic receptor activation governs cardiac repolarization and arrhythmogenesis in a guinea pig model of heart failure
Yao Wang, Jiamin Yuan, Zhiyong Qian, Xiaofeng Hou, Jianguang Zou

Angiotensin II stimulates matrix metallopeptidase 2 upregulation in human aortic smooth muscle cells of thoracic aortic aneurysms by activating of ERK1/2, P38, JNK signaling
Chunmao Wang, Penghong Liu, Wenzhi liu, Qian chang

A Pro–atherogenic HDL profile in coronary heart disease patients: an iTRAQ labelling–based proteomic approach
Lirong Yan, Hong Liu, Hui Zhao, Xiaoqing Zhang, Lu Hua, Ping Xu, Yishi Li

Comparison of overexpression of matrix metallopeptidase 2 in human ascending thoracic aortic aneurysms associated with bicuspid aortic valves and tricuspid aortic valves
Chunmao Wang, Qian Chang

The effect of valsartan on tumor necrosis factor–α (TNF–α) in rat hearts during myocardial ischemia reperfusion
Yingjie Zhang, Renguang Liu

Molecular genetics of LiHdles syndrome
Kunqi Yang, Yan Xiao, Tao Tian, Linggen Gao, Xianliang Zhou

The relationship between circulating estradiol levels and cardiac structure and function in patients with hypertrophic cardiomyopathy
Baojing Sun, Shi Chen, Jiansong Yuan, Shubin Qiao, Fujian Duan, Rong Liu, Jingang Cui, Fenghuan Hu, Weixian Yang, Youzhou Chen, Yuejin Yang

Candesartan inhibitors angiotensin II–induced matrix metalloproteinase 2 activation in human aortic smooth muscle cells via angiotensin II type 1 receptor
Chunmao Wang, Chuan Tian, Penghong Liu, Wenzhi Liu, Qian chang

Transgenic overexpression of peroxiredoxin II results in the decreased cardiac contractile function in vivo
Xiaojing Shi, Wenjuan Zhou, Huimin Wang, Xuepeng Geng, Kai Tang, Shuang Zhang, Hongmin Liu, Evangelia G. Kranias, Wen Zhao

Chemerin induces insulin resistance in rat cardiomyocytes in part through the ERK1/2 signaling pathway
Yongjun Li, Ruining Zhang, Sunyun Liu, Bingyan Guo, Liang Chang

To dynamically observe a severe familial hypercholesterolemia child with seven–year follow up in China: a call for action
Long Jiang, Feng Gao, Liyuan Sun, Xiaodong Pan, Jie Lin, Qiang Yong, Qian Wang, Ya Yang, Shiwei Yang, Luya Wang

Attenuation of LSD1 inhibitor on ISO–induced cardiac contractile response
Ke Yang, Xiaojing Shi, Wen Zhao
The effect of PEAR1 genetic variants on platelet reactivity
Yi Yao, Xiaofang Tang, Jing Wang, Jiahui Zhang, Yuandiang Ma, Jingjing Xu, Ru Liu,
Xianmin Meng, Jingjing Yuan……………………………………………………………………………… (53)

Transgenic overexpression of Prx II protects hearts from ischemia–reperfusion injury in vivo
Wen Zhao, Huimin Wang, Xiaojing Shi, Wenjuan Zhou, Ke Yang, Xuepeng Geng, Shuang Zhang,
Jingjing Wang, Hongmin Liu……………………………………………………………………………… (53)

Impaired hippocampal synaptic plasticity in angiotensin II–dependent hypertensive mice
Hailong Dai, Xuefeng Guang, Ming Zhang, Zhicheng Xiao, Weiyuan Hu, Xin Li…………………………………… (53)

Regulatory role of MicroRNA–216a in the proliferation and adhesion of senescent endothelial cells
Xuenan Mi, Jingyao Fan, Shujun Yang, Yu Chen, Rutai Hui, Weili Zhang……………………………………………………… (54)

CardioSignal–TF is a cardiovascular transcription regulation knowledgebase
Yisong Zhen……………………………………………………………………………………………………………… (54)

Integrating genetic and gene expression evidence into genome–wide association analysis identified novel genes for lipid traits
Xingbo Mo, Huan Zhang, Shufeng Lei, Yonghong Zhang……………………………………………………………………… (54)

Down–regulation of the small–conductance calcium–activated potassium channels in diabetic mouse atria promotes arrhythmia induction
Fu Yi, Tong Lu, Xiaoli Wang, Wenkuang Shen, Huo–Chi Lee………………………………………………………………… (55)

Dipeptidyl peptidase (DPP)–4 Inhibitor attenuates apoptosis in isoproterenol–induced myocardial infarcted rats by inhibiting oxidative stress
Yongjun Li, Bingyan Guo, Suyun Liu, Hui Zhang, Rong Yang, Xin Jin………………………………………………………… (55)

SFRP5 expression in rat cardiomyocytes is up–regulated in ang II–induced cardiomyocyte hypertrophy
Yongjun Li, Xin Jin, Bingyan Guo, Suyun Liu, Liang Chang…………………………………………………………………… (55)

CYP2J2–derived EETs attenuate Angiotensin II–induced adventitial remodeling
Chi Zhou, Xizhen Xu, Daowen Wang…………………………………………………………………………………………… (56)

Polymorphisms in the MMP–2 gene and chronic heart failure in Henan Han population
Liwei Guo, Guifang Wang, Ximing Zhang………………………………………………………………………………………… (56)

Prokaryotic expression, purification and activity evaluation of an antioxidant protein: peroxiredoxin II
Wen Zhao, Wenjuan Zhou, Xiaojing Shi, Yichao Zheng, Huimin Wang, Xuepeng Geng,
Shuang Zhang, Jingjing Wang, Hongmin Liu………………………………………………………………………………………… (56)

Regulation of Cardiomyocyte Differentiation and Proliferation by Cnot3
Junwei Liu, Li Wang, Jiawei Shi, Tucheng Sun, Nianguo Dong, Xinquan Wang, Haoluo Luo,
Jialiang Wang, Caiyu Chen, Yue Cai, Shuo Zhen, Zhou Zhou, Chunyu Zeng………………………………………………… (57)

Prenatal lipopolysaccharide exposure results in dysfunction of renal dopamine D1 receptor in offspring rats
Xinquan Wang, Haoluo Luo, Jialiang Wang, Caiyu Chen, Yue Cai, Shuo Zhen, Zhou Zhou, Chunyu Zeng…………………… (57)

Decreased soluble vascular endothelial growth factor receptor 2 expression in hypertensive diabetic patients
Shujie Yu, Lixia Jian, Zhiming Song, Zhen Wu, Xiaoxian Qian, Lin Chen……………………………………………………… (57)
High serum bisphenol A level might increase the risk of dilated cardiomyopathy
Qinmei Xiong, Ping Yuan, Hongsheng Wang, Qiongqiong Zhou, Xin Liu, Yang Shen, Wenfeng He, Jianyong Ma, Kui Hong

Clinical Cardiology

Effects of lipophilic statins for heart failure: a meta-analysis of 13 randomized controlled trials
Gang Liu, Xinxin Zheng, Xiaohong Huang

Clinical characters and risk factors of left ventricular thrombus after acute myocardial infarction: a matched case-control study
Yuexin Jiang, Linde Jing, Youhong Jia, Yishi Li

Comparition between statin-induced myopathy: clinical analysis of 160 cases of statin-induced myopathy
Yuexin Jiang, Ying Lou, Yuqing Liu, Liming Zhang, Yingqun Zhou, Yishi Li

Effect of continuous positive airway pressure on nocturia in obstructive sleep apnea patients with coronary heart disease
Zhiwei Huang, Zhihong Liu, Zhihui Zhao, Qin Luo, Qin Zhao

Comparison of transplantation of bone marrow-derived stem cells, adipose-derived stem cells and endometrium-derived stem cells in the Infarcted Heart
Xinyang Hu, Kan Wang, Jianan Wang

Pretreated MSCs with a growth hormone releasing hormone agonist enhanced their therapeutic properties of angiogenesis for hindlimb ischemia in mice
Xiangyang Xia, Qunchao Ma, Quanwei Tao, Hong Yu

The prevalence and prognosis of extreme left ventricular hypertrophic cardiomyopathy in China
Xiying Guo, Shihua Zhao, Fujian Duan, Zhimin Wang, Shuoyan An, Yishi Li, Chaomei Fan

Variations in the management and outcome of patients with acute myocardial infarction in China
Xiaojin Gao, Yuejin Yang, Jingang Yang, Haiyan Xu, Yuan Wu, Wei Li, Yang Wang, Xinran Tang, Li Chen, Yi Sun, Rui Fu, Yunqing Ye, Hui Sun, Xinxin Yan, Qutang Dong, Chen Jin, On behalf of China Acute Myocardial Infarction Registry

The effects of anticoagulant therapy on coagulant state and platelet function following transcatheter closure of atrial septal defect
Guocai Chen

Coronary risk factors profiling in Chinese patients with acute myocardial infarction
Xiaojin Gao, Yuejin Yang, Jingang Yang, Haiyan Xu, Yuan Wu, Wei Li, Yang Wang, Xinran Tang, Li Chen, Yi Sun, Rui Fu, Yunqing Ye, Hui Sun, Xinxin Yan, Qutang Dong, Peiyuan He, Chen Jin

Clinical manifestations and long-term outcome for patients with takayasu's arteritis in China
Lirui Yang, Huimin Zhang, Xionqiong Jiang, Yubao Zou, Fang Qin, Yaxin Liu, Haiying Wu, Lei Song, Lianjun Xu, Ting Guan, Xianliang Zhou, Jin Bian, Rutai Hui, Deyu Zheng

Study on the influence of recipient gender on mid-term survival rate of heart transplant patients
Liying Shi, Jie Huang, Zhongkai Liao

The clinical application of TEG in monitoring clotting in patients with coronary heart disease
Ying Guo, Youhong Jia
Early development of xanthoma and coronary disease in a young female with homozygous familial hypercholesterolemia  
Xin Zhao, Liping Bu, Shengmei Qin, Dehong Kong, Bing Fan, Junbo Ge  
(63)

The effect of Shexiangbaoxinwan on ventricle remodeling, brain natriuretic peptide and C–response protein in patients with acute coronary syndrome  
Jinliang Chen, Jing Zhang, Baomin Jia, Xingang Mo  
(64)

Hypothyroidism predicts the mortality of idiopathic dilated cardiomyopathy  
Wenyao Wang, Yada Tang, Mu Mu, Xuan Zhang, Min Yang, Xin Yuan, Kuo Zhang, Yuejin Yang  
(64)

Diffuse aneurysmal and obstructive coronary artery disease, and concomitant atrial septal defect and anomalous origin of the right coronary artery  
Meng Zhang, Yubao Zou, Haiyan Quan, Huimin Zhang, Xiongjing Jiang

Interventional Cardiology

In–hospital death causes of acute myocardial infarction after primary PCI: retrospective analysis from Beijing PCI registry 2010–2013  
Lei Song, Yuejin Yang, Shuzheng Lv, Lefeng Wang, Wei Gao, Jincheng Guo, Hengjian Hao, Quan Fang, Mingying Wu, Hongwei Li  
(68)

Is percutaneous closure superior to surgical repair in terms of heart blocks after closure of perimembranous ventricular septal defect? Evidence from a meta–analysis  
Yuan Bai, Yongwen Qin  
(68)

XTRM–FIT coronary stent system in combination with tirofiban in the treatment of elderly acute coronary syndrome  
Peiyan Liu, Xuan Li, Lei Mao  
(68)

The association between post–PCI bleeding and 1 year adverse clinical outcomes in elderly patients  
Peiyan He, Yuejin Yang, Shubin Qiao, Bo Xu, Yongjian Wu, Jingqiang Yuan, Jue Chen, Haibo Liu, Runlin Gao  
(69)
Effect of gender difference on the 1 year follow-up outcomes for patients undergoing primary PCI
Peiyuan He, Yuejin Yang, Shubin Qiao, Bo Xu, Yongjian Wu, Jingqing Yuan, Jue Chen, Haibo Liu, Xinran Tang, Yang Wang, Wei Li, Runlin Gao
(69)

Association between peak neutrophil count, clopidogrel loading dose, and left ventricular systolic function in patients with primary percutaneous coronary intervention
Xinyu Wang, Haiyi Yu, Zhaoping Li, Liuning Li, Youyi Zhang, Wei Gao
(69)

An angiographic tool for risk prediction of side branch occlusion in coronary bifurcation intervention: the RESOLVE score system
Kefei Dou, Dong Zhang, Bo Xu, Dong Yin
(70)

The comparison of clinical outcomes between incomplete revascularization and complete revascularization in the coronary artery disease
Jiehui Li, Kun Hua, Xiubin Yang
(70)

IVUS guided true lumen seek and tracking technique for complex chronic total occlusion lesions, experience from fuwai hospital
Lei Song, Yuejin Yang, Liang Xu, Bo Xu, Shubin Qiao, Yongjian Wu, Hongbing Yan, Kefei Dou
(70)

Use of novel protective ballooning technique with provisional stenting for treatment of non–left main coronary bifurcation lesions: a feasibility pilot study
Haibo Liu, Bo Xu, Shubin Qiao, Man Wang, Liang Xu, Fenghuan Hu, Kefei Dou, Yuejin Yang, Runlin Gao
(71)

Three-year clinical follow-up of the firehawk abluminal groove–filled biodegradable polymer sirolimus–eluting stent in the treatment of single de novo native coronary lesions: the TARGET I trial
Bo Xu, Yelin Zhao, Yuejin Yang, Martin Leon, Changdong Guan
(71)

Safety and Efficacy of a novel abluminal groove–filled biodegradable polymer sirolimus–eluting stent for the treatment of de novo coronary lesions: 2-year results from the prospectively patient–level pooled analysis of the TARGET I and TARGET II trials
Yelin Zhao, Bo Xu, Yuejin Yang, Yong Huo, Alexandra Lansky, Martin Leon, Changdong Guan
(72)

Two-year clinical outcome after successful implantation of drug–eluting and bare metal stents in large ( ≥ 3.5 mm) coronary arteries
Dong Yin, Kefei Dou, Yuejin Yang, Bo Xu
(72)

Lower mortality of paclitaxel-coated balloon compared with paclitaxel–eluting stent for the treatment of de in–stent restenosis: two–year follow–up of the PEPCAD China isr trial
Yelin Zhao, Bo Xu, Junbo Ge, Yuejin Yang, Changdong Guan
(72)

Association of dual antiplatelet therapy cessation with ischemic and bleeding events following cobalt–chromium everolimus–eluting stent implantation in Chinese population: first two–year reports of the prospective multicenter SEEDS study
Yelin Zhao, Bo Xu, Yuejin Yang, Changdong Guan
(73)

Double–Kissing Culotte stenting technique in coronary bifurcation disease: angiographic follow–up and 12–month clinical outcomes
Tao Hu
(73)

Duration of dual antiplatelet therapy and outcomes after left main percutaneous coronary intervention
Tao Hu
(74)
The cardiac resynchronization therapy can decrease microvolt T wave alternans
Zhen Chen, Xiaofeng Hou, Yuanyuan Tang, Feng Zhang, Jiangang Zou

RESOLUTE China randomized controlled trial: two-year results of resolute zotarolimus eluting stent versus taxusliberte paclitaxel eluting stent
Bo Xu

The platelet receptor P2Y12 gene polymorphisms could predict bleeding risk in clopidogrel–treated Chinese patients after percutaneous coronary intervention
Jiahui Zhang, Jingqin Yuan, Xianmin Meng, Xiaofang Tang, Jing Wang, Yi Yao, Yuanliang Ma,
Jue Chen, Yuan Wu, Zhan Gao, Runlin Gao

Video-assisted thoracoscopic pericardial fenestration for diagnosis and management of pericardial effusions
Zili Meng, Hongwei Li, Shucai Wu, Hui Li, Yonghui Liu

Safety and efficacy of polymer free vs based drug–eluting stents
Xiaohui Zhao

Cardiovascular changes during pericardial window by videothoracoscope for pericardial effusions
Zili Meng, Hongwei Li, yonghui Yang, Qiang Li

Safety and efficacy of degradable vs permanent polymer drug–eluting stents
Xiaohui Zhao

Application value of balloon angioplasty in patients of rheumatic heart disease combined with left atrioventricular valve stenosis and right atrioventricular valve regurgitation
Zhangqiang Chen

Cardiac Surgery in the Adult

Effects of dexmedetomidine on perioperative sedation in coronary artery bypass grafting surgery patients: a meta–analysis
Fangfang Cao, Haitao Zhang, Xue Feng

The meta–analysis of the comparison of conventional coronary artery bypass grafting and hybrid coronary revascularization
Jiehui Li, Kun Hua, Xiubin Yang

The comparison of short and long term prognosis about the aortic dissection between open surgery and endografting or hybrid procedure
Jiehui Li, Mengpeng, Xiubin Yang

Preliminary explore of acute kidney injury associated with deep hypothermic circulatory arrest
Yingjie Du, Guyan Wang, Liqing Yang, Sheng Shi, Jin Li, Bingyang Ji, Zhe Zheng

Asymptomatic pulmonary embolism following off–pump coronary artery bypass: outcomes of a prospective observational study
Jian Wang, Hengchao Wu, Bin Lv, Hansong Sun

Ischemia related revascularization could lead to a better prognosis for patients of coronary artery disease, compared with angiography related
Jiehui Li, Xiaoli Zhang, Xiubin Yang

The comparative application study of continuous blood purification and peritoneal dialysis for severe acute renal failure after cardiac surgery
Maozhou Tian, Weijian Huang, Pengfeng Sun, Yongfeng Lai, Lei Zheng, Chuanlong Zhao, Wenyi Liu,
Qiming Fan, Zhenyu Wei, Hourong Sun
1-year outcomes comparison among medical therapy, percutaneous coronary intervention and coronary artery bypass graft in patients with three-vessel or left main coronary artery disease: results of a prospective registry in single institution.
Chenfei Rao, Shengshou Hu, Zhe Zheng, Kun Hua, Xin Yuan, Heng Zhang, Huawei Gao……………………………………(81)

Chenfei Rao, Shengshou Hu, Zhe Zheng, Xin Yuan, Huawei Gao, Kun Hua, Heng Zhang……………………………………(81)

Prevalence, predictors and 1-year outcomes of ad hoc PCI for complex coronary artery disease: a patient-centered observational study
Chenfei Rao, Shengshou Hu, Zhe Zheng, Xin Yuan, Huawei Gao, Kun Hua, Heng Zhang……………………………………(81)

Impact of cardiac surgery on plasma levels of tenascin-C in patients with hypertrophic obstructive cardiomyopathy
Zhiyan Jiang, Fei Xu, Yun Liu, Yunhu Song, Xin Wang…………………………………………………………………………(82)

Surgical treatment for pediatric hypertrophic cardiomyopathy
Jun Yan, Ronglong Guo, Yajuan Zhang, Qiang Wang, Guohua Luo……………………………………………………………(82)

Exploratory clinical research of the treatment with bosentan for congenital heart disease combined critical pulmonary hypertension with operation indication
Jun Yan, Ronglong Guo, Yajuan Zhang, Qiang Wang, Guohua Luo……………………………………………………………(83)

Genetic variant in glycoprotein receptor I associated with major adverse cardiac and cerebrovascular events after coronary artery bypass graft surgery
Hanning Liu, Shengshou Hu, Zhe Zheng, Haiyong Gu, Xiao Teng………………………………………………………………(83)

Analysis of risk factors for mid-term survival of 435 heart transplant patients in fuwai hospital
Shengshou Hu, Jie Huang, Yunhu Song, Wei Wang, Zhe Zheng, Zhongkai Liao………………………………………………(83)

Comparative study on the early outcomes following three different approaches of CABG in moderate to high risk patients evaluated by sinoSCORE
Junlong Hu, Junjie Sun, Zhaojun Cheng, Ziniu Zhao, Xiaofeng Quan……………………………………………………………(84)

Pulmonary surfactant changes in neonates with and without ALI/ARDS underwent cardiopulmonary bypass
Rongyuan Zhang, Xu Wang, Shoujun Li, Jun Yan, Juxian Yang, Shengli Li, MinZeng, Leilei Duan………………………………(84)

The radial artery for coronary revascularization: experience and clinical results spanning 12 years
Zhaoyun Cheng, Ziniu Zhao, Xiaofeng Quan, Zhenwei Ge, Liang Zhao, Junjie Sun, Junlong Hu, Chuanyu Gao………………………………………………………………………………………………………… (85)

Predictors of early prognosis in patients with ischemic mitral regurgitation undergoing mitral annuloplasty combined with revascularization
Shen Liu, Yunhu Song, Feng Lv, Shuiyun Wang, Chao Dong, Yan Yang, Ruofan Liu, Minghui Tong, Jianping Xu………………………………………(85)

Association between mitral annular dilatation and early prognosis of concomitant mitral valve repair with revascularization in ischemic mitral regurgitation
Shen Liu, Yunhu Song, Feng Lv, Shuiyun Wang, Chao Dong, Yan Yang, Ruofan Liu, Minghui Tong, Jianping Xu………………………………………(85)
Cost-effectiveness analysis for surgical, interventional, or medical treatments for patients with triple-vessel or left main coronary artery disease: 1-year follow-up results from single institution
Kun Hua, Zhe Zheng, Xin Yuan, Chenfei Rao, Wei Li, Shengshou Hu

Effect of preoperatively continued aspirin use on early and mid-term outcomes in off-pump coronary artery bypass grafting: a propensity score-matched study of 1418 patients
Fucheng Xiao, Hengchao Wu, Hansong Sun, Shiwei Pan, Jianping Xu, Yunhu Song

Real-world comparing outcomes of revascularization strategies for multivessel disease in patients with diabetes
Heng Zhang, Xin Yuan, Bo Xu, Yang Wang, Shengshou Hu, Zhe Zheng

Long-term incidence of stroke and transient ischemic attack after coronary artery bypass grafting
Heng Zhang, Xin Yuan, Huawei Gao, Chenfei Rao, Wei Wang, Shengshou Hu, Zhe Zheng

Perioperative period of efficacy in high risk patients undergoing off-pump versus on-pump coronary artery bypass grafting: a meta-analysis
Shixiong Wang, Debin Liu, Wei Wang, Li Pan, Weifan Wang, Bingren Gao

Sequential vein bypass grafting is not associated with an increase of either in–hospital or mid–term adverse events in off–pump coronary artery bypass grafting
Fucheng Xiao, Jian Wang, Hengchao Wu, Hansong Sun

Dilatation of the remaining ascending aorta root after aortic valve replacement for bicuspid versus tricuspid aortic valve: a single center experience
Jing Zhang, Guangpu Fan, Hui Zhao, Xu Wang, Zhiwei Wang, Peide Zhang, Wei Wang

Pediatric Cardiology

The comparative study for metoprolol sustained release tablets and propafenone treating children with frequent premature ventricular contractions
Yan Zhou, Lizhi Han, Jinhua Piao

The systemic–to–pulmonary artery shunt in patients with pulmonary atresia, ventricular septal defect and hypoplastic pulmonary arteries
Yonghui Zhang, Shoujun Li, Kai Ma, Qiuming Chen, Wenlei Li

Comparison of the cardioprotection between blood cardioplegia and STH cardioplegia in infant cardiac surgery: a meta–analysis
Shixiong Wang, Debin Liu, Wei Wang, Li Pan, Bingren Gao, Weifan Wang

The palliated right ventricle to pulmonary artery connection in patients with pulmonary atresia, ventricular septal defect and hypoplastic pulmonary arteries
Shoujun Li, Yonghui Zhang, Kai Ma, Qiuming Chen, Wenlei Li

Surgical treatment of coronary artery fistula: single–center experience spanning 12 years
Fang Li, Dianyuan Li, Jiawei Qiu, Jun Yan, Qiang Wang, Shoujun Li

Study the relationship of left atrial volume index and vasovagal syncope
Xia Yu, Bin Wang, Jinghui Sun

Comparison of fenestrated and nonfenestrated undergoing modified fontan operation at the early period of postoperation
Fan Fan
Cardiac Electrophysiology

Increased mortality in patients with secondary diagnosis of atrial fibrillation: report from Chinese AF registry
XingHui Shao, YanMin Yang, Jun Zhu, Han Zhang, Yao Liu, Xin Gao, LiTian Yu, LiSheng Liu......................... (92)

Comparison of the clinical features and outcomes in two age–groups elderly patients with atrial fibrillation
XingHui Shao, YanMin Yan, Jun Zhu, Han Zhang, Yao Liu, Xin Gao, Li Tian, LiSheng Liu......................... (92)

Clinical characteristics and impact of diabetes mellitus on outcomes in patients with nonvalvular atrial fibrillation
Bi Huang, Yanmin Yang, Jun Zhu, Yan Liang, Han Zhang, Li Tian, Xinghui Shao, Juan Wang, Huaibin Wan………………… (92)

Effects of pre–excitation syndrome on terminal QRS vector observed in spatial vector
Yang Chen, Renguang Liu……………………………………………………………………………………………………(93)

Impact of life–threatening arrhythmias on the short–term outcomes in patients with ST segment elevation myocardial infarction (STEMI) undergoing reperfusion treatment
Bi Huang, Yanmin Yang, Jun Zhu, Yan Liang, Huiqiong Tan, Li Tian, Xin Gao, Jian Dong Li…………………………. (93)

Clinical characteristics and impact of hypertension on the 1–year outcomes in patients with atrial fibrillation and valvular diseases
Bi Huang, Yanmin Yang, Jun Zhu, Yan Liang, Han Zhang, Li Tian, Xinghui Shao, Juan Wang, Huaibin Wan………………… (93)

Association of reperfusion strategies with sustained ventricular tachycardia/ventricular fibrillation and in patients with ST elevation myocardial infarction
Bi Huang, Yanmin Yang, Jun Zhu, Yan Liang, Huiqiong Tan, Li Tian, Xin Gao, Jian Dong Li…………………………. (94)

Effect of renal sympathetic denervation on the progression of paroxysmal atrial fibrillation in canines with long–term intermittent atrial pacing
Xule Wang, Congxin Huang, Qingyan Zhao, He Huang, Yanhong Tang, zixuan Dai, Xiaozhan Wang, Zongwen Guo………………………………………………………………………………………………………………… (94)

Utility of modified moving average analysis of microvolt T–wave alternans to predict ventricular arrhythmias in patients with arrhythmogenic right ventricular cardiomyopathy
Sheliang Xue, Xiaofeng Hou, Quanpeng Wang, Yao Wang, Haiping Ying, Jiangang Zou……………………………………… (94)

Prevalence and determinants of elevated high–sensitivity cardiac troponin I in emergency patients with atrial fibrillation
Han Zhang, Yanmin Yang, Jun Zhu.................................................................................................................... (95)

Reversible tachycardia mediated cardiomyopathy after radiofrequency ablation of idiopathic left ventricular tachycardia
Jia He, Pihua Fang, Zheng Liu, Xiongbiao Chen, Jun Liu, Min Tang, Yuhe Jia, Shu Zhang................................. (95)

Baseline characteristics and 1–year follow–up of Chinese atrial fibrillation patients according to age: a registry study
Tao Chen, Yanmin Yang, Huiqiong Tan, Yan Liang, Jun Zhu .............................................................................. (95)

Management of recurred atrial appendage tachycardia: repetitive catheter ablation or surgical atrial appendectomy?
Zheng Liu, Yuhe Jia, Pihua Fang, Zhe Zheng........................................................................................................ (96)

Algorithm for catheter ablation of orthodromic reciprocating tachycardia using left accessory pathways: based on bipolar polarity reversal mapping technique.
Zheng Liu, Yuhe Jia, Pihua Fang.................................................................................................................... (96)
Second generation of cryoballoon can improve efficiency of cryoablation for atrial fibrillation
Jun Liu, jinhong, Gerds–Li ................................................................. (97)

Frequent spectrum characteristics of bipolar electrogram at the ablation site in patients with ventricular arrhythmia near the left fibrous trigone and the implication for outcome after catheter ablation.
Zheng Liu, Pihua Fang ................................................................. (97)

The survival analysis of relationship between ventricular arrhythmia and ischemic cardiomyopathy
Tianjie Feng, Keping Chen, Wei Hua, Shu Zhang ......................................................... (97)

Effects of different right ventricular pacing sites on qrs duration in patients receiving permanent dual chamber pacemakers
Xiaoqing Ren ................................................................. (98)

Low circulating big ET–1 predicts full response to 12 months of cardiac resynchronization therapy
Xinwei Yang, Wei Hua, Jing Wang, Zhimin Liu, Keping Chen, Shu Zhuang ......................................................... (98)

How bifurcation angle impact the fate of side branch after main vessel stenting: results from a large center
Dong Zhang, Kefei Dou, Bo Xu, Dong Yin ......................................................... (99)

Comparative study of guiding radiofrequency catheter ablation to treat atrial flutter with three–dimensional mapping system and conventional methods
Yan He, Haide Liu, Zhengnan Zhang, Guoqiang Zhong ......................................................... (99)

The Impact of pulmonary antrum radial–linear ablation vs pulmonary vein isolation on long–term outcome for paroxysmal atrial fibrillation
Xue Zhao, Jiayou Zhang, Jianqiang Hu, dening Liao, Yinxian Zhu, Yanping Gui, Wenliang Lu, Yan Huang, Xingui Guo, Aywei Xu, Yanzhou Zhang, Hui Gong, Zhenguo Liu ......................................................... (99)

Pulmonary vein isolation with cryoballoon technique for the treatment of atrial fibrillation: early experience by a single operator in a Chinese electrophysiology centre
Gongbu Zhou, Jian Ma, Xiaogang Guo, Xu Liu, Shu Zhang ......................................................... (100)

Trends of LVEF in patients with long–term treatment of cardiac resynchronization therapy
Xinwei Yang, Wei Hua, Jing Wang, Zhimin Liu, Keping Chen, Shu Zhang ......................................................... (100)

Hypertension

The relationship between resting heart rate and left ventricular hypertrophy in prehypertension
Yuqing Huang, Yingqing Feng, Yingling Zhou, Jiyan Chen ......................................................... (101)

Evaluating the effect on different intervention models of rural urbanization community hypertension
Yuqing Huang, Yingqing Feng, Jiyan Chen, Yingling Zhou ......................................................... (101)

Effects of aldosterone antagonists on blood pressure in resistant hypertension: a meta–analysis
Gang Liu, Xinxin Zheng, Jie Lu, Xiaohong Huang ......................................................... (101)

Association of serum sulfatide with target–organ damage in arterial hypertension
Jian Gu, Gang Li ......................................................... (102)
The predictive value between the blood uric acid level and the carotid atherosclerosis of middle-aged patients with essential hypertension
Yuqing Huang, Xuebiao Wei, Jiaxin Zhan, Lei Jiang, Jiyan Chen, Yingjing Zhou, Yingqing Feng.......................... (102)

The relationship between the 24-hour ambulatory pulse pressure and left ventricular mass index in elderly patients with essential hypertension
Hongjian Li, Suxia Han.................................................................................................................. (102)

Genetic variations of STEAP2 gene polymorphism and related inflammatory factors in obstructive sleep apnea syndrome
Ting Yin, Nanfang Li, Ruimei Han, Zhitaoyuan, Wanyong Ma, Xiaoguang Yao, Yingchun Wang,
Tao Li, Le Sun, Feiya Zu, Jiangqiong Kong, Xiangyang Zhang................................................. (103)

rs3740835 variant in KCNJ5 gene related to the ct scan–based adrenal hyperplasia in patients with primary aldosteronism
Xiaoguang Yao, Nanfang Li, Delian Zhang, Gujuan Chang, Keming Zhou, Qin Luo, Junli Hu........... (103)

Investigation of the influence of antidepressive therapy on blood pressure and quality of life in elderly patients both with hypertension and depression
Lina Ma, Yu Li.................................................................................................................................. (103)

Prevalence and cardiovascular–metabolic characteristics of primary aldosteronism
Nanfang Li, Xiaoguang Yao, Abulikem Suoffiya, Delian Zhang, Gujuan Chang, Keming Zhou, Qin Luo, Junli Hu, Lei Wang, Guolun Wang, Wen Jiang, Yu Zhang.............................................. (104)

Hypertension with obesity patients serum adiponectin level and left ventricular hypertrophy and the relationship between the atherosclerosis
Huan Lin, Xuying Li, Jiyan Leng........................................................................................................ (104)

Effects of perindopril on vascular inflammation and endothelium function
Zhangqiang Chen................................................................................................................................. (104)

Comparison of ABPM evaluation and synergy on treatment of combining tianma gouteng decoction and l–amlodipine besylate versus l–amlodipine besylate in patients with essential hypertension of type of yang–hyperactivity due to yin–deficiency
Yong Liu, Lunfei Du.......................................................................................................................... (105)

Relationship between SOCS–3 gene polymorphism and abnormal glucose metabolism in the Xinjiang Uygur population
Keming Zhou, Nanfang Li, Juhong Zhang, Ling Zhou, Xiaoguang Yao, Na Lin, Jing Hong..................... (105)

Pulmonary Vascular Disease

Oral targeted therapies in the treatment of pulmonary arterial hypertension: a meta–analysis of clinical trials
Yaguo Zheng, Changming Xiong........................................................................................................ (106)

ProBNP in patients with pulmonary vein electrical isolation predicts the recurrence of late atrial fibrillation after ablation in paroxysmal and persistent atrial fibrillation

…………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………
Characteristics of pulmonary arterial flow derived from phase contrast magnetic resonance imaging in patients with pulmonary arterial hypertension
Wen Li, Tao Yang, Yan Zhang, Qing Gu, Zhihui Zhao, Xinhai Ni, Zhishong Liu, Shihua Zhao, Changming Xiong, Jianguo He

Myocarditis evaluated by three dimensional speckle tracking
Jingjin Wang, Hao Wang, Minghu Xiao, Jingping Sun, Jian Zhang

The diagnostic value of three–dimensional vectorcardiograph on pulmonary hypertension and right ventricular hypertrophy in patients with COPD
Dianzhu Pan, Renguang Liu, Shuzhen Ren

Combined HDL associated apoA1 and SAA in diagnosis of coronary heart disease
Hui Zhao, Hong Liu, Lin Chai, Lirong Yan, Yuexin Jiang, Bing Duan, Xiaoyuan Guan, Lu Hua, Lei Tian, Yiling Huang, Yishu Li

Genetic testing of FBN1 gene in marfan syndrome patients
Hang Yang, Mingyao Luo, Qinjin Xiang, Siyao Zhang, Kunlun Yin, Xiaogang Sun, Xiangyang Qian, Zhou Zhou, Qian Chang

Evaluation of patients with diastolic heart failure using NT–proBNP and tissue doppler imaging
Yi Yang, Hua Xiao

The comparison of the ankle brachial index and pulse wave velocity between the patients with aortic stenosis and patients with bilateral lower extremity artery stenosis
Meng Peng, Xiongqiang Jiang, Hui Dong, Yubao Zou, Lei Song, Huimin Zhang, Xianliang Zhou, Haiying Wu

Identification and characterization of a novel HMBS gene mutation in an acute intermittent porphyria family
Honglian Wang, Jing Yang, Kunlun Yin, Ricong Wang, Wei Wu, Zhou Zhou

Electrocardiographic difference between ventricular arrhythmias from the right ventricular outflow tract and idiopathic right ventricular arrhythmias
Lan Ren, Zheng Liu, Yuhe Jia, Pihua Fang, Jielin Pu, Shu Zhang

A compound heterozygous lipoprotein lipase mutation in a patient with severe hypertriglyceridemia
Kunlun Yin, Chenggang Zhu, Yuanyuan Fu, Siyao Zhang, Yuanlin Guo, Meng Zhang, Zhou Zhou, Jianjun Li

Population–based variations in thrombophilia genes
Siyao Zhang, Yuanyuan Fu, Wenke Li, Xiang Yang, Zhou Zhou

Assessment of the left atrial appendage using real–time three dimensional transesophageal echocardiography
Wenjuan Bai, Zhongxiu Chen, Hui Wang, Xin Wei, Li Rao

Cardiopulmonary exercise testing, NT–proBNP and ultrasound cardiogram assessment of cardiac function in patients with chronic heart failure
Zhinan Lu, Xingguo Sun, Shengshou Hu, Jie Huang

The herb protosappanin a diminished recipient t cell migration into allograft via inhibition of IP–10 in rat heart transplant
Maomao Zhang, Jian Wu, Meng Sun, Jingbo Hou, Bo Yu

Peripheral Vascular Disease

Association of dyslipoproteinemia with the disease activity of takayasu arteritis
Xu Wang
The safety and influencing factors of carotid artery stenting for surgically high-risk carotid stenosis
Hui Dong, Xiongjing Jiang, Yubao Zou, Meng Peng, Lei Song, Bin Li, Wuqiang Che, Yuejin Yang, Runlin Gao

The safety of synchronous or staged carotid artery stenting and open heart surgery
Hui Dong, Xiongjing Jiang, Yubao Zou, Meng Peng, Lei Song, Huimin Zhang, Haiying Wu, Yuejin Yang, Runlin Gao

Aneurysm caused by Takayasu's arteritis in the abdominal aorta: a case report
Lirui Yang, Huimin Zhang, Menggengtuya Cai, Xiongjing Jiang, Lei Song, Ying Xu, Yubao Zou, Yaxin Liu, Lianjun Xu, Xianliang Zhou, Haiying Wu, Rutai Hui

Traditional Chinese Medicine
The laws of compatibility of proprietary Chinese medicines on dyslipidemia
Guifang Zhao, Qingyong He

Panax quinquefolius saponin improves antithrombotic effect of dual anti-platelets in rats with acute myocardial infarction
Qinghua Shang, Baojun Wang, Qingxiang Zhang, Lei Zhang, Jiangang Liu, Dazhuo Shi

Chinese medicines for activating blood and removing blood stasis on the clinical outcome after percutaneous coronary intervention: a meta-analysis of randomized controlled trials
Ruixi Xi, Qiaoning Yang, Keji Chen, Ruina Bai, Dazhuo Shi, Lizhi Li

Wenxin granule versus anti-arrhythmic drugs for premature ventricular complexes
Ruina Bai, Bo Li, Ruixi Xi, Lizhi Li

Cardiovascular Nursing
Superiority of 5% NaHCO₃ for preoperative hair removal in patients undergoing coronary artery bypass graft surgery with a limb vein: a randomized controlled trial
Honglei Wu

The functions of tidal volume and other parameters in the simv/ac mode of AVEA ventilator
Honglei Wu

The effectiveness of multimedia nursing education on reducing anxiety in myocardial infarction patients after percutaneous coronary intervention
Xinlei Ma, Chengfei Wen

Digital monitoring of the dynamic pressure change in the pressure infusion bag using a CVP catheter
Honglei Wu

Nursing of patients received minimally invasive clinical pathway after cardiac interventional therapy
Hong Wang, Yamei Liu, Yaying Zhang

Research on the effects of motivational interviewing in smoking cessation for patients with coronary heart diseases
Yingying Zhou, Xiaoxing Feng, Liyan Yu, Yan Gu

Application of the transtheoretical model in rehabilitative exercise of coronary stent implantation patients
Yingying Zhou, Dan Zhang, Yongchun Chen, Jinan Li
QCC in reducing the incidence of low molecular weight heparin injection petechiae
Yue Liu, Chengfei Wen, Xue Jin

The effectiveness of rehabilitation guidance to patients undergoing pacemaker after leaving hospital
He Guan, Xinlei Ma, Yue Liu, The First Hospital of Jilin University

Analysis of the common psychological problems in the elderly
Zengjuan Guo, Xiaoyuan Huang, Bo Gao

Influence of carrying out clinical nursing pathway on the psychological status of elderly patients with cardiovascular disease
Ying Liu, Ling Qi, Juan Xie

Nursing of patients with mental disorder associated with cardiovascular disease
Lei Wang, Shuqing Wang, Li Feng

A retrospective analysis on cardiovascular disease incidence associations with individual risk factor
Shui Yu, Xiaosu Zhao, Ling Song, Wenshuai Wang

Influence of evidence–based nursing on prognosis of patients with cardiovascular disease
Yaying Zhang, Ying Liu, Zengjuan Guo

Analysis the cardiovascular states in peritoneal dialysis patients with end stage diabetic nephropathy
Guiying Wang, Runduo Pan, Juan Xie

The application of health education path in patients with acute myocardial infarction in PCI
Haiting Zhou, Xiaoxing Feng, Yue Liu, Liyan Yu, Jinan Li

Hospital Management

Data quality in the China cardiovascular surgery registry (CCSR): results from a national data validation audit
Kun Hua, Zhe Zheng, Wei Li
