Contents

Acknowledgements ................................................. VII
Introduction .......................................................... 1

Inter-Hemispheric Differences and Psychopathology

Perris, C. and Eisemann, M. (Umea): Further Studies of Averaged Evoked Potentials in Depressed Patients with Special Reference to Possible Interhemispheric Asymmetries .................................................. 44

Neurophysiological and Psychophysiological Correlates of the Experience of Pain

Buchsbaum, M.S.; Davis, G.C.; Goodwin, F.K.; Murphy, D.L., and Post, R.M. (Bethesda, Md.): Psychophysical Pain Judgments and Somatosensory Evoked Potentials in Patients with Affective Illness and in Normal Adults......................... 63

Davis, G.C.; Buchsbaum, M.S.; Naber, D., and Kammen, D.P. van (Bethesda, Md.):
Effect of Opiates and Opiate Antagonists on Somatosensory Evoked Potentials in Patients with Schizophrenia and Normal Adults. 73

Contents VI

Tosca, P.; Bezzi, G.; Cecchi, M., and Zerbi, F. (Pavia): KFA, Pain Experience and Personality in Patients with Affective Disorders: Preliminary Notes. 81

Johansson, F. (Umea): Visual Evoked Potentials in Chronic Pain Patients Treated with Peripheral Electrical Transcutaneous Nerve Stimulation. 86

Characteristics in EEG/EP in Relation to Psychiatric Diagnosis and Genetic Characteristics

Koukkou, M. (Zrich): EEG Correlates of Information Processing in Acute Schizophrenics. 102

Hoffmann, E. (Copenhagen): EEG Frequency Analysis of Anxious Patients and of Normals during Resting and during Deep Muscle Relaxation. 119

Volavka, J.; Mednick, S.A.; Rasmussen, L., and Teasdale, T. (Copenhagen/St. Louis, Mo./Los Angeles, Calif./Lund): EEG in XYY and XXY Men. 131

Effects of Psychotropic Drugs on EEG/EP

Saletu, B.; Griinberger, J.; Linzmayer, L., and Anderer, P. (Wien): Classification and Assessment of Pharmacodynamics of SGD-SCHA 1059 (Binodaline) by Quantitative EEG and Psychometric Analyses. 140

Matousek, M. and Axelsson, R. (Goteborg): EEG Frequency Pattern Related to Serum Concentration of Thioridazine and Its Metabolites. 167

Pollock, V.E.; Stern, J.A.; Cho, D., and Volavka, J. (St. Louis, Mo.): Sine Wave Modulated Light as a Tool in EEG Psychopharmacology. 188

The Symposium has been held under the auspices of the World Federation of the Societies of Biological Psychiatry (President: C. Perris). The Symposium has been jointly sponsored by the Swedish Medical Research Council (grant no 21S-5564-01) and de Medical Faculty of the Umea University. The publication of these proceedings has been sponsored by Lepetit SpA Milan.

Mrs. Doris Cedergren has cared for the secretarial work.
