Contents

Conference Data VII

Section I. Neuroeffector Function and Organization

Verity, M.A. (Los Angeles): Morphologic Studies of the Vascular Neuroeffector Apparatus 2

Nedergaard, O.A. (Odense) and Bevan, J. A. (Los Angeles): Neuronal and Extraneuronal Uptake of Adrenergic Transmitter in the Blood Vessel 22

Bell, Ch. (Cambridge) and Burnstock, G. (Melbourne): Cholinergic Vasomotor Neuroeffector Junctions 37

Gillis, C. N. (New Haven): Inactivation of Norepinephrine Released by Electrical Stimulation of Rabbit Aorta in a Gaseous Medium 47
Section II. Pharmacology of Adrenergic Neuroeffector System

Maxwell, R.A.; Eckhardt, S. B.; Chaplin, E., and Burcsu, J. (Tuckahoe): Inhibitors of the Uptake of Norepinephrine by the Adrenergic Nerves in Rabbit Aorta 98

Trendelenburg, U. (Wurzburg): The Importance of the Uptake Mechanism of Adrenergic Nerves for Non-vascular Smooth Muscle 119
Kalsner, S. (Ottawa): The Importance of the Uptake Mechanism of Adrenergic Nerves in Blood Vessels. (A discussion of the presentation of U. Trendelenburg) 126
Moe, R. A. (Nutley): Adrenergic Neurone Blocking Agents 130
Hauesler, G.; Haefely, W., and Huerlimann, A. (Basle): Effect of Surgical and Chemical Adrenergic Denervation on Vascular Responses 141
Stone, C. A. (West Point): False Adrenergic Neurotransmission 160
LaPidus, J.B. (Columbus): Molecular Theories of Adrenergic Receptor Activation 177

Section III. Biochemistry and Physiology of Vascular Smooth Muscle

Ebashi, S. (Tokyo): Comparative Aspect of Structural Proteins of Muscle with Particular Reference to Regulatory Proteins 190
Somlyo, A P. and Somlyo, A.V. (Philadelphia): Electrophysiological Correlates of the Inequality of Maximal Vascular Smooth Muscle Contractions Elicited by Drugs 216
Laszt, L. (Fribourg): On the Physiology of Vascular Muscle in Different Regions 263
Section IV. Pharmacology of Vascular Smooth Muscle

Khairallah, Ph. A. and Davila, D. (Cleveland): Angiotensin, Norepinephrine and the Vascular Neuroeffector System 291

Johansson, B. (Goteborg): Osmotic Properties of Vascular Smooth Muscle Cells 303

Brecht, K. and Gebert, G. (Tubingen): The Effect of Potassium on Vascular Smooth Muscle 313

Kalsner, S. (Ottawa): Modification of Responses to Sympathomimetic Amines in Aortic Strips by EEDQ 323

Subject Index 345

Conference Data

This volume contains the Proceedings of a Symposium on the Physiology and Pharmacology of Vascular Neuroeffector Systems which was held at Interlaken, Switzerland, on the 20th and 21st July 1969. The Symposium was held in conjunction with the Fourth International Congress on Pharmacology in Basle, Switzerland.

Organizing Committee

J. Bevan, Los Angeles, Calif.
R. F. Furchgott, Brooklyn, N. Y.
G. Hausler, Basle
R. A. Maxwell, Tuckahoe, N. Y.
M. A. Verity, Los Angeles, Calif.

Acknowledgements

Sincere gratitude is extended to the following organizations who have generously supported the Symposium. The meeting would not have been possible without this support.

Burroughs Wellcome & Co. (USA) Inc., Tuckahoe, N. Y.
Hoffmann-La Roche Inc., Nutley, N. J.
Chas. Pfizer & Co. Inc., Groton, Conn.
Merck Institute for Therapeutic Research, West Point, Pa.
Squibb Institute for Medical Research, New Brunswick. N.J.
CIBA AG, Basle, Switzerland
Geigy Chemical Corp., Ardsley, N. Y.
Riker Laboratories, Northridge, Calif.
Sandoz Pharmaceutical Division, Hanover, N. J.
Schering Corp., Bloomfield, N.J.
Union Carbide Corp., Tuxedo, N. Y.
