Vol. 2
Pathological Conduction in Nerve Fibres, Electromyography of Sphincter Muscles, Automatic Analysis of Electromyogram with Computers

New Developments in Electromyography and Clinical Neurophysiology
Vol. 2

S. Karger Basel München Paris London New York Sydney

Pathological Conduction in Nerve Fibres
Electromyography of Sphincter Muscles
Automatic Analysis of Electromyogram with Computers

Editor: JOHN E. DESMEDT, M. D.

Professor of Neurophysiology and of Pathophysiology of the Nervous System, University of Brussels

224 figures, 29 tables

New Developments in Electromyography and Clinical Neurophysiology

Complete set in a box (Vol. 1-3):
XXVII + 2094 p., 869 fig., 82 tab., 4 cpl., 1973
ISBN 3-8055-1409-3

VII + 710 p., 286 fig., 38 tab., 4 cpl., 1973
ISBN 3-8055-1451-4

Contents

Nerve Conduction

Introduction
Gilliatt, R. W.: Recent Advances in the Pathophysiology of Nerve Conduction 2

Physiological Background
Paintal, A. S.: Conduction in Mammalian Nerve Fibres 19
Frankenhaeuser, B.: The Nerve Impulse: Some Comments 42
Nerve Conduction in Normal Man
Rosenfalck, Annelise and Buchthal, F.: Sensory Potentials Threshold for
Electrical and Tactile Stimuli 45
Desmedt, I.E.; Noël, P.; Debecker, I., and Namèche, I.: Maturation of
Afferent Conduction Velocity as Studied by Sensory Nerve Potentials
and by Cerebral Evoked Potentials 52
Stevens, A. and Rosselle, N.: The Sensory Conduction Velocity in the Cutaneus
Femoris Lateralis Nerve 64
Vallbo, A. B. and Hagbarth, K.-E Micro-Electrode Recordings from Human
Peripheral Nerves 67
Gybels, J. and Van Hees, J.: Unit Activity from Human Skin Mechanoreceptors.
An Example of Microneurographic Studies in the Human 85
Bergmans, J.: Physiological Observations on Single Human Nerve Fibres 89

Experimental Neuropathies
McDonald, W. I.: Experimental Neuropathy. The Use of Diphtheria Toxin 128
Rasminsky, M. and Sears, T. A.: Saltatory Conduction in Demyelinated Nerve Fibres 158

Contents VI

Ochoa, J.; Fowler, T. J., and Gilliatt, R. W.: Changes Produced by a Pneumatic Tourniquet 174
Hern, J. E. C.: Tri-Ortho Cresyl Phosphate Neuropathy in the Baboon 181
Hopkins, A. P. and Lambert, E. H.: Changes in Conduction Occurring After Crush Injury of Unmyelinated Fibres 188

Human Neuropathies: Ultrastructural Changes
Dyck, P. J.: Ultrastructural Alterations in Myelinated Fibers 192
Thomas, P. K.: The Ultrastructural Pathology of Unmyelinated Nerve Fibres 227
Isch, F.; Stoebner, P.; Jesel, M.; Isch-Treussard, C., and Sengel, A
Conduction Velocity and Ultrastructure of Nerves. A Study of 30 Cases 240

Disorders of Conduction in Motor and Sensory Nerve Fibres
Buchthal, F.: Sensory and Motor Conduction in Polyneuropathies 259
Casey, E. B. and Le Quesne, Pamela M.: Alcoholic Neuropathy 279
Behse, F.; Buchthal, F.; Carlsen, F., and Knappeis, G. G.: Conduction and Histopathology of the Sural Nerve in Hereditary Neuropathy with Liability to Pressure Palsies 286
Hausmanowa-Petrusewicz, I. and Kopec, J.: Motor Nerve Conduction Velocity in Anterior Horn Lesions 298
Gamstorp, Ingrid: Involvement of Peripheral Nerves in Disorders Causing Progressive Cerebral Symptoms and Signs in Infancy and Childhood 306
Noël, P.: Diabetic Neuropathy 318
Gambi, D. and Tonali, P.: Contralateral Facial Nerve Reinnervation 338
Ertekin, C.: Human Evoked Electrospinogram 344
Desmedt, J. E. and Noël, P.: Average Cerebral Evoked Potentials in the Evaluation of Lesions of the Sensory Nerves and of the Central Somatosensory Pathway 352

Peripheral Nerve Conduction in Patients with Renal Failure
Cadilhac, J.; Dapres, G.; Fabre, J. L., and Mion, C.: Follow-Up Study of Motor Conduction Velocity in Uraemic Patients Treated by Hemodialysis 372
Van der Most van Spuk, D.; Hoogland, R. A., and Dijkstra, S.: Conduction Velocities Compared and Related to Degrees of Renal Insufficiency 381
Williams, I. R.; Davison, A. M.; Mawdsley, C., and Robson, J. S.: Neuropathy in Chronic Renal Failure 390

Contents VII
Guihéneuc, P. and Ginet, J.: The Use of the H-Reflex in Patients with Chronic Renal Failure 400

EMG Diagnosis of Sphincter Muscles and Sacral Roots Lesions
Chantraine, A.: EMG Examination of the Anal and Urethral Sphincters 421
Chantraine, A.; Leval, J. de, and Onkelinx, A.: Motor Conduction Velocity in the Internal Pudendal Nerves 433
Petersén, I.: EMG Study of Behaviour of Sphincter and Related Muscles during Orgasm and Ejaculation 439

Automatic Electromyogram Analysis with Computers
Hayward, M. and Willison, R. G.: The Recognition of Myogenic and Neurogenic Lesions by Quantitative EMG 448
Lee, R. G. and White, D. G.: Computer Analysis of Motor Unit Action Potentials in Routine Clinical Electromyography 454
Prochazka, V. J.; Conrad, B., and Sindermann, F.: Computerized SingleUnit Interval Analysis and Its Clinical Application 462
Kunze, K.: Quantitative EMG Analysis in Myogenic and Neurogenic Muscle Diseases 469
Bergmans, J.: Computer-Assisted Measurement of the Parameters of Single Motor Unit Potentials in Human Electromyography 482
Grieve, D. W. and Cavanagh, P. R.: The Quantitative Analysis of Phasic Electromyograms 489
