Contents

Foreword . . .1

Clinical Studies in Psychoneuroendocrinology

Endo, M.; Endo, J. (Kyoto); Nishikubo, M.; Yamaguchi, T., and Hatotani, N. (Tsu): Endocrine Studies in Depression . . .22
Takahashi, S.; Kondo, H.; Yoshimura, M., and Ochi, Y. (Tokyo): Growth Hormone Responses to Administration of L-5-Hydroxytryptophan (L-5-HTP) in Manic-Depressive Psychoses . .32
Secretion in the Female . . .39
Aspects in Gynecology and Obstetrics . . .48

Stress and Biological Rhythm

Takahashi, R.; Nakahara, T., and Sakurai, Y. (Nagasaki): Emotional Stress and Biochemical
Responses of Manic-Depressive Patients . . .58
and Cortisol Secretion during Nocturnal Sleep in Narcoleptics and in Dogs . . .67
(Tsu): Stress and Cerebro-Hepatic Axis with Special Reference to Steroids Metabolism
. . .77

Contents VI

Fukuda, T.; Hirota, Y.; Shimizu, T.; Ohiwa, T., and Iida, N. (Kyoto): Stress and
Biological Rhythm: Their Impact on Pathophysiologic Research Strategy into
Schizophrenic Illnesses . . .83
of the Regulation of CRF Content in the Rat Hypothalamus under Resting and
Stressful Conditions . . .102

Regulation of Hypothalamo-Pituitary Function

. . .114
Kobayashi, F. (Osaka): Steroidal Regulation of Hypothalamo-Pituitary Function in
Relation to Ovulating Hormone Release in Rats . . .122
Kawashima, S. (Tokyo); Asai, T., and Wakabayashi, K. (Maebashi): Prolactin Secretion
in Normal and Neonatally Estrogenized Persistent-Diestrous Rats at Advanced
Ages . . .128
Arai, Y. and Serisawa, K. (Tokyo): Possible Role of Pituitary Gonadotropin in the
Regulation of Neonatal Testicular Activity and Sexual Differentiation of the
Brain in the Rat . . .136
Terasawa, E. and Kawakami, M. (Yokohama): Sexual Differentiation of the Hippocampus:
Effects of Immobilization Stress on Gonadotropin Secretion in the Rat . . .144
Kawakami, M. and Sakuma, Y. (Yokohama): Modulation of Responsiveness of the
Hypothalamic Unit Activity to LH-RH, LH and FSH by Ovarian Hormones . . 153
Wakabayashi, K. (Maebashi) and Tamak , B. (Chiba): On the Action of Gonadotropin-Releasing
Factor . . .161
Igarashi, M.; Taya, K., and Ishikawa, J. (Maebashi): Existence of FSH-RF Distinct from LH-RH . . .178
Takebe, K.; Sakakura, M. (Sapporo), and Brodish, A. (Cincinnati, Ohio): Studies on Long Feedback via Glucocorticoid and Short Feedback via ACTH . . .198
Timiras, P.S. and Luckock, A.S. (Berkeley, Calif.): Hormonal Factors Regulating Brain Development . . .206
Yamada, T. and Onaya, T. (Matsumoto): Studies on the Mechanism of Action of Cold in Producing an Increase of Thyroid Hormone Secretion . . .214
Sakoda, M. and Kusaka, T. (Kobe): Role of Biogenic Amines and Peptides on Pituitary TSH Secretion with Special Reference to Action of Thyrotropin-Releasing Hormone (TRH) . . .221
Imura, H. and Kato, Y. (Kobe): Role of Monoamines in the Control of Growth Hormone and Prolactin Secretion in Man and Rats . . .243
Vernadakis, A. (Denver, Colo.): Neurotransmission. A Proposed Mechanism of Steroid Hormones in the Regulation of Brain Function . . .251
Guidotti, A.; Zivkovic, B., and Costa, E. (Washington, D.C.): Possible Involvement of Cyclic Nucleotides in the Stimulation of Pituitary Function Elicited by Reserpine . . .259

Contents VII
Kaneko, T.; Oka, H.; Munemura, M.; Saito, S., and Yanaihara, N. (Tokyo): Role of Cyclic AMP (cAMP) in the Mechanism of Action of Hypothalamic Hypophysiotropic Hormones . . .267
Marks, N. and Stern, F. (New York, ..): Novel Enzymes Involved in the Inactivation of Hypothalamo-Hypophyseal Hormones . . .276
Walter, R. (New York, N.Y.): Oxytocin and Other Peptide Hormones as Prohormones . . .285
