Renaissance - 'rebirth'. A revival of interest in interstitial brachytherapy prompted us to assemble some of the world's acknowledged authorities to conduct our 12th Annual San Francisco Cancer Symposium. Important advances in technology and techniques were discussed in detail in San Francisco on March 4 and 5, 1977.

Jerome M. Vaeth, MD
President
West Coast Cancer Foundation

Acknowledgement

Major support for the symposium was provided by the San Francisco Unit and the California Division of the American Cancer Society. Additional assistance was supplied by Alpha Omega Services, Inc., Lawrence Soft Ray Corp., Mick Radio-Nuclear Instruments, Inc., Nuclear Associates, Radium Chemical Co., Siemens Corp., and Varian Associates.
