Contributions to Gynecology and Obstetrics

National Library of Medicine, Cataloging in Publication
Kunz, J. (Jürg)
Urological complications in gynecological surgery and radiotherapy/
(Contributions to gynecology and obstetrics; v.11)
Includes bibliographical references and index.
1. Genital Diseases, Female - surgery 2. Genital Diseases, Female - radiotherapy 3. Genital Diseases, Female etiology
I. Title II. Series
W1 CO 778 RG v. 11 [WP 660 K96u]
ISBN 3-8055-3759-X

Drug Dosage
The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.

Contents

Introduction I

Anatomical Foundations 3

Topography of the Pelvic Extraperitoneal Connective Tissue in Women 3
Topography and Vascularization of the Efferent Urinary Pathways in Women 5
Topography and Vascularization of the Efferent Urinary Passages in the Dog 10
Personal Experimental and Clinical Investigations on Vascularization of the Efferent Urinary Pathways 12

Physiological Foundations 19

Function and Functional Anomalies of the Ureter 19
Function and Functional Anomalies of the Bladder 21

Changes in the Efferent Urinary Pathways under Physiological and Pathological Conditions 26
Changes in the Efferent Urinary Pathways during Pregnancy 26
Changes in the Efferent Urinary Pathways in Uterus Myomatosus 31
Changes in the Efferent Urinary Pathways in Prolapsed States of the Genitals 31
Changes in the Efferent Urinary Pathways in Urogenital Anomalies 34
Changes in the Efferent Urinary Pathways in the Ovarian Vein Syndrome 39
Changes in the Efferent Urinary Pathways in Endometriosis 40
Changes in the Urinary Bladder in Placenta percreta 42
Changes in the Efferent Urinary Pathways under the Influence of Hormonal Contraceptives 42

Contents VI

Surgical Lesions in the Efferent Urinary Pathways 43
Ureteral Lesions 43
Lesions of the Urinary Bladder 62
Urethral Lesions 72

Radiogenic Lesions of the Efferent Urinary Pathways 75
Radiogenic Lesions of the Ureters 75
Radiogenic Lesions of the Bladder 79
Pre-Disposing Factors for Radiogenic Lesions of the Bladder 81

Lesions Affecting the Efferent Urinary Pathways during Gynaecologico-Obstetrically Indicated Operations 84
Lesions Affecting the Efferent Urinary Pathways during Abdominal Hysterectomy 84
Lesions Affecting the Efferent Urinary Pathways during Vaginal Hysterectomy 91
Lesions Affecting the Efferent Urinary Pathways during Incontinence Operations 106
Lesions Affecting the Efferent Urinary Pathways during Extended Abdominal Hysterectomy 110
Lesions Affecting the Efferent Urinary Pathways during Extended Vaginal Hysterectomy 133
Lesions Affecting the Efferent Urinary Pathways during Caesarean Section 134
Lesions Affecting the Efferent Urinary Pathways during Caesarean Hysterectomy 137
Lesions Affecting the Efferent Urinary Pathways during Diagnostic Laparoscopy and Laparoscopic Sterilization 139
Lesions Affecting the Efferent Urinary Pathways during Culdoscopy 141
Lesions Affecting the Efferent Urinary Pathways Caused by Intra-uterine Pessaries 141
Lesions Affecting the Efferent Urinary Pathways during Conization 142
Lesions Affecting the Efferent Urinary Pathways in Interruptio graviditatis 143
Lesions Affecting the Efferent Urinary Pathways during Cerclage 145
Lesions Affecting the Efferent Urinary Pathways after Forceps Delivery and Vacuum Extraction 145

Lesions Affecting the Efferent Urinary Pathways during Spontaneous Births 148
Lesions to the Bladder during Spontaneous Births 148
Ureteral Lesions during Spontaneous Births 150
Nephrological Complications of Obstetric Genesis 150
Lesions Affecting the Efferent Urinary Pathways in Rupture of the Uterus 151

Contents VII

Lesions Affecting the Efferent Urinary Pathways during Gynaecologically Indicated Radiotherapy 152
Lesions of the Efferent Urinary Pathways during Radiotherapy of Carcinoma colli uteri 152
Lesions of the Efferent Urinary Pathways during Radiation Therapy of Carcinoma corporis uteri 159
