## REVIEW ARTICLE

234  Progress in surgical and nonsurgical approaches for hepatocellular carcinoma treatment  
Yegen EG, Oymaci E, Karatay E and Coker A  
Izmir, Turkey

## ORIGINAL ARTICLES

### Transplantation

257  Mesenchymal stem cells improve the outcomes of liver recipients via regulating CD4+ T helper cytokines in rats  
Yang Y, Shen ZY, Wu B, Yin ML, Zhang BY and Song HL  
Tianjin, China

### Liver

266  Preoperative inflammation-based markers predict early and late recurrence of hepatocellular carcinoma after curative hepatectomy  
Liu Y, Wang ZX, Cao Y, Zhang G, Chen WB and Jiang CP  
Nanjing, China

275  Plasma exchange-centered artificial liver support system in hepatitis B virus-related acute-on-chronic liver failure: a nationwide prospective multicenter study in China  
Chen JJ, Huang JR, Yang Q, Xu XW, Liu XL, Hao SR, Wang HF, Han T,  
Hangzhou, China

282  Mannose-binding lectin 2 rs11003123 polymorphism is associated with the development of hepatocellular carcinoma in patients with hepatitis B-related cirrhosis in the Chinese population  
Wang PS, Kuai J, Li H, Wang CG, Shi BJ and Zhong L  
Shanghai, China
CADM1 regulates the G1/S transition and represses tumorigenicity through the Rb-E2F pathway in hepatocellular carcinoma
Hangzhou, China

Biliary

Single-stage laparoscopic management of acute gallstone pancreatitis: outcomes at different timings
Navarro-Sánchez A, Ashrafian H, Laliotis A, Qurashi K and Martinez-Isla A
London, UK

Pancreas

Intraoperative acidosis is a new predictor for postoperative pancreatic fistula after pancreaticoduodenectomy
Kinaci E, Sevinc MM, Ozakay A, Bayrak S, Cakar E and Sari S
Istanbul, Turkey

The revised Atlanta criteria 2012 altered the classification, severity assessment and management of acute pancreatitis
Huang J, Qu HP, Zheng YF, Song XW, Li L, Xu ZW, Mao EQ and Chen EZ
Shanghai, China

BRIEF REPORT

Anti-virus prophylaxis withdrawal may be feasible in liver transplant recipients whose serum HBeAg and HBV DNA are negative
Geng L, Lin BY, Shen T, Guo H, Ye YF and Zheng SS
Hangzhou, China

NEW TECHNIQUES

Technical note on ALPPS for a patient with advanced hepatocellular carcinoma associated with invasion of the inferior vena cava
Cheung TT, Wong TCL and Chan SC
Hong Kong, China

Safer intestinal invagination for a solid pancreatico-jejunal anastomosis in presence of a soft texture pancreatic remnant and non-dilated duct
Giudici F, Pesi B, Zambonin D, Scaringi S, Bechi P and Batignani G
Florence, Italy
CASE REPORT

329  Liver resection for the treatment of a congenital intrahepatic portosystemic venous shunt
Papamichail M, Ali A, Quaglia A, Karani J and Heaton N
London, UK
