Subject Index

AAS, see Anabolic androgenic steroids

ABP, see Athlete biological passport

ADAMS, see Anti-Doping and Management System

Alcohol, list of prohibited substances  52

ALPHA, see Athlete Learning Program about Health and Anti-Doping

Anabolic androgenic steroids (AAS)
  laboratory analysis  71, 72, 79–81
  list of prohibited substances  43, 44
  out-of-competition testing  4
  prohibited list inclusion  3, 4

Anti-Doping and Management System (ADAMS)  150

Armstrong, Lance  130, 197

Athlete biological passport (ABP)
  gene doping detection  100
  hematological module
    critical challenges  112, 113
    expert evaluation  112
    markers and analytics  111, 112
  overview  107–111
  personalized medicine  116, 117
  prospects
    endocrine module  115
    omics  115, 116
    steroidal module  113–115

Athlete education

Athlete Learning Program about Health and Anti-Doping  172–174

challenges in anti-doping  157, 158

ideas of education  154

overview  153, 154

prospects  158

reason-based behavioral change in value-based anti-doping intervention  168–171

sport interpretations
  human enhancement  155, 156
  human excellence  156, 157
  instrumentalism  154, 155

Athlete Learning Program about Health and Anti-Doping (ALPHA)  172–174

Autologous blood transfusion, see Blood doping

BALCO, see Bay Area Laboratory Co-Operative

Bay Area Laboratory Co-Operative (BALCO)  6, 102, 197, 198

Beta-2 agonists
  accidental consumption  75

  list of prohibited substances  45, 46

Beta-blockers, list of prohibited substances  52, 53

Black market, pharmaceuticals  198, 199

Blood doping
  laboratory analysis  72, 73, 81, 83, 121–125

  omics detection
    prospects  125–127

    rationale  119, 120

    research findings  120–125

    prohibition  48, 49

Blood sampling, historical perspective  5, 6

Cannabinoids, list of prohibited substances  51

CAS, see Court of Arbitration for Sport

Clenbuterol, accidental consumption  75

Court of Arbitration for Sport (CAS)

  centralization of jurisdiction  26–28

  control standard  28–30

  establishment  14
national law
  curtailling 25, 26
  remaining influence 30
  overview 15, 23
  sport environment effects 36, 37
CRISPR/Cas9, gene doping 98, 99, 103

Designer drugs
  historical perspective 6, 7
  laboratory analysis 74, 75, 86
Diuretics, list of prohibited substances 47, 48
Doping
  constructs 161, 162
  control and deterrence 164
  definitions 163
  motivations 165, 167
  performance enhancement mindset for prevention 166, 167
  pragmatic view 165, 166
  reason-based behavioral change in value-based anti-doping intervention 168–171

Education, see Athlete education
Ephedrine, history of use 2, 3
EPO, see Erythropoietin
Erythropoietin (EPO)
  gene doping 93, 95, 100
  laboratory testing 83–85, 121–125
  list of prohibited substances 44, 45
Ethics, anti-doping
  anti-doping rule violations 179, 180
  fairness and search for advantage 188–190
  gratuitous logic of sport 178, 181–183
  health and safety considerations 187, 188, 196, 197
  meanings and values in sport 190–192
  preservation of admirable qualities of sports 180, 181, 183, 184
  values and integrity in anti-doping 195, 196
Follistatin, gene doping 92, 95
Forensic intelligence
  anti-doping application 133–137
  operational intelligence 132
  overview 131
  strategic intelligence 132, 133
  structured memory 133
  tactical intelligence 131, 132
Gene doping
  historical perspective of M3 gene doping 92–94
  laboratory analysis
    direct versus indirect detection 100
    overview 99, 100
  small interfering RNA and transgene detection 101, 102
  transgenic proteins 100, 101
  overview 91, 92
  prohibition 48, 49
  prospects 102–104
  techniques
    classical gene therapy 94–96
    RNA interference 97–99
    stem cell therapy 96, 97
Gene SMART study 125
GH, see Growth hormone
Glucocorticoids, list of prohibited substances 51
Growth hormone (GH)
  laboratory analysis 73, 74, 83, 84, 115
  list of prohibited substances 44, 45
IGF-I, see Insulin-like growth factor-I
Insulin-like growth factor-I (IGF-I)
  gene doping 92, 95
  laboratory analysis 115
  list of prohibited substances 44, 45
Intelligence gathering
  Anti-Doping and Management System 150
  financial information 145
  INTERPOL-WADA collaboration 145–148
  law enforcement 150, 151
  overview 139–143
  personal information 144, 145
  substance information 145
  World Anti-Doping Code incorporation 148–150
International Olympic Committee Medical Commission (IOC-MC) 2, 6
INTERPOL, WADA collaboration 145–148, 198
IOC-MC, see International Olympic Committee Medical Commission
Jensen, K.E., death during Olympics 1, 2, 155
Jones, Marion 198
Laboratory analysis
  accidental consumption 75
  accreditation of laboratories 69–71
  anabolic androgenic steroids 71, 72, 79–81
  blood doping 72, 73, 81, 83
  challenges
    alternative matrices 86, 87
    designer drugs 74, 75, 86
    overview 85, 86, 197
    population reference range and metabolism studies 86
    reference materials 86
gene doping
  direct versus indirect detection  100
  overview  99, 100
small interfering RNA and transgene detection
  101, 102
transgenic proteins  100, 101
growth hormone  73, 74, 83, 84
  historical perspective  68, 69
  prospects  75, 87
  research needs  77, 78
  scope of assays  71
standardization  3, 4

List of prohibited substances and methods
  classification of substances and methods  40, 41
  historical perspective  3
  inclusion criteria  41, 42
  legal context  39, 40
  method prohibition  48, 49
  Monitoring Program  42, 43
  nomenclature  43
  publication and revision  40
sections
  anabolic agents  43, 44
  beta-2 agonists  45, 46
  cannabinoids  51
diuretics and masking agents  47, 48
  glucocorticoids  51
  hormone and metabolic modulators  46, 47
  narcotics  50
  non-approved substances  43
peptide hormones and growth factors  44, 45
stimulants  49, 50

sport-specific prohibitions
  alcohol  52
  beta-blockers  52, 53
  therapeutic use exemption  42

Ma Huang  2
Meldonium
  list of prohibited substances  47
  Monitoring Program  43
MicroRNA, laboratory analysis  85
Monitoring Program, list of prohibited substances and methods  42, 43
Morality,  see Ethics, anti-doping
Narcotics, list of prohibited substances  50

Omics
  athlete biological passport  115, 116
  blood doping detection
  prospects  125–127
  rationale  119, 120
  research findings  120–125

OOCT,  see Out-of-competition testing
Out-of-competition testing (OOCT), historical perspective  4, 5
Performance enhancement mindset, doping prevention  166, 167
PPAR agonists, list of prohibited substances  47
Pseudoephedrine, Monitoring Program  42, 43
RNA interference, gene doping  93, 94, 97–99
Stimulants, list of prohibited substances  49, 50

Testosterone,  see Anabolic androgenic steroids
Therapeutic use exemption (TUE)
  applications
    management  65, 66
    retroactive applications  60
    review  59, 60
    submission  58, 59
  beta-2 agonists  46
  challenges  61, 62
  committees
    appeals  60, 61
    overview  57, 58
  Expert Group  61
  historical perspective  5, 56, 57, 61
  international standard  57
  list of prohibited substances  42
  scope of processes  62–65
Trickle-down effect, doping  199, 200
TUE,  see Therapeutic use exemption

WADA,  see World Anti-Doping Agency
WADC,  see World Anti-Doping Code
World Anti-Doping Agency (WADA)
  athlete protection  200
  code,  see World Anti-Doping Code
  historical perspective  7–9, 194, 195
  INTERPOL collaboration  145–148, 198
  prohibited list,  see List of prohibited substances and methods
  research funding  9

World Anti-Doping Code (WADC)
  arbitration,  see Court of Arbitration for Sport
democratic legitimating  24, 25
  historical perspective
    2003 code
      drafting process  12, 13
      substance  13–15
    2009 amendments
      drafting process  15
      substance  15–17
