Publications Received for Review

Phonetica 2017;74:259
DOI: 10.1159/000484957

Each fascicle of *Phonetica* provides a list of the publications that have been received for review. Readers who would like to write critical commentaries on any of these books for *Phonetica* are requested to contact:

Prof. O. Niebuhr, Syddank Universitet, DK-6400 Sonderborg, Denmark, olni@sdu.dk,

who will arrange for the copies to be sent to them. At the same time, he will inform them about the expected length of the review as well as other technical details, and suggest a date for submitting the manuscripts. The time allotted for preparing reviews will on principle be kept as short as possible in order to enable *Phonetica* to fulfill its obligation of keeping its readers up to date with publications in the field of speech science. Readers are also welcome to suggest any other book in our field for review in *Phonetica*, over and above the ones named in the list of received publications. Professor Niebuhr will then take the necessary steps to obtain copies from the publishing firms.

Hosono Mayumi: **Object Shift in the Scandinavian Languages: Syntax, Information Structure, and Intonation.** LOT Publications, Utrecht, 2013; 208 pp.; ISBN-13 9789460931147.
