Editorial

Welcome to *Case Reports in Orthopaedic Research*

The journal *Case Reports in Orthopaedic Research* is a multimedia portal for authoritative original research, systematic reviews, consensus statements, and timely debate in orthopedics and related fields. The journal will provide the most valued information for orthopedics and related field's surgeons and researchers worldwide, carry out academic exchanges and education, promote research results to clinical practice, and enhance the quality of care for patients.

This peer-reviewed online-only journal publishes original case reports covering the entire spectrum of orthopedics and related fields, including prevention, diagnosis, treatment, rehabilitation, quality-of-life, and pediatrics issues. At present, with a multidisciplinary approach on orthopedics and sports medicine, ophthalmology, plastic surgery, otolaryngology, radiology, basic medicine, engineering, materials science, etc. A platform to display the clinical issue and related scientific research will be needed, which provide the technical and methodological exchange and promote the innovation and rapid development of orthopedics and related disciplines. The new journal aims to build this platform and help relevant teams to solve clinical problems together.

In 2018, we launch *Case Reports in Orthopaedic Research*. Standards of excellence and high quality will be maintained in everything we do, from the science of the content we publish to the customer service we provide. You are welcome to contribute to *Case Reports in Orthopaedic Research*.

May the journal be more and more prosperous!
