Aims and Scope

The Portuguese Journal of Public Health publishes scientific content in the field of public health in general as well as related disciplines, with the aim to promote the discussion and development of knowledge at a national and international level. One special topic issue per year concentrates on a topic of general health interest such as primary care, health economics, new models in health management, or occupational health. The journal publishes original articles, reviews, editorials and opinion articles.

ISSN Print Edition: 2504–3137
ISSN Online Edition: 2504–3145

The GE Portuguese Journal of Gastroenterology, founded in 1994, is the official publication of Sociedade Portuguesa de Gastrenterologia (Portuguese Society of Gastroenterology), Sociedade Portuguesa de Endoscopia Digestiva (Portuguese Society of Digestive Endoscopy) and Associação Portuguesa para o Estudo do Fígado (Portuguese Association for the Study of the Liver).

The journal publishes clinical and basic research articles on Gastroenterology, Digestive Endoscopy, Hepatology and related topics. Review articles, clinical case studies, images, letters to the editor and other articles such as recommendations or papers on gastroenterology clinical practice are also considered. Only articles written in English are accepted.
