In the article by Theodorakopoulou et al. entitled “The Effects of Nebivolol and Irbesartan on Ambulatory Aortic Blood Pressure and Arterial Stiffness in Hemodialysis Patients with Intradialytic Hypertension” [Blood Purif., DOI: 10.1159/000507913] point b on page 3 should read as follows:

“AIX and heart rate-adjusted AIX [AIX(75)], which are defined as the ratio of AP to aortic PP and are indicative of the augmentation component of aortic SBP due to the premature arrival of the reflected wave.”
