In the article “Evolution of the Hypothalamus and Inferior Lobe in Ray-Finned Fishes” [Brain Behav Evol. 2020;95:302–316, DOI: 10.1159/000505898] by Schmidt, the following sentences should be included in the Acknowledgements:

“I would like to thank Prof. Dr. Michael H. Hofmann for constructing a mechatronically based device to cut fish brains and simultaneously make and save photomicrographs automatically; for writing programs to evaluate these data; and for providing the workplace for this research. The volume data and image sections were generated in the laboratory of Prof. Hofmann. He had no role in the analysis or presentation of the data in this article.

I am grateful to the anonymous reviewers for their help in improving the manuscript.”
