From Neutralization of Leukocyte Adhesion to Leg Ulcer Healing

Session held during the 20th European Conference on Microcirculation, Paris, France, August 30 – September 2, 1998

Guest Editor
D.L. Clement, Ghent

12 figures and 5 tables, 1999
Drug Dosage
The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.

Published with the help of an educational grant from the Servier Research Group.
Contents

1 Introduction
   Clement, D.L. (Ghent)

3 Inflammation in Chronic Venous Insufficiency: Is the Problem Insurmountable?
   Takase, S.; Delano, F.A. (San Diego, Calif.); Lerond, L. (Courbevoie); Bergan, J.J.;
   Schmid-Schönbein, G.W. (San Diego, Calif.)

11 Leukocyte Adhesion after Oxidant Challenge in the Hamster Cheek Pouch
   Microcirculation
   Bouskela, E.; Cyrino, F.Z.G.A. (Rio de Janeiro); Lerond, L. (Courbevoie)

15 Adhesion Molecule Expression in Postischemic Microvascular Dysfunction:
   Activity of a Micronized Purified Flavonoid Fraction
   Korthuis, R.J.; Gute, D.C. (Shreveport, La.)

24 Neutrophil Activation and Mediators of Inflammation in Chronic Venous Insufficiency
   Coleridge Smith, P.D. (London)

37 Clinical Efficacy of Micronized Purified Flavonoid Fraction: An Overview
   Struckmann, J.R. (Copenhagen)

42 Venous Ulcer Reappraisal: Insights from an International Task Force
   Clement, D.L. (Ghent) on behalf of the members of the VEINES International Task Force
