International Short Course on Dermoscopy
Graz, July 16–20, 2002
Department of Dermatology, University of Graz, Austria

This course is designed for all colleagues interested in learning dermoscopy for diagnosing and managing equivocal pigmented skin lesions more effectively. Special emphasis will be given to correlating meticulously the clinical and dermoscopic images of pigmented skin lesions with their underlying histopathologic findings.

Academic Directors
H. Peter Soyer, MD
Professor of Dermatology, Department of Dermatology
University of Graz, Austria

Giuseppe Argenziano, MD
Assistant Professor of Dermatology
Department of Dermatology, Second University of Naples, Italy

The detailed programme will be presented on the course website: http://dermoscopy.uni-graz.at

Fondation René-Touraine pour la recherche en dermatologie
(Recognized by the French Government by decree of the prime Minister on August 23, 1991)

European Fellowships 2002

Two types of fellowships will be attributed in 2002: four €4,500 fellowships for short exchange periods and one €18,000 fellowship for a long exchange period.

These grants for exchanges between research laboratories or clinical departments will be given to pre- or postdoctoral research fellows or to academic dermatologists, to support a research project in a laboratory or clinical department in a different country.

The project must promote international and fruitful collaborations and involve at least one European laboratory.

Deadline for receipt of applications: October 1, 2002
Application forms, for either type of grant, may be requested from the office of the Foundation at the following E-Mail address:
fond.touraine@chu-stlouis.fr

or the following address:
Fondation René-Touraine
Hôpital Saint-Louis – Pavillon Bazin
1, avenue Claude-Vellefaux
F–75010 Paris (France)
Tel. +33 1 53 72 20 60, Fax +33 1 53 72 20 61

European Confederation of Telemedical Organizations in Dermatology:
3rd European Symposium on Teledermatology
Graz, November 8–9, 2002

Teledermatology holds great potential for revolutionizing the delivery of dermatologic services, with benefits to physicians and patients alike.

The 3rd European Symposium on Teledermatology will bring together all colleagues interested in teledermatology to discuss recent technologies, clinical studies, patients' and investigators' viewpoints, cost-effectiveness, security and legal aspects as well as teleteaching.

Updated information concerning the Symposium will be presented on the conference website (http://telederm.uni-graz.at).

For further information, please contact:
Rainer Hofmann-Wellenhof, MD
Symposium Secretary, Department of Dermatology
