Subject Index

Acceptable daily intake
definition 178
pharmacokinetic testing 121–123
risk management 178, 179
setting XI, 180, 223, 224, 227, 228
toxicity testing 119, 121

Acesulfame K
blend with aspartame
cola drink storage effects on flavor 59–61, 63
Twinsweet, see Twinsweet
discovery and uses 6, 33
generic compound 45
intake survey in Denmark 192, 193, 197, 198
technical limitations 47
world market share 208

Africa
food processing 171, 172
food product distribution of sweeteners 173

nutritional aspects of sweetener use
disposable income correlation with intake 174–176, 234
energy intake from sugar 174, 175
nutritional enhancers 176, 177
processed foods and sweetener intake 173, 174
partial sugar replacement with sweeteners 172, 173, 175
regulation of sweeteners 171, 172
sugar cartels 171
Super Sugar marketing 175, 176
Agreement on Sanitary and Phytosanitary Measures, background 220, 221
Agreement on Technical Barriers to Trade, background 220
Alitame, technical limitations 47
Analgesia, sweeteners 10

Appetite
definition 71
energy density role 65, 71
exercise effects 80, 81
sweetener effects on food intake
aspartame
effects in weight control 82, 83
mechanisms of action 83, 84
overview 81
rationale in weight control 81
sweetness effects on control 78

Aspartame
aftertaste modulation 48
blend with acesulfame K
cola drink storage effects on flavor 59–61, 63
economics 207
Twinsweet, see Twinsweet
discovery 33, 52
flavor profile changes over time 61
forms 45, 50
history of use 6, 44
intake survey in Denmark 193, 198
safety testing 118
stability 49, 50
structure 52, 53
technical limitations 47
weight control
effects 82, 83
mechanisms of action 83, 84
world market share 207, 208
Australia, intake survey of intense sweeteners 185, 186

Beet, history as sugar source 31
Bernadame, structure and sweetness 34, 35

Canada, intake survey of intense sweeteners 183
Carrelame, structure and sweetness 34, 35
