List of Lectures by Speakers Who Have Not Submitted Their Manuscripts

**Extracellular Matrix Protein Enhance Eotaxin-Induced Eosinophil Chemotaxis**
Yoshiko Kato et al.
Department of Pediatrics and Allergy, National Mie Hospital, Tsu, Japan

**Effect of Histamine on Effector Function of Eosinophils**
Takao Fujisawa et al.
Department of Pediatrics and Allergy, National Mie Hospital, Tsu, Japan

**Expression of PPARγ in Eosinophils and Its Functional Role**
Shigeharu Ueki et al.
Department of Clinical and Laboratory Medicine, Akita University School of Medicine, Akita, Japan

**Cloning and Characterization of the Highly Expressed ETEA Gene from Blood Cells of Atopic Dermatitis Patients**
Tadahiro Oshida et al.
Genox Research, Inc., Teikyo University Biotech Center, Kawasaki, Japan

**Serum Levels of Thioredoxin in Allergic Inflammation and Their Role for Chemokine-Activated Eosinophils**
Yoshiyuki Yamada et al.
Department of Clinical and Laboratory Medicine, Akita University School of Medicine, Akita, Japan

**An Approach to Early Diagnosis of Bronchial Asthma – A Study on Evaluation of Airway Inflammation**
Naoto Watanabe et al.
Department of Pulmonary Medicine and Clinical Immunology, Dokkyo University School of Medicine, Tochigi, Japan
