Drug Dosage
The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.
Editorial

5 What’s It All about: Variation and Aging
Luszcz, M.A. (Adelaide)

7 Intraindividual Variability, Change, and Aging: Conceptual and Analytical Issues
Martin, M. (Zurich); Hofer, S.M. (University Park, Pa.)

12 Static and Dynamic Longitudinal Structural Analyses of Cognitive Changes in Old Age
Ghisletta, P. (Geneva); Lindenberger, U. (Saarbrücken)

17 Short-Term versus Long-Term Longitudinal Changes in Processing Speed
Zimprich, D. (Zurich); Hofer, S.M. (University Park, Pa.); Aartsen, M.J. (Amsterdam)

22 Age Differences in the Heritability of Mean and Intraindividual Variation of Psychological Distress
Neiss, M. (Southampton); Almeida, D.M. (State College, Pa.)

28 Aging and Attenuated Processing Robustness. Evidence from Cognitive and Sensorimotor Functioning
Li, S.-C.; Huxhold, O.; Schmiedek, F. (Berlin)

35 Gender Differences in Level and Change in Cognitive Functioning. Results from the Longitudinal Aging Study Amsterdam
Aarsen, M.J. (Amsterdam); Martin, M.; Zimprich, D. (Zurich)

39 MMSE Cross-Domain Variability Predicts Cognitive Decline in Centenarians
Kliegel, M. (Zurich); Sliwinski, M. (Syracuse, N.Y.)

44 Intraindividual Variability and Short-Term Change. Commentary
Nesselroade, J.R. (Charlottesville, Va.)
