Asthma Prevention and Management Guidelines

2003, Japan (JGL 2003): English summary

Report of the Research Group for Asthma Prevention and Management Guidelines, supported by the Immunology & Allergy Research Study Project Ministry of Health, Labour and Welfare, Japan

Guest Editors
Sohei Makino
Ken Ohta
Sankei Nishima
Akihiro Morikawa

12 figures and 20 tables, 2005
Drug Dosage

The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.

Contents

1 Foreword

Chapter 1
Definition, Diagnosis, Disease Types, and Classification of Asthma
3 Definitions
3 Definition of Adult Asthma
3 Definition of Childhood Asthma
3 Asthma Classification Based on Severity and Frequency of Asthma Attacks

Chapter 2
Epidemiology of Asthma
5 Epidemiology of Asthma
5 Survey Methods
5 Survey Results
5 Current Prevalence of Asthma Symptoms
5 Changes over Time in Asthma Symptom Prevalence
6 Regional Differences in Asthma Prevalence
7 Male-Female Ratio
7 Age at Onset
8 Family History of Asthma
8 Number and Percentage of Patients Diagnosed with Asthma
8 Asthma Deaths
10 Asthma Deaths in Adults
12 Asthma Deaths in Children
13 Countermeasures to and Prevention of Asthma Deaths
13 References
13 Further Reading
# Chapter 3

**Pharmacologic Control of Asthma**

14 Pharmacologic Treatment for Long-Term Management of Asthma

14 Drugs

15 Controller Medications

15 Corticosteroids

17 Sustained-Release Theophylline

17 β2-Agonists

17 Anti-Allergic Agents

19 Reliever Medications

19 Corticosteroids

19 β2-Agonists

20 Subcutaneous Epinephrine Injection

20 Aminophylline/Theophylline

20 Inhaled Anti-Cholinergic Drugs

20 Other Drugs and Therapy

20 Traditional Chinese Herbal Medicines (Kampo)

21 Hyposensitization Therapy

21 Nonspecific Therapy

22 A Stepwise Plan of Pharmacologic Therapy in Adults

22 Goal of Asthma Control

22 Implementation of Asthma Therapy

22 Four Steps in Long-Term Management of Asthma

22 Step 1: Mild Intermittent Asthma

22 Step 2: Mild Persistent Asthma

23 Step 3: Moderate Persistent Asthma

23 Step 4: Severe Persistent Asthma

25 Supplement: Intractable Asthma

25 Follow-Up Evaluation and Testing

25 Management of Acute Exacerbation (Attacks) in Adults

25 Management of Patients at Home

26 Standard Drugs Used for the Treatment of Asthma Attacks (Reliever Medications)

26 Inhaled β2-Agonists

26 Subcutaneous Epinephrine

26 Theophylline

27 Factors Which Affect Serum Theophylline Level

27 Corticosteroids

29 Oxygen

29 Other Therapy

29 Procedures for Emergency Outpatient Treatment
Contents

29 Management and Treatment of Childhood Asthma
29 Management of Acute Attacks in Childhood Asthma
29 Home Management of Patients
31 Treatment in a Medical Facility
31 Treatment of Mild Attacks
31 Treatment of Moderate Attacks
34 Treatment of Severe Attacks
35 Treatment for Acute Respiratory Failure
36 Indications for Hospitalization
36 Medication Plans for Long-Term Management of Childhood Asthma
37 Controller Medications
37 Anti-Allergic Drugs
37 Inhaled Corticosteroids
40 Sustained-Release Theophylline
40 β₂-Agonists
41 Stages in Long-Term Asthma Management (Treatment Steps)
41 Important Considerations when Treatment Is Stepped up or Stepped down
41 Assessing Treatment Step-Down
41 Sustaining Asthma Control
42 Assessing Treatment Step-Up
42 Discontinuing Long-Term Asthma Medication
42 Steps in Asthma Treatment
42 Mild Intermittent Asthma (Step 1)
42 Mild Persistent Asthma (Step 2)
43 Moderate Persistent Asthma (Step 3)
43 Severe Persistent Asthma (Step 4)
43 Early Intervention
44 Primary Prevention
44 Secondary Prevention
45 References
49 Further Reading
The following groups participated in the preparation of the ‘Asthma Prevention and Management Guidelines 2003, Japan (Update from: JGL1998).’

1995/1996 Research Group of Bronchial Asthma (Research group director S. Makino and 40 members), Allergy Division, Long-Term Chronic Disease Research Projects, supported by Ministry of Health, Labour and Welfare, Japan.

Members of the research groups are as follows:

**Director:**

Dr. Sohei Makino  
Prof. Emeritus, Dokkyo University School of Medicine; Tokyo Allergic Disease Research Institute/Jobu Hospital of Pulmonary Medicine

**Members** (alphabetical order):

Dr. Mitsuru Adachi  
First Department of Internal Medicine, Showa University School of Medicine

Dr. Yukihiro Ago  
National Center of Neurology and Psychiatry (Present Bunkyo Gakuin University)

Dr. Kazuo Akiyama  
Research Center for Allergy and Rheumatology, National Sagamihara Hospital (Present Clinical Research Center for Allergy and Rheumatology, National Hospital Organization, Sagamihara National Hospital)

Dr. Minoru Baba  
Doai Memorial Hospital

Dr. Yosuke Egashira  
Tamana Central Hospital (Present Kyushu University of Nursing and Social Welfare)

Dr. Masaki Fujimura  
Third Department of Internal Medicine, Kanazawa University School of Medicine

Dr. Takeshi Fukuda  
Department of Pulmonary Medicine and Clinical Immunology, Dokkyo University School of Medicine

Dr. Kenshi Furusho  
Kishiwada City Hospital (Present Kokura Allergy Clinics)

Dr. Yoji Iikura  
Department of Pediatrics, Showa University School of Medicine

Dr. Hiroshi Inoue  
Third Department of Internal Medicine, Iwate Medical University

Dr. Koji Ito  
Department of Allergy and Respiratory Disease, Doai Memorial Hospital (Present Yugawara Kosei-Nenkin Hospital)

Dr. Itsuo Iwamoto  
Clinical Cell Biology, Graduate School of Medicine, Chiba University

Dr. Junzaburo Kabe  
Yugawara Kosei-Nenkin Hospital (Present Taiheiyo Cement Corp. Clinics)

Dr. Yuichiro Kamikawa  
Department of Pharmacology, Dokkyo University School of Medicine

Dr. Yoshikazu Kawakami  
First Department of Medicine, Hokkaido University School of Medicine (Present Kohnan Hospital)

Dr. Norio Kihara  
Kihara Hospital

Dr. Satoshi Kitamura  
Department of Pulmonary Medicine, Jichi Medical School (Present Minami-Tochigi Hospital)

Dr. Koichiro Kudo  
International Medical Center of Japan

Dr. Kenji Mano  
Department of Internal Medicine, Teikyo University School of Medicine (Present Taikyo College of Medical Technology)

Dr. Takehiko Matsui  
Department of Pediatrics, Tokyo Metropolitan Ebara General Hospital
Dr. Haruki Mikawa
Prof. Emeritus, University of Kyoto, Kansaidenryoku Hospital

Dr. Seishiro Miyagi
Okinawa Chubu Hospital (Present ‘Muribushi-Okinawa’, Muribushi Project for Okinawa Residency Program)

Dr. Terumasa Miyamoto
Prof. Emeritus, University of Tokyo; Japan Clinical Allergy Research Institute

Dr. Yutaka Morita
Department of Respiratory Medicine, Graduate School of Medicine, University of Tokyo (Present Ochanomizu University)

Dr. Yukio Nagasaka
Fourth Department of Internal Medical, Kinki University School of Medicine (Present Department of Medicine and Pulmonology, Kinki University Sakai Hospital)

Dr. Takemasa Nakagawa
Department of Internal Medicine, St. Marianna University School of Medicine

Dr. Shigenori Nakajima
Life Science Research Institute, Kinki University School of Medicine (Present Kinki University Nara Hospital)

Dr. Tsugio Nakazawa
Gunma University School of Health Sciences

Dr. Sankei Nishima
National Hospital Organization, Fukuoka National Hospital

Dr. Ken Ohta
Department of Medicine, Teikyo University School of Medicine

Dr. Takao Okubo
Prof. Emeritus, Yokohama City University; International University of Health and Welfare

Dr. Hiroki Sakakibara
Division of Pulmonology and Allergology, Fujita Health University School of Medicine

Dr. Yasuyuki Sano
Department of Allergy and Respiratory Medicine, Doai Memorial Hospital

Dr. Keisuke Shinomiya
Former Department of Pediatrics, National Himeji Hospital

Dr. Kenzo Takagi
Nagoya University School of Health Sciences

Dr. Kiyoshi Takahashi
National Hospital Organization, Minami-Okayama Medical Center

Dr. Gen Tamura
Department of Respiratory and Infectious Diseases, Tohoku University School of Medicine

Dr. Hisao Tomioka
Prof. Emeritus, Toho University

Dr. Kyoichiro Toyoshima
Osaka Prefectural Habikino Hospital (Present Toyoshima Pediatric Clinics)

Dr. Kazuharu Tsukioka
Niigata Allergic Disease Research Institute

Dr. Nobuo Ueda
Ehime Prefectural Central Hospital

Dr. Michio Yamakido
Second Department of Internal Medicine, Hiroshima University Faculty of Medicine (Present Kure Kyosai Hospital)

Collaborators:

Dr. Susumu Hosoi
Department of Pediatrics, Graduate School of Medicine, Kyoto University (Present Ako City Hospital)

Dr. Hironori Sagara
Department of Pulmonary Medicine and Clinical Immunology, Dokkyo University School of Medicine
