Contents Vol. 80, 2004

No. 1

1 Editorial
Kordon, C. (Paris)

Reproductive Neuroendocrinology

2 Role of CAMP Signaling in the Mediation of Dopamine-Induced Stimulation of GnRH Secretion via D1 Dopamine Receptors in GT1-7 Cells
Yoshida, H.; Paruthiyil, S.; Butler, P.; Weiner, R.I. (San Francisco, Calif.)

11 Neurotransmitters Involved in the Opioid Regulation of Prolactin Secretion at the End of Pregnancy in Rats
Soaje, M.; Bregonzio, C.; Carón, R.W.; Deis, R.P. (Mendoza)

21 Bisphenol A Exerts Thyroid-Hormone-Like Effects on Mouse Oligodendrocyte Precursor Cells
Seiwa, C.; Nakahara, J.; Komiyama, T. (Okayama); Katsu, Y.; Iguchi, T.; Asou, H. (Okayama/Kawaguchi)

Steroid Effects on the CNS

31 Estrogen Reduces Serotonin-1A Receptor-Mediated Oxytocin Release and G_{oxo} Proteins in the Hypothalamus of Ovariectomized Rats
D'Souza, D.N.; Zhang, Y.; Damjanoska, K.J.; Carrasco, G.A.; Sullivan, N.R.; Garcia, F.; Battaglia, G.; DonCarlos, L.L.; Muma, N.A.; Van de Kar, L.D. (Maywood, Ill.)

42 Social Hierarchy Affects Gene Expression for Catecholamine Biosynthetic Enzymes in Rat Adrenal Glands
Pohorecky, L.A.; Blakley, G.G. (Piscataway, N.J.); Kubovcakova, L.; Krizanova, O. (Bratislava); Patterson-Buckendahl, P. (Piscataway, N.J.); Kvetnansky, R. (Bratislava)

Behavioural Neuroendocrinology

52 Hexarelin Modulates the Expression of Growth Hormone Secretagogue Receptor Type 1a mRNA at Hypothalamic and Pituitary Sites
Bresciani, E. (Monza); Nass, R. (Charlottesville, Va.); Torsello, A. (Monza); Gaylinn, B. (Charlottesville, Va.); Avallone, R.; Locatelli, V. (Monza); Thorner, M.O. (Charlottesville, Va.); Müller, E.E. (Milan)

No. 2

The article '35th Anniversary of the Discovery of Brain Hormones: Recollections on the Origins of Neuroendocrinology' (Neuroendocrinology 2004;80:65–72) [PMID 15467379] by A. Suhardja was withdrawn by the author from publication due to inaccuracies in the article

Regulation of Anterior Pituitary Cells

73 Effects of Leptin on Intracellular Calcium Concentrations in Isolated Porcine Somatotropes

83 Tumor Necrosis Factor-Alpha-Induced Nitric Oxide Restrains the Apoptotic Response of Anterior Pituitary Cells

Posterior Pituitary Hormones

92 Vasopressin Stimulates Ventromedial Hypothalamic Neurons via Oxytocin Receptors in Oxytocin Gene Knockout Male and Female Mice

100 Mineralocorticoid Treatment Upregulates the Hypothalamic Vasopressinergic System of Spontaneously Hypertensive Rats
Pietranera, L.; Saravia, F.; Rong, P.; Lima, A.; De Nicola, A.F. (Buenos Aires)

Clinical Neuroendocrinology

111 Nonpeptide Corticotropin-Releasing Hormone Receptor Type 1 Antagonists and Their Applications in Psychosomatic Disorders
Contoreggi, C.; Rice, K.C.; Chrousos, G. (Baltimore, Md./Bethesda, Md.)

124 Neonatal Hyperthyrotoxopinemia in Gestational Diabetes mellitus and Perinatal Complications
Leung, W.C.; Chan, K.K.L.; Lao, T.T. (Hong Kong)
In the Ventral Tegmental Area, G-Proteins and cAMP Mediate Rapid Neurosecretory and Cardiovascular Response to Plasma Aminopeptidase Activities in Rats after Left and Right

A Role for Agouti-Related Protein in Appetite Regulation in Caudal Hindbrain Glucoprivation Enhances Hypothalamo-Pituitary-Adrenal Axis-Regulated Stress

Effect of Estrogen on Melanocortin-3 Receptor mRNA Expression in Mouse Pituitary Glands in vivo and in vitro

Changes in γ-Aminobutyric Acid Tone and Extracellular Serotonin in the Dorsal Raphe Nucleus Over the Rat Estrous Cycle

Isolation and Characterization of the Follicle-Stimulating Hormone β Subunit Gene and 5′ Flanking Region of the Chinook Salmon

Regulation of Corticotropin and Stress

Decreased Hypothalamic and Adrenal Angiotensin II Receptor Expression and Adrenomedullary Catecholamines in Transgenic Mice with Impaired Glucocorticoid Receptor Function

Neonatal Handling and Gender Modulate Brain Monoamines and Plasma Corticosterone Levels following Repeated Stressors in Adult Mice

Hypothalmo-Pituitary-Adrenal Axis-Regulated Stress Response and Negative Feedback Sensitivity Is Altered by Prenatal Morphine Exposure in Adult Female Rats

No. 3

Gonadal Steroid Feedback and Gonadotropins

Effect of Androgens on Sexual Differentiation of Pituitary Gamma-Aminobutyric Acid Receptor Subunit GABAγ Expression

Effect of Estrogen on Melanocortin-3 Receptor mRNA Expression in Mouse Pituitary Glands in vivo and in vitro

Regulation of Corticotropin and Stress

No. 4

Original Papers

Caudal Hindbrain Glucoprivation Enhances γ-Aminobutyric Acid Release in Discrete Septohippocampal Structures in the Steroid-Primed Ovariectomized Rat Brain: Role of γ-OPioid Receptors

A Role for Agouti-Related Protein in Appetite Regulation in a Species with Continuous Nutrient Delivery

Plasma Aminopeptidase Activities in Rats after Left and Right Intrastriatal Administration of 6-Hydroxydopamine

Rapid Neurosecretory and Cardiovascular Response to Osmotic Stimulation in Conscious Mice

In the Ventral Tegmental Area, G-Proteins and CAMP Mediate the Neurosteroid 3α,5α-THP’s Actions at Dopamine Type 1 Receptors for Lordosis of Rats

No. 5

Original Papers

Delayed Age-Associated Decrease in Growth Hormone Pulsatile Secretion and Increased Orexigenic Peptide Expression in the Lou C/Jall Rat

Receptors to Steroid Hormones and Aromatase Are Expressed by Cultured Motoneurons but Not by Gial Cells Derived from Rat Embryonic Spinal Cord

Distribution of G-Protein-Coupled Receptor (GPCR)135 Binding Sites and Receptor mRNA in the Rat Brain Suggests a Role for Relaxin-3 in Neuroendocrine and Sensory Processing

Estrogen and Ovariectomy Regulate mRNA and Protein of Glutamic Acid Decarboxylases and Cation-Chloride Cotransporters in the Adult Rat Hippocampus

Implication of Pituitary Vasoactive Intestinal Peptide in Dopaminergic Inhibition of Estrogen-Induced Pituitary Hyperplasia and Vascular Endothelial Growth Factor Expression

Effects of Chronic Social Stress on Neuroendocrine Responsiveness to Challenge with Ethanol, Dexamethasone and Corticotropin-Releasing Hormone

No. 6

Original Papers

Comparison of Long-Term Perfused Pars intermedia of Anolis carolinensis, Rana pipiens and Hyla chrysoscelis: Their Responses to Dopamine

Analysis of the Golden Syrian Hamster Anterior Pituitary Gland Proteome by Ion Trap Mass Spectrometry
Drug Dosage

The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.
