Subject Index

Acetyl-CoA carboxylase (ACC)
  isoforms 14
  therapeutic targeting in obesity 14
Adjustable silicone-banded gastric banding, see Bariatric surgery
Agouti-related protein (AgRP)
  C75 effects 13
  energy homeostasis role 8
AMP-activated protein kinase
  hypothalamic energy sensing role 11, 12
  phosphorylation inhibition by C75 13
Arcuate nucleus, energy homeostasis role 8
Arm lift, see Brachioplasty
Atkins’ diet 32

Bariatric surgery
  body contouring following massive weight loss
    brachioplasty 69, 70
    face lift 70
    frequency 62, 63
    hanging skin complications 65, 66
    insurance coverage 67
  lower body lift
    contraindications 68
    indications 68
    postoperative care 68
    preoperative considerations 65–68
    superficial fascial system 67, 68
    technique 68
    mastopexy 68, 69
    physiological factors 63, 64
  reconstructive surgical principles 63–65
  types of operations 63
  body image effects 77
  complications 38, 59
  efficacy 59, 60
  frequency 62
  nutrient deficiency risks 35, 36
  patient selection and psychological factors 54, 55, 80–83
  postoperative dietary modifications 36, 37
  techniques
    adjustable silicone-banded gastric banding 34, 57, 58
    biliopancreatic diversion 35, 58, 59
    duodenal switch 35, 58, 59
    gastric bypass 56, 57
    Roux-en-Y 35
    vertical banded gastroplasty 34, 56
Biliopancreatic diversion, see Bariatric surgery

Binge eating disorder (BED)
  clinical features 87, 88
  depression association 77
  diagnostic criteria 6, 87
  etiology 88, 89
  prevalence 87
  treatment
    cognitive behavioral therapy 89–92
    interpersonal therapy 91, 92
    selective serotonin reuptake inhibitors 89

Body mass index (BMI), obesity 24, 25, 73
Brachioplasty, massive weight loss patients 69, 70
Breast augmentation/lift, see Mastopexy

C75
AMP-activated protein kinase phosphorylation inhibition 13
carnitine palmitoyltransferase-1 effects 12, 13
fatty acid synthase inhibition 12
food intake effects 13, 14
hypothalamic neuropeptide effects 12, 13
Cannabinoid receptor inhibitor, see Rimonabant
Carnitine palmitoyltransferase-1 (CPT-1)
C75 effects 12, 13
cerulenin effects 13
Cerulenin, fatty acid oxidation effects 13
Cognitive behavioral therapy (CBT), binge eating disorder 89–92
Cortisol, obesity role 75

Depression
binge eating disorder association 77
obesity association 75–77
management
psychotherapy 79, 80
selective serotonin reuptake inhibitors 79

Dieting, weight loss
balanced nutrient reduction diets 32
fasting 31
high-fat, low-carbohydrate diet 32
low-calorie diet 30
very-low-calorie diet 30, 31
very-low-fat diets 33

Dopamine, reward system 75

Dumping syndrome, bariatric surgery patients 38, 56
Duodenal switch, see Bariatric surgery

Energy homeostasis
afferent signals to central integrator 4
components of system 3, 4
evolutionary context 2, 3
hypothalamus as central integrator
arcuate nucleus 8
fatty acid metabolism and metabolic sensing 12–15
neuronal energy state in metabolic sensing 11, 12
neurons as metabolic integrators 10, 11
neuropeptides 8–10
leptin role 4–7

Face lift, massive weight loss patients 70
Fatty acid synthase inhibitors, see C75

Gastric bypass, see Bariatric surgery
Glycerol-3-phosphate acyltransferase (GPAT), therapeutic targeting in obesity 14

Homeostasis, see Energy homeostasis
Hypothalamus, central integrator in energy homeostasis
arcuate nucleus 8
fatty acid metabolism and metabolic sensing 12, 13
neuronal energy state in metabolic sensing 11, 12
neurons as metabolic integrators 10, 11
neuropeptides 8–10

Interpersonal therapy (IPT), binge eating disorder 91, 92

JAK-STAT, leptin signaling 7

Leptin
adiposity signal studies 4, 5
food intake regulation 2
mutations in mouse and human obesity 5, 6
receptor isoforms and central nervous system signaling 6, 7
resistance and obesity 75
Low-calorie diet (LCD), weight loss 30
Lower body lift
contraindications 68
indications 68
postoperative care 68
Lower body lift (continued)
preoperative considerations 65–68
superficial fascial system 67, 68
technique 68

Massive weight loss, see Bariatric surgery
Mastopexy, massive weight loss patients 68, 69
Melanocortins
energy homeostasis role 8, 9
receptors 8, 9
Meridia, see Sibutramine

Neuropeptide Y (NPY)
C75 effects 13
energy homeostasis role 8–10
Night eating syndrome (NES), clinical features 88

Obesity
definition 24, 25, 73
economic impact 25
epidemiology 1, 53, 74
etiology 25, 74–76
health risks 1, 2, 25, 53, 54, 74
mortality 54
psychosocial aspects, see Psychosocial aspects, obesity
treatment
algorithm 26
bariatric surgery, see Bariatric surgery
costs 25
diet
balanced nutrient reduction diets 32
fasting 31
high-fat, low-carbohydrate diet 32
low-calorie diet 30
very-low-calorie diet 30, 31
very-low-fat diets 33
efficacy 26
fatty-acid-metabolizing enzyme targeting 13–15
goals 27, 39
lifestyle modification 27–29
personality and weight loss success 78
pharmacotherapy, see specific drugs
physical activity 33, 34

Orlistat (Xenical)
efficacy in weight loss 45, 46
mechanism of action 45
sibutramine combination therapy 46
side effects 45

Ornish diet 33

Pritkin Program 33
Psychosocial aspects, obesity
bariatric surgery, see Bariatric surgery
depression
association 75–77
management
psychotherapy 79, 80
selective serotonin reuptake inhibitors 79
personality and weight loss success 78
sexual function and body image 77
stigmatization 77, 78
stress 75
Psychotherapy
binge eating disorder
cognitive behavioral therapy 89–92
interpersonal therapy 91, 92
depression management in obesity 79, 80

Rimonabant
cannabinoid receptor inhibition 48
efficacy in weight loss 48, 49

Roux-en-Y, see Bariatric surgery

Selective serotonin reuptake inhibitors (SSRIs), obesity management 46
binge eating disorder management 89
depression management 79

Sibutramine (Meridia)
efficacy in weight loss 43, 44
mechanism of action 43
orlistat combination therapy 46
side effects 43

SOCS-3, leptin signaling 7

South Beach Diet 32
Stress, obesity association 75

Topamax, see Topiramate
Topiramate (Topamax)
  efficacy in weight loss 47
  mechanism of action 47
  side effects 47

Vertical banded gastroplasty, see Bariatric surgery

Very-low-calorie diet (VLCD), weight loss 30, 31

Weight Watchers 32

Xenical, see Orlistat

Zone Diet 32

Zonisamide
  efficacy in weight loss 48
  mechanism of action 47, 48
  side effects 48
