Subject Index Vol. 66, 1996

Accuracy 137 Alginate 141
Arteriovenous malformation 41 Autoclave time 141 Automatic surface alignment 69

Cell transplantation 141
Cerebral arteriovenous malformations 1
Chemical shift 118
Chronic pain 19,65
Computed tomography 58
Computer-assisted spine surgery 108
Cortical mapping 24
Craniotomy guidance 81

Distortion 123,137

Extracranial stereotactic radiosurgery 1

Frameless localization 75 -stereotaxy 91 -surgery 69 Functional disorders 19 -MRI 24 -neurosurgery 65

Gamma Knife® 19,35,41 — radiosurgery 15
- unit facility 41

Image-directed neurosurgery 96 Image-guided registration 69 Intensity modulation 30 Interactive image guidance 108 Intracranial tumor 41 Intraoperative imaging 58

Laser localization 75 LINAC 1,10

Magnetic neurosurgery 102
- resonance imaging 58,118,123,137
Malfunction 35
Meningioma 15 Microencapsulation 141 Microscope, stereotactic 96 Minimally invasive procedure 102 Motor cortex 65 MR distortion 84

Neuronavigation 65
Nucleus ventralis intermedius 65

Parkinson's disease 19 Peacock treatment 30 Pedicle screw fixation 108
