Establishing an integrative approach to the understanding and management of PCOS

Polycystic Ovary Syndrome

Novel Insights into Causes and Therapy

Editors:
Djuro Macut
Marija Pfeifer
Bulent Okan Yildiz
Evanthia Diamanti-Kandarakis

Polycystic ovary syndrome (PCOS) is the most frequent disorder affecting women of reproductive age. Recent years have shown substantial advances in our understanding of the complex genetic, biochemical, metabolic, cardiovascular, and reproductive issues associated with PCOS.

This book presents a comprehensive overview of recent clinical developments in identifying the phenotypic expression of women with PCOS resulting in a completely new recognition of its phenotypic variability. Metabolic and cardiovascular consequences of the syndrome are discussed in detail. Advances made in dealing with secondary forms of PCOS-like syndromes are presented as well as specific therapies of clinical manifestations and their outcomes. Additionally, a number of hot topics are included presenting genetic developments, endothelial causes leading to unfavorable outcomes, and novelities in therapeutic approaches dealing with metabolic and reproductive consequences.

Covering phenotypic characteristics, diagnostic criteria, central pathophysiological mechanisms, metabolic, cardiovascular and reproductive aspects, and modern therapeutic approaches, this book is a useful tool for general practitioners, gynecologists, pediatricians, internists, endocrinologists, as well as cardiologists.

Polycystic Ovary Syndrome

Novel Insights into Causes and Therapy

Fields of Interest: Endocrinology; Gynecology; Pediatric Endocrinology, Metabolism, Cardiovascular System

Contents

Preface: Macut, D.; Pfeifer, M.; Yildiz, B.O.; Diamanti-Kandarakis, E.

Polycystic Ovary Syndrome: Definitions, Phenotypes and Diagnostic Approach: Livadas, S.; Diamanti-Kandarakis, E.

Pathophysiology of Polycystic Ovary Syndrome: The Role of Hyperandrogenism: Catteau-Jonard, S.; Dewailly, D.

Genetics of Polycystic Ovary Syndrome: Barber, T.M.; Franks, S.

Obesity, Adipokines and Metabolic Syndrome in Polycystic Ovary Syndrome: Carmina, E.

Dyslipidemia and Oxidative Stress in PCOS: Macut, D.; Bjekić-Macut, J.; Savić-Radojević, A.

Cardiovascular Risk and Subclinical Cardiovascular Disease in Polycystic Ovary Syndrome: Bajuk Studen, K.; Jensterle Sever, M.; Pfeifer, M.

Insulin Sensitizers in Polycystic Ovary Syndrome: Pasquali, R.; Gambineri, A.

Hirsutism – From Diagnosis to Use of Antiandrogens: Unluhizarci, K.; Karaca, Z.; Kelestimur, F.

Combined Oral Contraceptives in Polycystic Ovary Syndrome – Indications and Caution: Bozdag, G.; Yildiz, B.O.

Endocrinopathies and Other Disorders Inducing a Polycystic Ovary Syndrome Phenotype: Alexandraki, K.I.; Kaltasas, G.A.

Non-Classic Adrenal Hyperplasia due to the Deficiency of 21-Hydroxylase and Its Relation to Polycystic Ovarian Syndrome: Pignatelli, D.

Frontiers of Hormone Research

Series Editor: Grossman, A.B. (Oxford)
ISSN 0301-3073, e-ISSN 1662-3762

The explosive growth in molecular science over the past few years has had considerable impact throughout medicine, not least in endocrinology, which is the branch of medicine in some ways most closely allied to basic molecular science. This series has for many years attempted to link areas undergoing active investigation with clinical endocrine medicine. The volumes focus on areas of molecular research at the cutting edge of endocrinology, and will particularly attempt to assess their impact on current clinical practice. Other volumes will attempt to expore the newest and most innovative therapeutic strategies in endocrinology, allowing a full exploration of the most novel drugs currently available or under investigation.

Vol. 39
Kallmann Syndrome and Hypogonadotropic Hypogonadism
Editor: Quinton, R. (Newcastle-on-Tyne)
X + 174 p., 20 fig., 5 in color, 12 tab., hard cover, 2010
CHF 178.– / EUR 127.– / USD 178.00
Prices subject to change
EUR price for Germany, USD for USA only

Vol. 38
Pituitary Today II
New Molecular, Physiological and Clinical Aspects
Editors: Arzt, E. (Buenos Aires);
Bronstein, M. (Sao Paulo);
Guitelman, M. (Buenos Aires)
X + 218 p., 39 fig., 2 in color, 14 tab., hard cover, 2010
CHF 144.– / EUR 103.– / USD 144.00

Vol. 37
Advances in the Management of Testosterone Deficiency
Editor: Jones, T.H. (Barnstey/Sheffield)
X + 210 p., 29 fig., 1 in color, 12 tab., hard cover, 2009
CHF 186.– / EUR 133.– / USD 186.00
