Endobronchial Ultrasound-Guided Transbronchial Needle Aspiration

EBUS-TBNA A Practical Approach

Editors

S.E. Monaco

W.E. Khalbuss

L. Pantanowitz

This high-yield reference book focuses on the clinical, technical, and pathological aspects of endobronchial ultrasound-guided transbronchial needle aspiration (EBUS-TBNA). Its reviews cover all aspects of EBUS-TBNA, including the clinical perspective, technical aspects of the procedure, and cytomorphology of common and uncommon entities, as well as highlights diagnostic challenges. Each chapter features a multitude of full-color high-resolution images and includes key references to the current literature in the field. Additionally, reference tables and informative figures highlight the salient points. The book is unique in that it is written by experienced thoracic surgeons, pulmonary medicine physicians, and cytopathologists who use EBUS-TBNA in a large medical center.

This publication is of interest to individuals learning and practicing cytopathology, in addition to clinicians practicing pulmonary/thoracic medicine or surgery. In short, it provides important pearls of wisdom to create a comprehensive reference for all physicians involved with EBUS-TBNA.

*Fields of Interest: Cytology; Pathology; Respiratory System, Oncology,
Thoracic Surgery, Ultrasound*

Contents

Foreword: **Herth, F.J.F.**

Preface: **Monaco, S.E.; Khalbuss, W.E.; Pantanowitz, L.**

Editors/Contributing Authors

Introduction to EBUS-TBNA: **Monaco, S.E.**

Clinical and Surgical Perspectives with
Comparison to Other Diagnostic Modalities:
Christie, N.A.

Review of Thoracic and Mediastinal Anatomy in
EBUS-TBNA: **Wilson, D.O.**

Technical Aspects of Performing EBUS-TBNA:
Schuchert, M.J.

Indications and Diagnostic Performance of
EBUS-TBNA: **Monaco, S.E.**

EBUS-TBNA Specimen Collection and Processing:
Pantanowitz, L.

Practical Approach to the Cytological Evaluation
and Adequacy Assessment in EBUS-TBNA:
Monaco, S.E.

Normal and Nonneoplastic Components:
Khalbuss, W.E.

Pulmonary Epithelial Neoplasms: **Khalbuss, W.E.**

Nonpulmonary Metastatic Carcinomas: **Monaco, S.E.**

Nonepithelial Neoplasms: **Pantanowitz, L.**

Thymic Lesions and Neoplasms: **Pantanowitz, L.**

Contamination, Background Material, and
Artifacts: **Monaco, S.E.**

Index

Endobronchial Ultrasound-Guided Transbronchial Needle Aspiration (EBUS-TBNA): A Practical Approach

Editors: Monaco, S.E.; Khalbuss, W.E.; Pantanowitz, L.

A complete guide to progress in thoracic medicine

Editor-in-Chief
Felix J.F. Herth, Heidelberg

Respiration brings together the results of both clinical and experimental investigations on all aspects of the respiratory system in health and disease. Clinical improvements in the diagnosis and treatment of chest and lung diseases are covered, as are the latest findings in physiology, biochemistry, pathology, immunology and pharmacology. The journal includes classic features such as editorials that accompany original articles in clinical and basic science research, reviews and letters to

the editor. Further sections are: The Eye Catcher, What's Your Diagnosis?, New Insights from Clinical Practice and Guidelines. This modern mix of different features and a stringent peer-review process by a dedicated editorial board make *Respiration* a complete guide to progress in thoracic medicine.

The essential resource for today's cytopathologist

Editor-in-Chief
Kari Syrjänen, Helsinki

Co-Editor
Volker Schneider, Freiburg, i.B.

Offering an excellent balance of articles on both clinical cytology and cytopathology, *Acta Cytologica* furthers the understanding of cytopathologic processes and facilitates the translation of current research into clinical practice. As the official journal of the International Academy of Cytology and affiliated to over 50 cytology societies around the world, *Acta Cytologica* evaluates new and existing diagnostic applications of scientific advances as well as their clinical correlation. Original papers, review articles, case reports and letters to the editor cover topics from diagnostic

cytopathology, gynecologic and nongynecologic cytopathology to fine-needle aspiration, molecular techniques and diagnostic methodologies. The perfect reference for practical use, *Acta Cytologica* addresses a multidisciplinary audience involved in the clinical practice of cytopathology, cell biology, oncology, interventional radiology, otorhinolaryngology, gastroenterology, urology, pulmonology and preventive medicine.
