A unique guide to improved oral health

Erosive Tooth Wear From Diagnosis to Therapy

Editors:
A. Lussi
C. Ganss

2nd, revised and
extended edition of
'Dental Erosion'

Erosive tooth wear is a multifactorial condition of growing concern to the clinician and the subject of extensive research. Since the publication of the first edition of the book with the title *Dental Erosion*, new knowledge for a better understanding of this important subject has been gathered. The new and more detailed insights resulted in this second, extended publication. It presents a broad spectrum of views, from the molecular level to behavioural aspects, as well as trends in society. In particular, the issues concerning chemical and biological factors as well as dental erosion in children are covered more extensively in this second edition. The first chapters include topics such as the definition, diagnosis, interaction, epidemiology and histopathology of tooth wear. Further, the aetiology of dental erosion, including nutritional and patient-related factors are discussed.

This book is a valuable and indispensable guide to better oral health and is highly recommended to faculty members, researchers, dental students, practitioners and other dental professionals.

Fields of Interest: Dental Medicine, Dental Hygiene, Nutrition, Oral Biology, Preventive Medicine

Contents

Acknowledgements: **Lussi, A.**

Foreword to the First Edition: **Angmar-Månsson, B.**

Preface: **Lussi, A.; Ganss, C.**

Erosive Tooth Wear: A Phenomenon of Clinical Significance

Erosive Tooth Wear: A Multifactorial Condition of Growing Concern and Increasing Knowledge:

Lussi, A.; Carvalho, T.S.

Is Erosive Tooth Wear an Oral Disease?: **Ganss, C.**

Diagnosis of Erosive Tooth Wear: **Ganss, C.; Lussi, A.**

The Interactions between Attrition, Abrasion and Erosion in Tooth Wear: **Shellis, R.P.; Addy, M.**

Epidemiology

Challenges in Assessing Erosive Tooth Wear:

Margaritis, V.; Nunn, J.

Prevalence, Incidence and Distribution of Erosion:

Jaeggi, T.; Lussi, A.

Prevalence of Erosive Tooth Wear in Risk Groups:

Schlueter, N.; Tveit, A.B.

The Histopathology of Dental Erosion

The Histological Features and Physical Properties of Eroded Dental Hard Tissues: **Ganss, C.; Lussi, A.; Schlueter, N.**

Dentine Hypersensitivity: **West, N.; Seong, J.; Davies, M.**

Methods for Assessment of Dental Erosion: **Attin, T.; Wegehaupt, F.J.**

Aetiology of Dental Erosion: Nutritional Factors

Erosion in Relation to Nutrition and the Environment:

Barbour, M.E.; Lussi, A.

Oral Hygiene Products, Medications and Drugs – Hidden Aetiological Factors for Dental Erosion:

Hellwig, E.; Lussi, A.

Understanding the Chemistry of Dental Erosion:

Shellis, R.P.; Featherstone, J.D.B.; Lussi, A.

Aetiology of Dental Erosion: Patient-Related Factors

Intrinsic Causes of Erosion: **Moazzes, R.; Bartlett, D.**

The Potential of Saliva in Protecting against Dental Erosion: **Hara, A.T.; Zero, D.T.**

The Pellicle and Erosion: **Hannig, M.; Hannig, C.**

The Role of Oral Hygiene: Does Toothbrushing Harm?: **Wiegand, A.; Schlueter, N.**

Preventive and Restorative Therapy

Risk Assessment and Causal Preventive Measures:

Lussi, A.; Hellwig, E.

The Role of Fluoride in Erosion Therapy:

Huysmans, M.-C.; Young, A.; Ganss, C.

Alternatives to Fluoride in the Prevention and

Treatment of Dental Erosion: **Buzalaf, M.A.R.;**

Magalhães, A.C.; Wiegand, A.

Restorative Therapy of Erosive Lesions:

Peutzfeldt, A.; Jaeggi, T.; Lussi, A.

Dental Erosion in Children

Erosive Tooth Wear in Children: **Carvalho, T.S.;**

Lussi, A.; Jaeggi, T.; Gambon, D.L.

Authoritative summaries of important topics
in oral science

Monographs in Oral Science

Series Editors:

A. Lussi (Bern); M.C.D.N.J.M. Huysmans (Nijmegen); H.-P. Weber (Boston, Mass.)

For over three decades, *Monographs in Oral Science* has provided a source of in-depth discussion of selected topics in the sciences related to stomatology. Senior investigators are invited to present expanded contributions in their fields of special expertise. The topics chosen are those which have generated a long-standing interest, and on which new conceptual insights or innovative biotechnology are making considerable impact. Authors are selected on the basis of having made lasting contributions to their chosen field and their willingness to share their findings with others.
