Over the past ten years tremendous progress has been achieved in corneal surgery. This volume - the 6th in the ESASO Course Series - reflects the most relevant topics ranging from basic knowledge to the most advanced techniques. It covers the functional anatomy with medical and surgical management of the ocular surface, provides information on high-risk corneal transplantation and explains techniques such as corneal collagen crosslinking, femtosecond laser-assisted penetrating deep anterior lamellar keratoplasty (DALK) and descemet membrane endothelial keratoplasty (DMEK). Further contributions describe how to manage astigmatism after corneal transplantation as well as indications of intrastroma corneal ring segments (ICRS) in keratoconus. Well-known corneal and ocular surface surgeons and refractive surgery specialists share their experience in this publication, making it a must-read for every anterior segment surgeon, especially those performing corneal surgery and using corneal refractive procedures.
Expert presentations made available in print

ESASO Course Series

Series Editors: F. Bandello (Milan); B. Corcóstegui (Barcelona)
ISSN 1664-882X (Print)
e-ISSN 1664-8838 (Online)

This new book series makes the essentials of the courses of the European School for Advanced Studies in Ophthalmology (ESASO) available to interested ophthalmologists, optometrists, technicians and residents all over the world. The presentations of the courses are published regularly featuring a wide range of ophthalmological topics from vitreoretinal pathology to retinal surgery, retinal diseases, cornea and refractive surgery or cataract.

The European School for Advanced Studies in Ophthalmology (ESASO) was founded in 2008 to address the need of master’s degree programmes as well as the specific further education requirements of training and practicing clinicians, drawing on the skills of ophthalmologists worldwide and the support of various universities.

Vol. 5:
Orbital Surgery
Editors: Medel, R. (Barcelona); Vásquez, L.M. (Barcelona)
VIII + 116 p., 87 fig., 82 in color, 3 tab., 2014
