The mission of *Hormone Research in Paediatrics* is to improve the care of children with endocrine disorders by promoting basic and clinical knowledge. The journal facilitates the dissemination of information through original papers, mini-reviews, clinical guidelines or novel insights from clinical practice, and abstracts from international congresses in pediatric endocrinology. Periodic editorials from outstanding pediatric endocrinologists also address contemporary research by critically reviewing the major strengths and weaknesses of the studies.

*Hormone Research in Paediatrics* is the official journal of the European Society for Paediatric Endocrinology, Pediatric Endocrine Society, and Sociedade Latino-Americana de Endocrinologia Pediátrica.

**Editor-in-Chief**
