International Archives of Allergy and Immunology

The international forum for high-quality, innovative research in allergy and immunology since 1950

International Archives of Allergy and Immunology provides a forum for experimental and clinical research in modern molecular and cellular allergology and immunology. Appearing monthly, the journal publishes original work in the fields of allergy, immunopathology, immunogenetics, immunopharmacology, immunoenocrinology, tumor immunology, mucosal immunity, transplantation, and immunology of infectious and connective tissue diseases. In addition to original papers, it features short communications, reviews, mini-reviews, commentaries, and opinions.

A team of internationally renowned and committed editors guarantees a fair review process, high scientific quality, and fast dissemination of significant and novel work.
