The Journal of Innate Immunity is a bimonthly open access journal covering all aspects of innate immunity, including:

- Evolution of the Immune System
- Pattern Recognition and Signals of ‘Danger’
- Humoral Responses
- Cellular Mechanisms
- Host Response and Inflammation
- Mucosal Immunity
- Microbiota
- Systems Biology
- Cancer

The journal includes original papers and reviews in basic and clinical research. Subject areas such as microbiology, immunology and infectious diseases are also covered. It adheres to a very tight publication schedule: papers are published online within a few weeks of submission. In addition to regular articles, some issues feature a special section with a thematic focus.
