This open access and online-only journal publishes original articles covering the entire spectrum of cognitive dysfunction such as Alzheimer’s and Parkinson’s disease, Huntington’s chorea and other neurodegenerative diseases. The journal draws from diverse related research disciplines such as psychogeriatrics, neuropsychology, clinical neurology, morphology, physiology, genetic molecular biology, pathology, biochemistry, immunology, pharmacology and pharmaceutics. Strong emphasis is placed on the publication of research findings from animal studies which are complemented by clinical and therapeutic experience to give an overall appreciation of the field. 

*Dementia and Geriatric Cognitive Disorders Extra* provides additional contents based on reviewed and accepted submissions to the main journal *Dementia and Geriatric Cognitive Disorders*. 

**Dementia and Geriatric Cognitive Disorders Extra**
