Case Reports in Orthopedic Research

www.karger.com/cio

- open access
- peer-reviewed
- fast online publication

This peer-reviewed online-only journal publishes original case reports covering the entire spectrum of orthopedics, including prevention, diagnosis, treatment and rehabilitation, quality of life, and pediatric issues. The journal will also accept case reports dealing with the use of novel technologies, both in the area of diagnosis and treatment. Supplementary material is welcomed. The intent of the journal is to provide clinicians and researchers with a tool to disseminate their personal experiences to a wider public as well as to review interesting cases encountered by colleagues all over the world. Universally used terms can be searched across the entire growing collection of case reports, further facilitating the retrieval of specific information and clinical progress, and improving orthopedic clinical treatment and the quality of life of patients.

Following the open access principle, the entire contents can be retrieved at no charge, guaranteeing easy access to this valuable source of anecdotal information at all times.
Benefits for Authors
• rapid peer-review process
• fast online publication
• no color charges
• Digital Object Identifiers (DOIs) facilitate the unique and persistent identification of research material

Submission
Case Reports in Orthopedic Research is an open-access, peer-reviewed online-only journal and accepts original case reports in the field of Orthopedics.

Please refer to the online guidelines for detailed submission instructions and conditions
