Dear Reader,

We are pleased to announce the start of the new journal *Case Reports in Acute Medicine* which is the most recent in the successful Karger Case Reports Series.

With the start of *Case Report in Acute Medicine* we are addressing the many requests to provide a platform for case reports on acute medicine topics which makes it possible to share the latest findings with colleagues, to provide information and to learn from each other. In the first year we offer to publish your article free of charge. Benefit from this offer and submit your article now.

Best regards,

More information at [www.karger.com/cra](http://www.karger.com/cra)
This peer-reviewed online-only journal publishes original case reports covering the entire spectrum of acute medicine, including emergency medicine, intensive care, and disaster medicine. Clinicians and researchers are given a tool to disseminate their personal experience to a wider public as well as to review interesting cases encountered by colleagues all over the world. To complement the contributions supplementary material is welcomed. The journal will also accept case reports dealing with the use of novel technologies, both in the area of diagnosis and treatment. Supplementary material is welcomed. Universally used terms can be searched across the growing collection of case reports, further facilitating the retrieval of specific information. Following the open access principle, the entire contents can be retrieved at no charge, guaranteeing easy access to this valuable source of anecdotal information at all times.
