Fast Facts: Acute Coronary Syndromes
Authors: Gurbel, P.A.; Tantry, U.S.; Huber, K.
128 p., 20 fig., 20 in color, 2014
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)  
eISBN: 978-1-908541-57-4
An international evidence-based primer that focuses on optimizing patient outcomes via accurate initial diagnosis, ischemic risk stratification, assessment of bleeding risk and appropriate therapeutic decision-making in line with both American and European management guidelines. It is an essential resource for healthcare professionals looking for easy-to-read information that will assist best practice in the identification and management of all patients with acute coronary syndromes.

Fast Facts: Cardiac Arrhythmias
3rd edition
Authors: Kaye, G.; Lemery, R.
184 p., 48 fig., 48 in color, 2018
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)  
eISBN: 978-1-912776-14-6
A highly readable handbook that cuts through the complexities of heart rhythm abnormalities. It includes recent pharmacological advances, such as the gradual replacement of warfarin anticoagulation with direct oral anticoagulants, and technological advances, such as the use of smartphone and smartwatch systems to record heart rhythms, and the latest thinking on catheter and surgical ablation.

Fast Facts: Heart Failure
2nd edition
Authors: Korczyk, D.; Kaye, G.
152 p., 27 fig., 27 in color, 2017
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)  
ISBN: 978-1-910797-46-4
Effective new treatments – from drugs to surgery to devices – are revolutionizing both outcome and wellbeing in patients with heart failure. With simple advice on diagnosis and investigation, clear management principles and evidence-based guidance on first- and second-line drug therapies, devices and transplantation, this highly readable resource will help primary care providers, cardiology nurses and trainees get up to speed. It is also a good introduction to the subject for all healthcare professionals who care for the elderly.

Fast Facts: Hyperlipidemia
5th edition
Authors: Sniderman, A.; Durrington, P.
142 p., 34 fig., 34 in color, 2010
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)  
eISBN: 978-1-905832-63-7
A crisp and accurate summary of lipid disorders that addresses the importance of considering lipoprotein particles, not just their lipids. Using clear language and illustrations, the authors, who are renowned experts from the UK and USA, interpret clinical trial evidence in the context of pathogenesis and provide practical solutions to the routine problems encountered in the clinical management of hyperlipidemias.

Fast Facts: Hypertension
5th edition
Authors: MacGregor, G.A.; Stowasser, M.
96 p., 22 fig., 22 in color, 2016
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)  
ISBN: 978-1-910797-03-7
eISBN: 978-1-910797-04-4
Hypertension is the biggest cause of death and disability in the world, yet it remains underdiagnosed, undertreated and, in many cases, poorly controlled. This highly readable refresher for everyday use advises on the accurate measurement of blood pressure, management of other modifiable risk factors, and effective use of all drug and non-drug treatments. With specific sections on people with secondary hypertension, and the treatment of children, pregnant women, the elderly and diabetics, this practical resource supports better investigation and management of high blood pressure.

Fast Facts: Vascular and Endovascular Surgery Highlights 2011-12
Authors: Davies, A.H.
96 p., 4 fig., 4 in color, 2012
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)  
ISBN: 978-1-908541-26-0
eISBN: 978-1-908541-29-1
A brief update on key areas of interest in the field of vascular disease. Contributions from leading experts around the world include the fenestrated Anaconda stent graft, treatment of iliofemoral DVT, management of the diabetic foot and super fast-track total arch replacement. This refreshingly readable resource provides an overview of what’s in, what’s out and what’s new in vascular and endovascular surgery.
Fast Facts: Acne
2nd edition
Authors: Layton, A.M.; Thiboutot, D.; Bettoli, V.
104 p., 43 fig., 43 in color, 2016
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)
eISBN: 978-1-908541-90-1

A concise overview of the clinical features of acne and available treatments – including their respective modes of action and potential adverse events – and advice on treatment selection. With discussion of the use of antibiotics and the current concerns regarding overprescribing and antibiotic resistance, this practical resource is ideal reading for family practitioners, nurse prescribers, pharmacists and dermatology trainees wanting to get up to speed on this challenging disease.

Fast Facts: Disorders of the Hair and Scalp
Revised 2nd edition
Authors: Sinclair, R.; Jolliffe, V.
136 p., 65 fig., 65 in color, 2013
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)

A practical resource that will help healthcare professionals diagnose a wide range of hair and scalp disorders, perform further investigations and, where appropriate, provide treatment options. Highlights include a well-illustrated overview of hair biology and the normal hair cycle, and a concise explanation of the role of androgens and genetics in male and female pattern hair loss. It also provides practical steps for the assessment of diffuse hair loss, comprehensive details of topical and systemic therapies for alopecia areata, and an overview of special problems in children.

Fast Facts: Eczema and Contact Dermatitis
Authors: Berth-Jones, J; Tan, E.; Malbach, H.I.
96 p., 56 fig., 56 in color, 2004
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)
eISBN: 978-1-910797-99-0

A concise and practical text that succinctly and clearly summarizes the clinical manifestations of eczema and contact dermatitis and the various treatment options. Written by world experts, this highly readable resource covers both allergic and irritant contact dermatitis and all key forms of eczema, with an evidence-based approach that can be applied immediately by the primary healthcare team.

Fast Facts: Minor Surgery
2nd edition
Authors: Price, C.J.; Sinclair, R.
118 p., 55 fig., 55 in color, 2008
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)
ISBN: 978-1-908541-36-1
eISBN: 978-1-908541-37-6

Dermatological surgery is now routine in primary care; most minor procedures are straightforward and require minimal time. Success is dependent on the practitioner’s ability to recognize lesions, choose and plan appropriate treatment and surgical interventions, and perform surgical procedures. This practical resource provides an overview, complemented with superb illustrations, of the good practice and operative set-up required for dermatological surgery, the skin lesions commonly encountered in primary care, and the various techniques and procedures involved in their treatment.

Fast Facts: Psoriasis
4th edition
Authors: Menter, A.; Smith, C.; Barker, J.
118 p., 32 fig., 32 in color, 2014
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)
ISBN: 978-1-908541-74-1
eISBN: 978-1-908541-81-9

Psoriasis can no longer be considered a mere skin disease – it is a spectrum of different conditions requiring a spectrum of different treatments. Fast Facts: Psoriasis is packed with practical information on all aspects of this increasingly treatable disease, including a concise review of the immunologic and genetic aspects of the disease, a well-illustrated guide to clinical presentation and differential diagnosis, and all management options from topical treatments to current and emerging receptor-targeted therapies.

Fast Facts: Skin Cancer
2nd edition
Authors: Agnew, K.L.; Bunker, C.B.; Arron, S.T.
116 p., 67 fig., 67 in color, 2015
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)

Skin cancer is both preventable and treatable, yet it is becoming alarmingly common. The key to successful treatment (other than education and prevention) is early recognition and swift referral. Fast Facts: Skin Cancer has been written by three international experts to equip healthcare professionals with the necessary skills to save lives. With over 100 color illustrations to assist with the identification of at-risk individuals and early lesions, this practical resource will assist clinical practice, education and training, and is essential reading for generalists and specialists alike.
Endocrinology & Diabetes

Fast Facts: Diabetes Mellitus
5th edition
Authors: Scobie, I.N.; Samaras, K.
136 p., 33 fig., 33 in color, 2014
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)
ISBN: 978-1-908541-55-0

As well as providing a practical approach to the causes and clinical manifestations of types 1 and 2 diabetes, this effective handbook is packed with information on early detection, and comprehensive details of the latest drug therapies, insulin regimens, delivery methods and injection sites. Importantly, it provides simple clear messages to give to your patients to maximize their self-management skills.

Fast Facts: Obesity
2nd edition
Authors: Haslam, D.; Wittert, G.
144 p., 19 fig., 19 in color, 2014
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)

“Patients who smoke are rapidly identified for intervention, and the same should be true of anyone who is obese,” say the authors of Fast Facts: Obesity. Packed with practical advice on how best to support your patients, and issues specific to the management of obesity in children, pregnant women and the elderly, this easy-to-read resource is an excellent primer for any healthcare professional who wants to understand this major threat to human health and ultimately improve outcomes.

Fast Facts: Thyroid Disorders
Authors: Daniels, G.H.; Dayan, C.M.
144 p., 30 fig., 30 in color, 2006
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)
ISBN: 978-1-903734-65-0
eISBN: 978-1-905832-18-7

Thyroid disorders are generally very responsive to treatment, but there are traps for the unwary – not least because of the frequent atypical presentations and the widespread prevalence of subclinical disease. Written by two leading experts of international standing who share a wealth of clinical and research experience, this text is a concise and practical guide to when to test, when to treat and when to refer, for all who manage patients with these common conditions.

Fast Facts: Irritable Bowel Syndrome
2nd edition
Authors: Thompson, W.G.; Heaton, K.W.
96 p., 40 fig., 40 in color, 2003
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)
ISBN: 978-1-903734-33-9
eISBN: 978-1-912776-02-3

Early detection is essential if patients are to be offered the best chance of survival from colorectal cancer. In addition, new drug therapies have changed the way colorectal cancer is treated. Written by three international specialists, this useful resource discusses therapeutic developments in both the adjuvant and metastatic setting, provides information on the genetic factors that contribute to development of the disease, and offers expert guidance on diagnosis, screening and treatments.

Gastroenterology & Hepatology

Fast Facts: Celiac Disease
2nd edition
Authors: Holmes, G.; Catassi, C.; Fasano, A.
128 p., 45 fig., 45 in color, 2009
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)
ISBN: 978-1-905832-56-9

This concise guide provides details on celiac disease in all its forms – typical, atypical, silent, potential and latent. Written by three world experts, it also covers gluten sensitivity, genetic risk, the variable presentation of disease, associated immune disorders, and the emotional and social implications of specialist diets. The puzzle of diagnosis is tackled with information on clinical, serological, histological and genetic investigation alongside practical management strategies. It is an excellent clinical resource for anyone who wants to know more about this challenging disease.

Fast Facts: Colorectal Cancer
3rd edition
Authors: Taylor, I.; Garcia-Aguilar, J.; Ward, R.
96 p., 29 fig., 29 in color, 2010
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**)
ISBN: 978-1-905832-02-6
eISBN: 978-1-905832-79-8

It is an excellent clinical resource for anyone who wants to know more about this challenging disease.
Fast Facts: Inflammatory Bowel Disease
5th edition
Authors: Rampton, D.S.; Shanahan, F.
152 p., 32 fig., 32 in color, 2016
CHF 25.00 / EUR 18.00 / USD 25.00 (hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00 (online**)
eISBN: 978-1-910797-16-7
Ulcerative colitis and Crohn’s disease, referred to collectively as inflammatory bowel disease (IBD), are chronic debilitating disorders. This highly readable, ‘zippy’ fifth edition provides succinct yet thorough information that will aid early recognition of these disorders and their complications, alongside practical holistic management advice. The authors place important emphasis on the doctor–patient relationship and effective multidisciplinary services, making it invaluable reading for all healthcare professionals involved in the care of patients with IBD.

Fast Facts: Liver Disorders
2nd edition
Authors: Mahl, T.; O’Grady, J.
118 p., 16 fig., 16 in color, 2014
CHF 25.00 / EUR 18.00 / USD 25.00 (hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00 (online**)
eISBN: 978-1-908541-83-3
With rising levels of alcohol consumption, obesity and viral hepatitis infection, liver disease is presenting more and more frequently in general practice. Healthcare professionals need to be adept at isolating the cause of disease and initiating prompt action. Fast Facts: Liver Disorders is designed to help primary care providers, hospital doctors and specialist nurses understand the most important issues as quickly as possible, including the indicators of severe disease in order to identify patients who need specialist referral.

Fast Facts: Pancreas and Biliary Tract Diseases
2nd edition
Authors: Bhutani, M.S.; Vilmann, P.; Safotiu, A.
150 p., 47 fig., 47 in color, 2017
CHF 25.00 / EUR 18.00 / USD 25.00 (hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00 (online**)
eISBN: 978-1-910797-41-9
Pancreaticobiliary diseases are extremely common, and all primary care staff will encounter patients with diseases of the pancreas and biliary tract. Rapid differentiation, diagnosis, treatment and/or referral to a specialist must be made to avoid serious life-threatening consequences. It is therefore essential that every clinician has at least a basic understanding in this area. This book provides a clear and concise guide to diagnosis and management of these diseases. It is an invaluable resource for healthcare professionals faced with the challenge of caring for patients with diseases of the pancreas and biliary tract.

Fast Facts: Biosimilars
Authors: Cornes, P.; Bennett, D.J.
70 p., 12 fig., 12 in color, 2018
CHF 25.00 / EUR 18.00 / USD 25.00 (hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 90.00 (online**)
eISBN: 978-1-910797-68-6
Biosimilars have been in clinical use for more than 10 years, and evidence from more than 700 million patient-days’ exposure shows that approved biosimilars can be used as safely and effectively as their originator biologics. Yet concerns about these drugs persist, particularly in therapy areas where they are recent additions to the formulary. Fast Facts: Biosimilars provides a comprehensive yet concise explanation of biosimilars: what they are, how they are regulated, and how they are used in clinical practice.

Fast Facts: Immuno-Oncology
Authors: Clarke, S.; Li, B.T.
88 p., 20 fig., 20 in color, 2017
CHF 25.00 / EUR 18.00 / USD 25.00 (hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00 (online**)
ISBN: 978-1-910797-70-9
eISBN: 978-1-910797-71-6
The treatment of cancer is being revolutionized by drugs that modulate the immune system, offering the prospect of long-term response and extended survival for many patients with advanced incurable cancer. This highly readable resource takes you from the fundamentals of immunology through to the new concepts of immunoediting and immunotherapy and likely future directions. Whether you are a practicing oncologist, cancer researcher or industry professional, this book provides all you need to know about immuno-oncology, concisely summarized.

Fast Facts: Infant Nutrition

CHF 125.00 / EUR 90.00 / USD 125.00  
(eBook)  
ISBN: 978-1-910797-33-4  

A comprehensive overview of multiple myeloma and other plasma cell dyscrasias, from bench to bedside, presenting the pathogenesis, diagnosis and treatment in the context of daily clinical practice. From the latest advances in diagnostic tests and imaging, including cytogenetics and genetic profiling, to new lenalidomide- and bortezomib-based regimens, second-generation proteasome inhibitors and monoclonal antibody treatments, this highly readable resource is essential reading for anyone wanting to keep abreast of current knowledge in this area.

**Fast Facts: Myeloproliferative Neoplasms**

Authors: Mesa, R.A.; Harrison, C.N.  
120 p., 24 fig., 24 in color, 2018  
CHF 25.00 / EUR 18.00 / USD 25.00  
(hard cover or online*)  
CHF 125.00 / EUR 90.00 / USD 125.00  
(eBook)  
eISBN: 978-1-910797-80-8

The presentation of myeloproliferative neoplasms (MPNs) varies widely, and correct diagnosis and management is becoming more complex as understanding of the underlying molecular basis for these disorders emerges. Appropriate management is increasingly informed by accurate risk stratification based on cytogenetic and molecular markers, as well as the clinical presentation. This concise handbook is invaluable reading for all clinicians wanting to understand and overcome the everyday and rarer challenges associated with MPN.

**Fast Facts: Pyruvate Kinase Deficiency**

Authors: Glader, B.; Barcellini, W.; Grace, R.  
64 p., 11 fig., 11 in color, 2018  
CHF 25.00 / EUR 18.00 / USD 25.00  
(hard cover or online*)  
CHF 125.00 / EUR 90.00 / USD 125.00  
(eBook)  
ISBN: 978-1-910797-88-4  
eISBN: 978-1-910797-89-1

Pyruvate kinase deficiency is a rare inherited enzyme disorder that affects the glycolytic pathway used by red blood cells to generate energy, manifesting as hemolytic anemia. Written by experts in the field, this refreshingly readable resource is a comprehensive introduction to the condition that includes details of the underlying defect, its mode of inheritance and how it manifests. It covers the fundamentals of diagnosis and how to differentiate PK deficiency from a heterogeneous group of hemolytic disorders, and provides invaluable information on monitoring and management.

**Fast Facts: Anxiety, Panic and Phobias**

2nd edition  
Authors: Lader, M.H.; Uhde, T.W.  
100 p., 4 fig., 4 in color, 2006  
CHF 25.00 / EUR 18.00 / USD 25.00  
(hard cover or online*)  
CHF 125.00 / EUR 90.00 / USD 125.00  
(eBook)  
ISBN: 978-1-903734-41-4  
eISBN: 978-1-905832-21-7

A user-friendly, fact-filled resource that provides expert guidance on the diagnosis and management of the most commonly presenting disorders, covering all therapeutic strategies. Written by two of the world’s leading specialists, this book covers both the psychiatric and psychopharmacological approaches to all the major presenting disorders, including post-traumatic stress disorder and obsessive-compulsive disorder.

**Fast Facts: Bipolar Disorder**

2nd edition  
Authors: Goodwin, G.; Sachs, G.  
116 p., 14 fig., 14 in color, 2010  
CHF 25.00 / EUR 18.00 / USD 25.00  
(hard cover or online*)  
CHF 125.00 / EUR 90.00 / USD 125.00  
(eBook)  
ISBN: 978-1-905832-52-1  
eISBN: 978-1-905832-72-9

A highly accessible synopsis of current understanding of, and strategies for, bipolar disorder. Bipolar disorder is no longer a rare disorder seen only by psychiatrists, and this handbook provides an invaluable overview for all healthcare professionals involved in the care of people with the condition. Written by two experts of international renown, this pithy, erudite resource describes the diagnosis, etiology and short- and long-term treatment strategies for this historically neglected condition.

**Fast Facts: Depression**

4th edition  
Authors: Haddad, M.; Boyce, P.  
136 p., 10 fig., 10 in color, 2017  
CHF 25.00 / EUR 18.00 / USD 25.00  
(hard cover or online*)  
CHF 125.00 / EUR 90.00 / USD 125.00  
(eBook)  
eISBN: 978-1-910797-62-4

Clinicians face a wide range of presentations, and the challenge of delineating true depression from normal human responses to difficult situations; they then have to decide the best course of treatment. This practical handbook provides concise, clear descriptions of the features, identification and management of depression as well as the wider context of cause, prevention and cost. An ideal resource for healthcare professionals working in primary care and specialist medical centers.
Fast Facts: Eating Disorders
**Authors:** Steiner, H.; Flament, M.F.
**Edition:** 4th edition
**Pages:** 192
**Figures:** 28
**Color:** 28
**Year:** 2017
**Price:** CHF 125.00 / EUR 90.00 / USD 125.00
**ISBN:** 978-1-903734-91-9
**eISBN:** 978-1-908541-11-6

A concise guide to the detection, diagnosis and treatments for anorexia, bulimia and related disorders. It includes a practical overview of the risk factors, behavioral and physical signs and symptoms, screening tools and laboratory investigations, as well as questions to ask the patient and treatment goals and options. Here, the authors address the important role of frontline healthcare workers in detecting eating disorders, working with the treatment team and monitoring the patient.

Fast Facts: Schizophrenia
**Authors:** Lewis, S.W.; Buchanan, R.W.
**Edition:** 4th edition
**Pages:** 120
**Figures:** 17
**Color:** 17
**Year:** 2015
**Price:** CHF 25.00 / EUR 18.00 / USD 25.00
**ISBN:** 978-1-903734-39-1
**eISBN:** 978-1-910797-09-9

“By listening to patients’ experiences, alongside the latest research, we now know much more about ‘what works,’” say the authors of this practical handbook. Here, they present the current state of knowledge about the neurobiology, diagnosis and treatment of schizophrenia, including the DSM-5 diagnostic criteria, a comprehensive review of drug and non-drug treatment strategies and how to improve adherence, and the latest findings from structural and functional imaging studies.

Fast Facts: Specific Learning Difficulties
**Authors:** Kirby, A.; Kaplan, B.J.
**Edition:** 2nd edition
**Pages:** 76
**Figures:** 27
**Color:** 27
**Year:** 2003
**Price:** CHF 25.00 / EUR 18.00 / USD 25.00
**ISBN:** 978-1-905832-87-3
**eISBN:** 978-1-905832-89-7

As more and more children present to family physicians with learning and attention problems, the overlap between the concerns of health and education professionals can become confused. Dyslexia, developmental coordination disorder and attention deficit hyperactivity disorder often occur together and with oppositional defiant disorder, conduct disorder, Asperger’s syndrome or OCD. This practical guide clarifies the primary care team’s role in the treatment and management of these disorders.

Fast Facts: Brain Tumors
**Authors:** Abrey, L.E.; Mason, W.P.
**Edition:** 2nd edition
**Pages:** 144
**Figures:** 45
**Color:** 45
**Year:** 2011
**Price:** CHF 25.00 / EUR 18.00 / USD 25.00
**ISBN:** 978-1-905832-89-7
**eISBN:** 978-1-905832-89-7

Despite the availability of many effective treatments, there remains a therapeutic nihilism associated with brain tumors. This highly readable Fast Facts title challenges this view, starting from the premise that patients with brain tumors can truly benefit from a thoughtful multidisciplinary approach. It covers all the salient features of the various brain tumors and treatment modalities in a way that is useful to the practicing clinician, bridging the gap between primary care providers – whose role is pivotal in tumor detection and subsequent patient care – and neurology specialists.

Fast Facts: Chemotherapy-Induced Nausea and Vomiting
**Authors:** Navari, R.M.; Rapoport, B.L.
**Edition:** 4th edition
**Pages:** 88
**Figures:** 13
**Color:** 13
**Year:** 2016
**Price:** CHF 25.00 / EUR 18.00 / USD 25.00
**ISBN:** 978-1-910797-16-3
**eISBN:** 978-1-910797-48-8

Few side effects of cancer treatment are more feared by patients than nausea and vomiting. Failure to control these symptoms on the first day of chemotherapy increases the risk of them occurring on subsequent days and in subsequent cycles of chemotherapy, and can result in patients refusing further cancer treatment. This practical resource presents the evidence for the clinical agents that can prevent CINV, along with clear guidance on their use in various clinical settings using international guidelines.

Fast Facts: Chronic and Cancer Pain
**Authors:** Cousins, M.J.; Gallagher, R.M.
**Edition:** 4th edition
**Pages:** 192
**Figures:** 28
**Color:** 28
**Year:** 2017
**Price:** CHF 125.00 / EUR 90.00 / USD 125.00
**ISBN:** 978-1-910797-35-8
**eISBN:** 978-1-910797-48-8

Written by two internationally renowned experts in the field, this highly readable resource is designed to bring busy healthcare professionals up to speed with the latest information in this area. With easy-to-read overviews of pain mechanisms, a practical approach to pain assessment, an overview of developments in stepped care and multimodal management, and the latest thinking on opioids, it is essential reading for all healthcare professionals at all levels wanting – and needing – to know more.
A succinct and practical aid to the diagnosis and treatment of seizure disorders. Along with the diagnostic essentials, it covers drug selection - including an overview of all antiepileptic medications on the market - and therapy withdrawal, non-pharmacological options for patients with medically refractory epilepsy, and psychiatric comorbidities. It also gives special consideration to the management of pregnant women, elderly people, teenagers and people with learning disabilities.

Obstetrics & Women’s Health

The world-class authors of this popular fact-packed handbook provide practical advice on all the key areas of breast cancer management, from risk factors and diagnosis to treatment of all cancer stages. The chapter dedicated to perception of risk will refresh your knowledge and help you talk to your patients about their individual prospects, while the short chapter on clinical trials will help you discuss potential participation in trials and answer common questions.

Myasthenia gravis (MG) is a rare autoimmune disorder of the neuromuscular junction, characterized by muscle fatigability. This concise guide takes an in-depth look at the immune-mediated nature of MG, how the disease is classified, its clinical presentation and diagnostic work-up, and conventional management options. Importantly, it examines how patients with treatment-refractory MG present and the assessment tools that can be used to identify non-responders. It is useful reading for all healthcare professionals caring for patients with this rare disease.

In this ever-changing field, ‘no evidence of disease activity’ has now been proposed as a new treatment target, there are data on pharmacological treatments for progressive MS, and remyelination has shown positive effects on nerve repair. In addition to these updates, this concise resource provides a highly readable overview of investigations and modern diagnostic criteria, a holistic approach to all signs and symptoms, a proactive guide to relapse management and a useful summary of disease-modifying drugs, including when to treat, choice of drug and risk versus benefit.

Effective multidisciplinary management and support of patients with Parkinson’s disease can have an enormously positive effect on quality of life, and that’s the focus throughout this refreshingly readable handbook. With the patient’s experience at its core, this truly useful and unique resource takes the non-specialist through on quality of life, and that’s the focus throughout this refreshingly readable handbook. With the patient’s experience at its core, this truly useful and unique resource takes the non-specialist through the patient’s Parkinson’s journey from unexplained prodromal symptoms to palliative support, including the importance of addressing non-motor symptoms and the need for tools that can help patients.

A comprehensive overview of stage 0, I, II and IIIA disease, including the latest thinking on the risk of developing breast cancer and the value (or not) of screening, alongside the importance of clinical staging and triple assessment. Using clear diagnostic and management pathways, this practical resource covers the risks and benefits of neoadjuvant treatment, surgical and reconstruction options, the latest approach to radiotherapy, when and how to select the correct adjuvant therapy, and guidelines for follow-up and rehabilitation.

When it comes to detecting, diagnosing and treating women who have, or are suspected of having, ovarian cancer, there are significant opportunities for well-informed healthcare professionals to intervene in a meaningful way. Here, internationally renowned authors examine the areas that will have the biggest effect in clinical practice. They include the evidence for and against screening, the valuable role of genetic testing in identifying at-risk women, if and when to operate, strategies to overcome platinum resistance, and the impact of targeted therapies.

Packed with superb illustrations, this highly readable resource is bursting with practical information on the disease. As well as a concise overview of glaucoma subtypes and a clear explanation of its pathophysiology alongside what the patient actually experiences, it presents the key elements of a comprehensive eye examination and the latest medical and surgical treatments. Importantly, the authors discuss how to minimize the impact of the disease on the patient and reduce risk factors, and how to monitor the condition — including detail of follow-up examinations.

Designed for ease and speed of use in clinical practice, this concise guide will empower you with the knowledge to triage your patients into three main groups: emergencies requiring immediate referral, non-emergencies requiring routine referral, or those with treatable conditions. With assessment by sign or symptom — from red eye to trauma — it is valuable reading for all doctors, optometrists, ophthalmic nurses and other health professionals involved with eye care within the community.
Respiratory Medicine

Fast Facts: Asthma
4th edition
Authors: Holgate, S.T.; Douglass, J.A.
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-908541-13-0
eISBN: 978-1-908541-41-3

This well-illustrated handbook delivers a clear practical message – improved asthma control can be achieved through efficient commonsense delivery of asthma care, alongside strategies that improve patient self-management and medication use. It is ideal for general practitioners, asthma nurses, medical students and asthma educators seeking a practical overview of good asthma care that will help with individualized management plans and patient education, and improve outcomes and quality of life for the very many people living with asthma.

Fast Facts: Chronic Obstructive Pulmonary Disease
3rd edition
Authors: Drummond, M.B.; MacNee, W.
148 p., 50 fig., 50 in color, 2016
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-908541-73-4
eISBN: 978-1-908541-87-1

This easy-to-read, highly accessible handbook takes a comprehensive look at the COPD disease process and its relationship with asthma, and covers all investigations and interventions with reference to international guidelines. With clear take-home messages, it has been designed so that all healthcare professionals involved in the diagnosis and management of COPD can get up to speed on this multifaceted disease, fast.

Fast Facts: Non-Small-Cell Lung Cancer
Authors: O’Brien, M.; Besse, B.
86 p., 8 fig., 8 in color, 2016
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-910797-19-8
eISBN: 978-1-910797-30-3

Rapid developments in the classification, screening and treatment of non-small-cell lung cancer are improving outcomes for patients with the disease. This insightful guide is designed to bring you up to speed with recent advances. Covering the latest on CT-based screening, changes to the TNM classification system and the increasing trend for minimally invasive and lung-sparing surgery, it is important reading for all healthcare professionals and medical trainees working in this fast-moving area. Today’s developments will change tomorrow’s standards of care!

Fast Facts: Obstructive Sleep Apnea
Authors: Naughton, M.T.; Phillips, B.
76 p., 25 fig., 25 in color, 2004
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-903734-47-6
eISBN: 978-1-912776-03-0

Obstructive sleep apnea is an increasingly common condition that is treatable provided it is recognized and managed appropriately. The work of two experienced international experts, this concise and thorough text is specifically targeted at those working in primary care who need to diagnose and manage this disorder successfully in cooperation with specialists. An excellent introduction to sleep-disordered breathing.

Fast Facts: Respiratory Tract Infection
2nd edition
Authors: Read, R.C.; Craven, D.E.
126 p., 60 fig., 60 in color, 2003
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-903734-22-3
eISBN: 978-1-912776-04-7

A logically organized and focused practical guide to the management of infections of the respiratory tract. It recognizes the challenges faced by clinicians today in light of a gamut of respiratory pathogens, antibiotic resistance, and the difficulties of reaching a rapid diagnosis. Written by experts of international standing, it is ideal for physicians, nurses and medical students looking for information on the clinical features, diagnosis and management of lower respiratory tract infections.

Fast Facts: Rhinitis
2nd edition
Authors: Scadding, G.K.; Fokkens, W.J.
120 p., 55 fig., 55 in color, 2007
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-905832-35-4
eISBN: 978-1-905832-06-4

The effects of the symptoms of rhinitis, allergic or otherwise, on quality of life are well documented. While severely affected individuals are treated by a variety of specialists, depending on the presenting condition, most are seen by generalists. This short and very practical text has been written specifically for this group to aid early, accurate diagnosis and make referral decisions easier. Covering the treatment of allergic and other forms of rhinitis, acute and chronic rhinosinusitis, and nasal polyps, it will also help to optimize the management of these conditions.

Ultimately, the best reason for reading this book is to help your patients who smoke to change their behavior for the better and sustainably. Every GP and support clinic will benefit from this edition, filled with tips, advice and treatment aids for the clinical team. In this one place, you will find all the information you need on smoking, tobacco addiction and how best to treat the addiction.

Rheumatology

Fast Facts: Ankylosing Spondylitis
Authors: Dougados, M.; van der Heijde, D.
84 p., 20 fig., 20 in color, 2004
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-903734-44-5
eISBN: 978-1-910797-97-6
A practical handbook that provides a clear and concise overview of the clinical features of ankylosing spondylitis and the differential diagnoses, information on the genetic basis of the disorder, and management options, including physical therapy, non-steroidal anti-inflammatory agents and disease-modifying drugs.

Fast Facts: Low Back Pain
2nd edition
Authors: Borenstein, D.G.; Calin, A.
144 p., 51 fig., 51 in color, 2012
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-908541-10-9
eISBN: 978-1-908541-16-1
Low back pain is one of the most common presenting complaints. In 70% of cases, however, no obvious cause is apparent. This makes a thorough history and skilled physical examination essential to identifying the cause of symptoms and developing an effective therapeutic plan. Here, two leading experts provide guidance that will equip the general healthcare professional with the knowledge and skill required to accurately assess each individual patient and offer the appropriate therapeutic choices for maximum pain relief.

Fast Facts: Osteoarthritis
3rd edition
Authors: Conaghan, P.G.; Nelson, A.E.
112 p., 29 fig., 29 in color, 2017
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-910797-56-3
eISBN: 978-1-910797-57-0
This highly accessible, practical resource is essential reading for all healthcare professionals who have ever felt unable to provide effective therapy for this disease, or who have encountered negative patient and community attitudes to joint pain. Starting from the premise that “something can be done to help every person with osteoarthritis,” the authors provide expert advice on well-established diagnostic criteria and modern imaging modalities, updates on the genetics of the disease, and the latest practical treatment information, including intra-articular therapies.

Fast Facts: Osteoporosis
6th edition
Authors: Compston, J.E.; Rosen, C.J.
100 p., 36 fig., 36 in color, 2009
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-905832-51-4
eISBN: 978-1-905832-60-6
A refreshingly readable, practical guide that provides the family physician and other members of the healthcare team with the most pertinent information on diagnosis and treatment, while maintaining the background sections that clarify the pathophysiology of osteoporosis and the homeostatic determinants of peak bone acquisition and maintenance.

Fast Facts: Rheumatoid Arthritis
2nd edition
Authors: Isaacs, J.D.; Moreland, L.W.
116 p., 33 fig., 33 in color, 2011
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-905832-91-0
eISBN: 978-1-905832-93-4
An easy-to-read overview of how rheumatoid arthritis is thought to develop and how it is diagnosed, monitored and treated. Written by two leading UK and US rheumatologists, it provides an international perspective on the condition, including the emerging role of anti-CCP autoantibodies, developments in ultrasound and MRI, and the concepts of undifferentiated arthritis and treatment to remission. With an emphasis on the importance of early referral, it is a ‘must read’ for all health professionals caring for patients with this debilitating inflammatory joint disease.
Fast Facts: Soft Tissue Disorders
2nd edition
Authors: Speed, C.; Hazleman, B.; Dalton, S.
124 p., 83 fig., 83 in color, 2006
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-905832-44-0
Written from the combined perspectives of rheumatology, orthopedics and sports medicine, this concise guide is designed to provide primary care clinicians with a well-rounded and highly practical resource on diagnosis, management and patient involvement in recovery. It covers the structure of all the major soft tissues and their common pathologies and disorders, and each condition covered includes a set of practical exercises for the patient.

Urology, Renal & Genitourinary Medicine

Fast Facts: Benign Prostatic Hyperplasia
7th edition
Authors: Kirby, R.S.; Gilling, P.J.
102 p., 35 fig., 35 in color, 2011
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-905832-92-7
eISBN: 978-1-905831-00-0
Written by two leading urologists, this is a refreshingly readable, practical overview of the pathophysiology, diagnosis and treatment of BPH. It covers the use of DRE and PSA results to discriminate between prostate cancer and BPH, an evidence-based review of the latest medical therapies, guidance on when to refer to a urologist, and a concise overview of all surgical and minimally invasive treatment options. Lower urinary tract symptoms are among the commonest reasons for a man to consult his doctor, and this ever-popular book is a must-read for all primary care providers.

Fast Facts: Bladder Cancer
3rd edition
Authors: Lerner, S.P.; Davis, I.D.
96 p., 25 fig., 25 in color, 2018
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-910797-64-8
A concise guide that will be of value to all healthcare professionals involved in the detection and treatment of bladder cancer. As well as covering current standards for investigation, imaging and diagnosis, this practical resource brings a fresh perspective on the roles of drugs, surgery and radiation therapy at different stages of the disease, with guidance on when and how best to intervene. It is a comprehensive and current view of this complex disease that will enable informed discussions with patients.

Fast Facts: Bladder Disorders
2nd edition
Authors: Slack, A.; Newman, D.K.; Wein, A.J.
128 p., 24 fig., 24 in color, 2011
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-905832-96-5
This fact-filled handbook covers everything you need to recognize the symptoms and signs of a wide range of bladder disorders from urinary incontinence to hematuria to UTIs. Three internationally recognized authors with different areas of expertise – a leading British urogynecologist, a chief of urology listed as one of America’s “Best Doctors”, and an American continence expert – have produced a practical guide of real value for the non-specialist working within a multidisciplinary team.

Fast Facts: Erectile Dysfunction
4th edition
Authors: Carson, C.; McMahon, C.G.
92 p., 22 fig., 22 in color, 2008
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-905832-96-5
With more and more individuals demanding access to the simple, effective treatments that are now available for erectile dysfunction (ED), healthcare professionals must be able to offer the confident and confidential support and advice they require. Complemented by simple, effective illustrations, this refreshingly readable resource provides succinct expert advice on the underlying causes of ED, a detailed approach to diagnosis – including questions to ask the patient, and a thorough review of all possible treatment options.

Fast Facts: Prostate Cancer
9th edition
Authors: Kirby, R.S.; Patel, M.I.
134 p., 41 fig., 41 in color, 2017
CHF 25.00 / EUR 18.00 / USD 25.00
(hard cover or online*)
CHF 125.00 / EUR 90.00 / USD 125.00
(online**) ISBN: 978-1-910797-37-2
eISBN: 978-1-910797-44-0
Primarily intended for primary care providers, specialist nurses, junior doctors and allied healthcare professionals, this highly readable resource provides a comprehensive overview of prostate cancer, enabling fully informed discussions with patients about this complex disease. Key updates in this 9th edition include the Gleason grade grouping, the development of genomic tests to help identify at-risk individuals, advances in imaging techniques, and the continuing debate about the role of PSA in screening, detection and monitoring.

ISBN: 978-1-910797-91-4
eISBN: 978-1-910797-92-1

A concise guide, written by three specialists of international repute, that provides the key information required for the optimal care of renal patients. This refreshingly readable resource will help healthcare professionals assess, identify, treat and refer patients with renal problems appropriately. Directly applicable to the clinical setting, it is essential reading on the presenting signs, differential diagnoses, treatment strategies and approach to complications for all primary care providers, junior hospital doctors, specialist trainees, renal nurses and medical students.

Every family physician now encounters patients with STIs. This concise guide provides a useful summary of current thinking on the diagnosis and effective management of these wide-ranging infections. Its practical and very logical presentation on the clinical management of STIs is aimed at general physicians, specialist nurses, trainees in genitourinary medicine and laboratory staff.

Information + Taking Control = Best Outcome is the theme running throughout this short, superbly illustrated workbook. Designed to equip patients with the best information about metastatic prostate cancer and to help them ask the right questions, this highly accessible resource will facilitate more meaningful discussions between patients and their care teams about their treatment.

The menopause transition affects different women in different ways, with symptoms ranging from mild to debilitating. This fact-filled workbook explains in simple language what happens during the perimenopausal years, highlights the long-term consequences of the menopause, and debunks the myths surrounding menopausal hormone treatment. With spaces to write notes and keep track of symptoms, it is the ideal resource to help women have informed discussions with their doctors or nurses and choose how they want to manage their menopause transition.

A short, highly illustrated workbook, designed to help patients equip themselves with the best information about myeloma. Starting with a simple overview of the biology of the disease, this comprehensive resource will also help patients to understand the type of myeloma that they have, the remitting-relapsing nature of the disease, and the signs and symptoms they are likely to experience.

Pyruvate kinase deficiency is a rare genetic disease that causes red blood cells to break apart. Despite an ever-growing understanding of the disease, it remains unfamiliar to many healthcare professionals, and the information available to patients is limited. This superbly illustrated workbook is designed to help patients equip themselves with the best information about their condition to improve the conversations they have about it with their doctors and nurses.
