Karger Open Access publications are prepared with the same quality that has been key to Karger Publishers for over 125 years. As with all Karger publications, this includes rigorous peer review and the highest scientific publishing standards to ensure superior contributions to scholarly literature, coupled with top-quality production, worldwide promotion and a long-term preservation arrangement, among other services. Karger Open Access publications are included in major abstracting and indexing databases and are listed in the Directory of Open Access Journals (DOAJ) to make them easy to find and cite. Most are searchable in PubMed Central.
